VOL. CXVI, No. 62

STORRS, CONNECTICUT

WEDNESDAY, JANUARY 31, 1962

**LINES, LINES AND MORE LINES:** The semesterly curse is on us again . . . Add and Drop. Beginning Tuesday and running for the next three weeks, students will be able to add or drop courses with which they are not pleased. Students planning to wait and add and drop next week should read the story below and see the procedures needed the longer he waits. (Campus Photo—Boglarski).

## Add And Drop Process Announced By Registrar

The Registrar has announced the procedure for adding and dropping courses for the spring semester. Until Friday, February 2, in order to add or drop courses, a student must see his counselor first, and then the department head for the course he is adding or dropping.

During the second week, February 5-9, the procedure changes. To add a course during the second week, a student must see his counselor, the instructor of the class he wants to add, the dean of his school or college, and the department head for the course to be added, in that order. To drop a course during the second week,

a student must see his counselor first, then the Dean of his school or college, Dr. Northby, and the department head for the course he is dropping.

To add a course the third week of the semester or later, a student must see his counselor, the course instructor, and the dean of his school or college. To drop a course without failure the third week or later, he must see his counselor, the dean of his school or college, and Dr. Northby.

Students are reminded that the counselor's signature is not needed for section changes and that it is advisable to add courses before dropping.

## Management Society Presents Panelists In Secretarial Night

The Society for the Advancement of Management will present a "Secretarial Night" beginning at 8 p.m. in the School of Business.

The panelists who will participate are Mrs. Lois Lyle, a private secretary with the Connecticut General Life Insurance Company and a graduate of the Uconn School of Business. Her topic will be "Relations Between a Beginning Secretary and Her Boss."

Mrs. Margaret Leachman, who studied at the Uconn Evening

College in Hartford and is now a private secretary at the New Departure Division of General Motors Corporation will speak on a "Secretary's Family Relations."

"The Importance of Secretaries in Management" will be the topic of Miss Sylvia Hansling, a private secretary at the Hartford National Bank and Trust Company. Miss Hansling is a graduate of Connecticut College for Women.

Mr. Marvin Curtis, a Yale graduate and manager of the East Hampton Office of the Connecticut Light and Power Company has taken "Relations Between the Boss and His Secretary" as his topic.

Mr. Curtis is president of the East Hampton Chamber of Commerce and was awarded the first District Award of the Meriden Junior Chamber of Commerce.

Mr. Dayson D. DeCoursey, assistant superintendent of sales promotion at Travelers Insurance will speak on "The Importance of Secretaries in Management."

## Campus, Glamour Seek Best Dressed Woman

By CAROL KEELEY

Who is the University of Connecticut's best dressed girl? The Connecticut Daily Campus has been invited by Glamour Magazine to help find this girl. Once the coed has been selected, she will be entered in the annual Glamour Contest to find the "Ten Best Dressed College Girls in America."

Each woman's living unit is asked to nominate a girl whom they feel will most appropriately represent the University of Connecticut woman. Uconn coeds are asked to keep the following judging standards in mind when they nominate their contestant: 1) Good figure and beautiful posture 2) Clean, shining, well kept hair 3) Good grooming—not just neat but impeccable. 4) A deft hand with make-up (enough to look pretty but not over done. 5) A clear understanding of her fashion type. 6) Imagination in managing a clothes budget. 7) A workable wardrobe plan. 8) Individuality in the use of colors and accessories. 9) A suitable campus look—she's in line with local customs. 10) An appropriate look for off-campus.

These are the points that Glamour Magazine Editors use when they judge the national competition. It is stressed that the nominee meets all these qualifications.

The young woman who best meets these qualifications will compete with the best dressed winners from hundreds of colleges in the United States and Canada for top honors in the Glamour contest.

### Judgings

Once the contestant has been chosen from the various living units, they will be invited to attend a series of preliminary judgments to be held in the HUB. The first of three coffees will be held February 8 at 7 p.m. in the HUB 208. From the representatives of

the woman's living unit, ten semi-finalists will be selected by a committee composed of student leaders and faculty members.

The winner of the title "Best Dressed Girl on Campus" will be photographed by a member of Photopool. Her picture will be sent to Glamour magazine where a panel of Glamour Editors will judge all the entries submitted in the national competition. The panel will consist of the Editor-in-Chief, Managing Editor, Art Editor, Fashion Editor and Beauty Editor.

The young women who are chosen the "Ten best Dressed College Girls in America" will be featured in the annual August College Issue of Glamour.

Photographs for this issue will be taken sometime during the months of April, May and June at a location not disclosed at press time. Former winners have been photographed on their own campuses, in New York, Princeton, New Jersey and Washington

D.C. with key political figures including President Kennedy, Vice-President Johnson and Mr. Nixon.

### Visit

An exiting all expense paid visit to New York in June is also in store for the "Top Ten." They will be flown to New York via American Airlines and will stay at the Biltmore Hotel. A highlight of the New York trip will be a fashion show at world famous Carnegie Hall where the winners will be presented to over 1,000 members of the fashion industry.

In addition to the personal recognition and prizes the winner will receive, the University will receive national publicity in Glamour Magazine and in newspapers throughout the country.

University women are asked to carefully consider and select a candidate from their dormitory. Names of the contestants are to be turned in by Friday, February 2, to Miss Carol Keeley at the Connecticut Daily Campus.

## Land Grant Colleges Warned By Leader

One of the nation's leading spokesmen for public higher education warned that the Land-Grant system of universities and colleges is in danger of becoming a victim of its own success.

Russell I. Thackrey, executive secretary-treasurer of the American Association of Land-Grant Colleges and State Universities, made this observation at a University of Connecticut Convocation last Wednesday.

Referring to the Land-Grant System whose centennial is being observed this year, Mr. Thackrey noted, "Virtually all of American higher education has, in theory at least, accepted the ideals which it pioneered."

These ideals he summarized as opportunity for all with talent, research as a function of a university, university responsibility to persons unable to attend college as students, and creation of new professional schools as the need arises.

"Yet there are those . . . who would undo most of what has been accomplished toward making higher education accessible to all who can benefit from it," he charged.

"Some would restrict the numbers going to the university by exams, given at the equivalent of about the sixth-grade age in our own schools," he said.

### Need New System

Mr. Thackrey, whose association represents 68 state universities and land-grant colleges, further contended that every nation which uses this rigid system is trying to unload it because it doesn't work.

"This doesn't prevent its being described in glowing terms as the answer for America. Others say access to higher education for everybody is just fine, but that since university graduates earn more than non-graduates, each individual should pay for his education at the time he gets it," he observed.

Mr. Thackrey sharply criticized the "charge-account" system of attending college because of its tendency to impose a heavy burden of debt on some young graduates, while causing little or no hardship to the more well-to-do.

"Such a system would make it important that young men without money would marry girls with money, or vice versa. Perhaps this would in time lead to a change in the marriage vow to read: 'With all my college debts, I thee endow.'"

Mr. Thackrey also saw little merit in the proposal to let students who can pay, pay and give scholarships to the rest.

"This policy in time would result in one of two things: Either hundreds of thousands of students will be denied access to higher education; or, we will have to have hundreds of thousands of scholarships."

"There are no two ways about it. One of the great virtues of our system of higher education is that, in addition to providing higher education for the specially gifted few, it has provided it for many who are perfectly qualified to do college work but are not in the upper 10 per cent or so to whom scholarship awards now go," he insisted.

"The best scholarship system ever devised for keeping opportunity open is the public university, open to all and supported by all," he concluded.

### Lauds Jorgensen

Earlier in his talk, Mr. Thackrey lauded Uconn President A. N. Jorgensen for the work he has done in Connecticut to bring the basic "Land-Grant" ideal of opportunity to fruition over the past 26 years.

"Dr. Jorgensen has put Connecticut ahead in the Northeast in really making opportunity available, though it still has a long way to go."

## Saving On Books

For many years the students on this campus have been complaining about the prices that are charged in the bookstore. The Student Senate has conducted several studies looking into the financing of this institution, only to find out that there is nothing that we as students can do to alter the prices or control the profits of our bookstore.

This year, as in past years, Alpha Phi Omega is sponsoring a book exchange program. Students are afforded the opportunity of purchasing used books from other students directly, with APO acting only as an agent.

The details of the exchange program are as follows. Students having books to sell can bring them to the South Lobby of the Union. Here they are asked to fill out a card indicating the price that they would like for the book and their name and address. The cards are then inserted in the books. Students who desire to purchase books can come to see if the book they need is available. If they find the book and are willing to pay the price asked, they give APO the money and take the book. The original owner of the book(s) can then come to pick up the money from APO. There is a fifteen cent charge for this service which goes to help support the programs of Alpha Phi Omega. No profit is incurred.

This plan has already been started, and will continue until Tuesday, February 6th. At this time all unsold books can be picked up by their owners without charge.

We feel that this service to the students by APO is one that can work well and provide books at a substantial saving. The most important aspect of the sale is this; it must be participated in by a number of students to be successful.

Here is a chance for us to buy our books at a reasonable price and at the same time express our disapproval of the prices that are charged in the University bookstore.

## Contest

As we have announced on the front page, the Daily Campus is sponsoring the Glamour Magazine ten best-dressed girl contest on this campus.

Throughout the country, other Universities are choosing their representatives, and we feel that the University of Connecticut need not be left out of the judging.

In past years we have had entries that came close to being picked as one of the ten best dressed college girls in America. Perhaps this year we can have a Uconn girl in this group.

We hope that all of the women's dorms will enter a girl in the local contest so that we can find Uconn's best-dressed co-ed.

## Connecticut Daily Campus

Published daily while the University is in session except Saturdays and Sundays. Entered as second class matter at the post office, Storrs, Conn., March 15 1962, under act of March, 1879. Member of the Associated Collegiate Press. Accepted for advertising by the National Advertising Service, Inc. Editorial and Business offices located in the Student Union Building, University of Connecticut, Storrs, Conn. Subscriber: Associated Press News Service. Subscription rates: \$5.00 per semester, \$8.00 per year. Printed by the West Hartford Publishing Co., West Hartford, Conn.

# Washington Merry - Go - Round

By Drew Pearson

Washington—Inside fact about Eisenhower's recent statement on military censorship is that Sens. John Stennis of Mississippi and Leverett Saltonstall of Massachusetts asked him for it. One a Democrat, the other a Republican, they got so worried about right-wing sentiment in favor of the military that they got together in a bi-partisan request of the ex-President that he make a statement.

His statement, though moderate, was generally interpreted as siding with the brass hats against censorship by their civilian bosses.

What most people overlooked, however, is that Kennedy and Secretary McNamara are following the exact rules laid down by Eisenhower earlier for censoring military speeches.

This fact was brought out by the Moss Committee on Nov. 15, 1956, when it called in Joseph Edgerton, Director of Security Review for the Defense Department. Crusty Old Clare Hoffman, Michigan Republican, asked him:

"If the Secretary (of the Army) Brucker, or General (Maxwell) Taylor wrote a speech and were not proposing to speak for the Department, would you have anything to do with it?"

Hoffman explained that he meant "If he were just going to speak to the Lions Club or the Exchange Club."

"I do not think he can divorce himself from his status as Secretary of the Army—I think it should be cleared," replied Edgerton.

"Assuming Secretary Brucker went out talking about the Army and said, 'I

go along with Ike,' " continued Congressman Hoffman, "I think we should have a larger—or a smaller army.' Would that come to your office or to any other department of the Government for censorship?"

Edgerton—"Yes, it would come to us."

Hoffman—"And would you tell him what he should say?"

Edgerton—"We would pass that to Mr. Ross's office"—referring to the then Assistant Secretary of Defense.

Hoffman—"Could Mr. Ross tell Mr. Brucker he could not say that?"

Edgerton—"He might do it on his authority, or the authority of the Secretary of Defense."

Edgerton told the subcommittee that a White House directive required to be enforced under the Eisenhower administration obliged all government departments to clear with the Defense Department "all material dealing with military affairs, speeches and otherwise."

This was Nov. 15, 1956.

Four years later, just before Kennedy was inaugurated, Adm. Harry Felt stirred up a hornets' nest in Australia by lecturing Australians on their duties. Later, Adm. Samuel B. Frankel went over the heads of his civilian chiefs with a speech criticizing the Administration policy of negotiating with our European allies regarding Russia.

Both speeches clearly barged into the civilian field. So President Kennedy applied the system previously set up by Eisenhower.

### To The Editor:

I am writing this letter to clear up the misconceptions that many people have concerning the recent WHUS affiliation with CBS. The main point which I want to emphasize is that WHUS is not now or will not be under the control of CBS. It is, as it has always been, operated by the students of this university for the benefit of the students and faculty. We are WHUS, not WCBS.

Some of the benefits of such an affiliation are: better news coverage, both national and local; increased local programming quality; substantial financial savings. I do not consider the last point as important as the first two.

The CBS news coverage, detailed in our program schedule, is both complete and comprehensive. It is unfortunate, but true, that the WHUS news department does not have the personnel and the time necessary to do a complete presentation of both national and local news. Now with CBS delivering the national news, this will enable the WHUS news department to concentrate on the gathering, compiling, and reporting of local news. The local news department is now in the process of being organized and will start its newscasts as soon as possible. This means that we will now have effective coverage of both national and local news.

Also because of the CBS affiliations many members of the WHUS news and special events departments will be able to devote more time to the preparation of their own programs. Many more special events of campus interest, such as concerts, lectures, recitals, and sports presentations, can be broadcast.

I do not pretend that these few words have eased the minds of all. We, of WHUS, will be glad to discuss the matter further with any interested student.

WHUS Station Manager  
Bill Grimes

### To The Editor:

A dynamic threat to the very essence of American ideals may be combatted on the Uconn campus this week.

We can fight discrimination! We can support desegregation!

The University of Connecticut can join the ranks of neighboring schools who have already displayed their convictions by buying and wearing Freedom buttons. Signifying the American dream of racial equality, these buttons are more than symbols—they are reflections of the strength of one's beliefs.

We who are in the midst of a college education are being presented with an opportunity to broaden our actions from college life into the real world—into reality.

No longer must we wait for graduation to transform ourselves from observers into active participants in real-life events.

The Student Senate appointed the ad hoc Northern Student Movement committee.

Senators and interested non-Senators joined this committee.

Dormitory representatives planned details for the collection and sale of buttons.

AND NOW THE RESULTS ARE  
IN YOUR HANDS!!

Perhaps Uconn students can forsake \$1 of their finances, a few minutes of their time and some energy... perhaps they will buy Freedom Buttons... perhaps they will persuade their friends to wear a button.

Perhaps this institution can feel a surge of pride in their academic atmosphere producing mature, America-oriented students.

Perhaps.

Senator Marlene Freedman (ISO)  
Member Northern Student  
Movement Committee

# Republican Candidate Discusses Education

In carrying out what the Federation of University Teachers termed its "primary concern of improving the quality of education for residents of the State of Connecticut," the FUT sponsored a talk before semester vacation by Mr. John Alsop, a candidate for the Republican gubernatorial nomination in Connecticut. Mr. Alsop spoke on the "problems of Higher Education in Connecticut." A speaker from FUT stated that this would be the first in a series of such meetings for the purpose of "stimulating public discussion" and bringing to the fore certain views on higher education.

Mr. Alsop stated that he had not come to the University of Connecticut to say HOW Uconn could solve its problems, but rather to offer for consideration a type of approach. He said that he wanted to know where the University was going and how it was going to get there, unlike "the present Secretary of Health, Education and Welfare and the present Governor of Connecticut."

The growth in population is such that in five years, according to Alsop, the number of college-age youth will have increased 50%, in ten years 80%. This increased growth means increased cost. Higher cost means economic expansion at a higher rate. The administration has the major responsibility to set its objective of increasing the economic expansion of the State of Connecticut.

According to Alsop, higher cost means either continuing to raise the existing taxes or installing new taxes or increasing the tax-base. He stated that he was opposed to either raising the present taxes or installing a new tax. Either of these moves would be unsound economically, in his opinion.

## Increase Tax-Base

The wisest road to follow would be that of increasing the tax-base, in Alsop's opinion. An increase of the tax-base would mean an increased number of jobs. The increased number of jobs in turn places an increased emphasis on institutions of higher learning to produce the people capable of filling the jobs. The accomplishments here at Uconn greatly effect the economic future of the State of Connecticut.

## Two Main Aspects

The educational problem may be split into two main aspects for consideration: the qualitative and the quantitative.

In the quantitative aspect, Mr.

Alsop stated that "we need":

1. More qualified faculty.
2. A higher student faculty ratio.
3. More capital investment, better utilization of present facilities.
4. More in post-graduate work.

Mr. Alsop stated that the state was ultimately responsible for advanced education for those deserving it and QUALIFIED for it in the State of Connecticut. In the Quality aspect of our problem, we need:

1. Qualified faculty.
2. Quality students.
3. Quality facilities.

Mr. Alsop stated, "We need an understanding on the part of the state government. They seem to have a lack of comprehension of the urgency of this problem."

## Defines Position

In defining his position, Alsop stated that he called himself a "Progressive Republican" . . . progressive because he recognizes the needs of an increasing school-age population . . . a Republican because he knows that the bill must be paid, the system run with efficiency and economy.

In elaborating on the possible solutions to the Quantitative problem at the University, Mr. Alsop discussed the following possibilities.

1. An emphasis on increased capacity at the branches without a proportional rise in the cost.

2. An emphasis on increased capacity at the State Colleges, continuing in teacher-training.
3. An emphasis on increased capacity at technical schools to provide a skilled force in industry, also relieving the college-load.
4. An increase in the student fees with a broader scholarship program.

## In Summary

In summary, Mr. Alsop stated that for increased productivity in the state college graduates are a necessity. A better utilization of the educational plant is necessary for an increase in productivity. Better utilization might involve a reduction of student class hours with an increase in independent work. A reduction in the number of courses offered might be considered. Mr. Alsop suggested increasing the number of teaching devices, such as television. He also suggested the incorporation of the trimester plan.

He stated that the State of Connecticut cannot leave the aims and aspirations of an increasing number of students to chance. It is the job of both the University and the State to solve the problem, according to Alsop. It is the responsibility of the University to solve the Quality problems, and the responsibility of the State to solve the Quantity problems.

One of the major problems of the state, according to Alsop is

the resurgence of economic expansion. The administration must encourage job-makers to make jobs. It must make the quality available. It must meet the challenges of higher education. The

objective of the combined fight of the Uconn Administration and the State of Connecticut should be the survival of a prosperous Connecticut with education and opportunities for all.

## IS STUDYING NECESSARY?

Once there were three roommates and their names were Walter Pellucid, Casimir Fing, and LeRoy Holocaust and they were all taking English lit. and they were all happy, friendly, outgoing types and they all smoked Marlboro Cigarettes as you would expect from such a gregarious trio, for Marlboro is the very essence of sociability, the very spirit of amity, and very soul of concord, with its tobacco so mild and flavorful, its pack so king-size and flip-top, its filter so pure and white, and you will find when you smoke Marlboros that the world is filled with the song of birds and no man's hand is raised against you.

Each night after dinner Walter and Casimir and LeRoy went to their room and studied English lit. For three hours they sat in sombre silence and pored over their books and then, squinty and spent, they toppled onto their pallets and sobbed themselves to sleep.

This joyless situation obtained all through the first semester. Then one night they were all simultaneously struck by a marvelous idea. "We are all studying the same thing," they cried. "Why, then, should each of us study for three hours? Why not each study for one hour? It is true we will only learn one-third as much that way, but it does not matter because there are three of us and next June before the exams, we can get together and pool our knowledge!"

Oh, what rapture then fell on Walter and Casimir and LeRoy!

They flung their beanies into the air and danced a gavotte and lit thirty or forty Marlboros and ran out to pursue the pleasure which had so long, so bitterly, been missing from their lives.

Alas, they found instead a series of grisly misfortunes. Walter, alas, went searching for love and was soon going steady with a coed named Invicta Breadstuff, a handsome lass, but, alas, hopelessly addicted to bowling. Each night she bowled five hundred lines, some nights a thousand. Poor Walter's thumb was a shambles and his purse was empty, but Invicta just kept on bowling and in the end, alas, she left Walter for a pin-setter, which was a terrible thing to do to Walter, especially in this case, because the pin-setter was automatic.

Walter, of course, was far too distraught to study his English lit, but he took some comfort from the fact that his roommates were studying and they would help him before the exams. But Walter, alas, was wrong. His roommates, Casimir and LeRoy, were nature lovers and they used their free time to go for long tramps in the woods and one night, alas, they were treed by two bears, Casimir by a brown bear and LeRoy by a kodiak, and they were kept in the trees until spring set in and the bears went to Yellowstone for the tourist season.

So when the three roommates met before exams to pool their knowledge, they found they had none to pool! Well sir, they had a good long laugh about that and then rushed to the kitchen and stuck their heads in the oven. It was, however, an electric oven and the effects were, on the whole, beneficial. The wax in their ears got melted and they acquired a healthy tan and today they are married to a lovely young heiress named Ganglia Bran and live in the Canal Zone, where there are many nice boats to wave at.

**Between the Lines:****The Effects Of National Debt Raising Doesn't Hurt Economy**BY LEO ANAVI  
ASSOCIATED PRESS

It appears that the national debt has reached a record level of nearly 298 billion dollars. If the Administration has its way, it may rise further and pass the 300 billion mark. Congress may have to boost the present legal debt limit to permit the Treasury Department to function more freely. The Government has just as much difficulty as the average individual in raising quick money. It must pay higher interest to refinance bonds and the like. Whereas with a higher debt limit it is in a better position to play the field.

All this would be boring arithmetic were it not for the fact that 300 billion is a whopping sum, some 1,800 dollars for every man, woman and child in the country. There is no guarantee, either, that the current process will stop. It seems that every year the nation is faced with some emergency or another. If it isn't defense, it's space, and if it isn't space, it's some other urgent call on the taxpayer's dollar.

**As An Anchor**

To be sure, the country is wealthy enough to carry that much of a debt and more. Most of our allies abroad have to cope with greater national debts in comparison. The only difference is that none of them functions as an anchor for the free world. This country does.

Another angle has to do with the survival of capitalism. It is of vital importance that the value of money remain unchanged. One of the causes of inflation and depression is the fluctuation of values. There's quite a difference between borrowing money for essential needs and borrowing just for the sake of spending.

This is not to say that our Government is improvident, although it has been called that by some critics, it's that our needs are not measured too judiciously. There have been occasions when we have overspent for no reason at all. The United States is not so rich that it can give up counting and accounting.

**Economic Preparedness**

It has been said that Americans are generous to a fault, but that is not necessarily a good trait. There has to be a limit

even when it comes to philanthropy. A man or an institution can be generous without risking bankruptcy. Much of this country's prestige stems from its economic power. We can do a great deal for other nations without straining ourselves. It should be the better part of wisdom, therefore, to keep productive. This way we can continue to help deserving nations instead of having to shut off the flow of life-giving wealth altogether.

In other words, this country has to keep fit economically. There have been studies on how much we can spend without risk to ourselves, but they have not probed every aspect of the problem. It may be necessary to embark on yet another labor of research to determine the economic potential of this country as of today and in terms of growth. The findings will provide a yardstick of sorts for our budget makers.

**Five Per Cent**

There are ways of reducing government spending without endangering the national program. A 5 per cent reduction across the board would not have been too much of an upsetting effect.

The point to be made is that our economic future is at play. President Kennedy has spoken of tariff reductions in our trade with the common market. It is believed by some that there will be an economic union of Atlantic nations eventually. In that event, the economic state of a given country will have a bearing on its share in the partnership. A lagging nation will not get special consideration.

All this may sound like an oversimplification but the play of economic forces is quite simple by its very nature. We have known from time immemorial that wealth is the result of hard work and good management. It doesn't come of itself. A spendthrift is not a person to be respected, and this applies doubly to commercial institutions and governments.

It is right that an administration should worry about its budget. It is right that people should worry about government spending even if it is eminently justified. The economic health of a nation depends in large measure on how it manages its funds.

**Kennedy Sends Reorganization Plan For New Cabinet Post**

Washington, Jan. 30—(AP)—President Kennedy has sent Congress a reorganization plan to create a new cabinet-rank Department of Urban Affairs and Housing. The plan becomes law in 60 days unless either House of Congress vetoes it. The measure already has become embroiled in racial and partisan controversy, and its fate is uncertain.

The Senate is not expected to reject the plan. However, its fate in the House is uncertain.

In a special message to Congress accompanying the plan, the President said:

"The times we live in urgently

call for this action. We will neglect our cities at our peril, for in neglecting them we neglect the nation."

Such a department would contain the several components now included in the Housing and Home Finance Agencies.

Kennedy already has announced that the new department would be headed by the Housing and Home Finance Agency Administrator, Dr. Robert Weaver, a Negro. He is Dr. Robert Weaver, a Negro. He is officer in history.

**First Try**

The Administration first tried to get Congress to approve the

plan by legislation. However, the House Rules Committee refused to send the bill onto the House floor. The President then announced he would send Congress the reorganization plan.

In a news release accompanying the plan and message, the White House said Kennedy decided to use his power under the Reorganization Act only after the attempt to create the department by legislation failed.

The Senate Republican leader, Everett Dirksen of Illinois, moved yesterday to block the reorganization plan. He announced he will sponsor a resolution in Congress to create a commission to study the departmental proposal. As if in reply to that, Kennedy said in his message:

"The time is short."

He added that the nation already has passed to an urban way of life. And he said that, with coming population growth, the nation must have adequate machinery to solve the problems of transportation, public utilities, slums and housing decay. The President added:

**Vital Stake**

"Our cities and the people who live in and near them need and deserve an adequate voice in the highest councils of government."

The President said smaller towns and cities have as vital a stake in the proposal as metropolitan centers. This is true, he said, because more than two-thirds of all Americans live in cities and the figure is multiplying.

Kennedy said the Federal Housing Administration and the Federal National Mortgage Association would be shifted bodily into the new department and function as self-contained entities within it. The functions of the Public Housing Administration, the Urban Renewal Administration and the Community Facilities Administration also would be shifted into the department. The Federal Housing Administration and Public Housing Authority Commissioners would continue to be appointees of the President, with the consent of the Senate, and no new functions would be established under the plan.

The President based his message on arguments of efficiency and economy. He said the grants, loans, loan guarantees and mortgage insurance functions to be concentrated in the department involve government investments of billions of dollars, and bear heavily on the vitality of the whole economy. The President added:

"Their management in the most effective and coordinated way possible, therefore, will yield economies in the broad sense far outweighing the amount involved in the administrative cost of their operation."

**People Don't Want What They Say When Watching Television**

Washington, Jan. 30—(AP)—A network executive testified today that people don't mean what they say when they clamor for a wider choice and more educational programs on television.

In a statement prepared for the Federal Communications Commission,

**Influenza B****Hits Connecticut**

Hartford, Jan. 30—(AP)—The State Health Department reports an outbreak of a type of influenza in West Hartford, indicating it may be the first evidence of the so-called Type B flu spread in the state. The health department says the outbreak kept some 244 of the pupils at a West Hartford Junior High School home for much of last week.

This is 30 per cent of the school population.

Hartford and West Hartford health director Alfred Burgdorf says the outbreak in West Hartford may be the state's first indication of Type B influenza which has been spreading eastward this winter.

Symptoms include headache, weakness, fever up to about 103 degrees, abdominal cramps and general muscular aches.

sion, Hugh Beville, Junior, vice president of planning and research for the National Broadcasting Company, cited the findings of two surveys to back up his contention.

In Oregon, Beville said, 94 persons out of 1,024 interviewed complained about "the lack of program variety." But he said tests showed the 94 "viewed fewer program categories than those who did not make this demand."

Similarly, he said, a study in the Pittsburgh area showed 51 persons, 76 per cent of those questioned, thought there should be more educational programs on television. But only two of them watched the educational station at any time during the week. He added:

"These studies like similar ones conducted over the years establish clearly that there is a considerable difference between what people say and what they do and that as a rule most of them do not practice at the television dial what they preach to the pollster."

Two other NBC executives were heard yesterday as the FCC went into its second week of hearings in Washington on network programming practices.

**AEC Tells Congress About New Progress**

Washington, Jan. 30—(AP)—The Atomic Energy Commission reported today new progress in the nuclear powered ship program, a technological race in which the United States apparently maintains a long lead over Russia.

The annual AEC report to Congress said that 65 atomic-engineered warships and a merchant ship are operating, building or authorized for building.

Atomic craft already at sea include 24 submarines, a cruiser and a carrier.

The commission said the atomic submarines had cruised a total of 1,358,663 miles by the end of last November.

The world's first nuclear commerce ship, the Savannah, is fueled "and ready to begin sea trials."

In the field of atomic power plants for industrial use, the AEC said that, although no new major producing projects began generating electricity during 1961, three plants already in operation showed outputs during the year which exceeded expectations.

**Civilian Program**

In 1961, the report said, "several hundred thousand families were furnished atomic electric power for cooking, lighting, heating, cooling and other services in various parts of the country." The General picture for the civilian power program was mixed:

"Operating activities were encouraging while construction activities were discouraging. As a result of the successful operation of three large-scale power reactors, plus the support of three experimental plants, some electricity was produced by nuclear energy every day of the year. On the other hand, several other reactors which were expected to be operating in 1961 did not, because of delays in construction or technical difficulties."

The "encouraging" records were at the shippingport, Pennsylvania Station, the Dresden plant near Morris, Illinois, and the Yankee Plant at Rowe, Massachusetts.

However, the report left clear that no civilian power plant so far is near the goal of economic nuclear power, as compared with present rates for conventionally produced electrical power.

The nation's investment in atomic energy facilities — for research, power generation, production, weapons — now totals seven billion 700 million dollars.

A table showed the AEC used 516 million dollars for weapons development and fabrication during the fiscal year which ended last June 30th.

The AEC said that "work is moving forward" on the joint AEC National Aeronautics and Space Administration's project Rover for development of nuclear power to propel manned and unmanned vehicles.

The commission disclosed that it still does not know the precise reason for the explosion of a test reactor at the Arco, Idaho, plant one year ago which brought death to three men. Studies still are being made of the reactor core in efforts to find the cause of the blast.

The commission said it is continuing research on how to dispose of radioactive waste. The principal method now used for handling such waste is to store it in special underground tanks.

The possibility of transforming the wastes to solid form is being investigated.

**Bond Buying Topic Of Controversy**

Washington, Jan. 30—(AP)—President Kennedy has asked Congress for 100 million dollars, to buy United Nations bonds. The President said the bond purchase is vital to U.S. interests. Failure to buy the securities, he said, would serve the interests of the Soviet Union.

The bonds are being issued to help bail the UN out of a financial crisis resulting from heavy expenses in the Congo.

Even before the Presidential plea was received on Capitol Hill, it ran into controversy. The Senate Democratic leader, Mike Mansfield, promised hearings before any vote is taken.

House Speaker John McCormack predicted Congress will approve the President's request. He told newsmen:

"I feel very confident that Congress will realize the importance of it and will act favorably on it."

In his message, the President said:

"The United Nations is faced with a financial crisis due largely to extraordinary expenditures which it incurred in fulfilling the pledges in its charter to secure peace, progress and human rights. I regard it as vital to the interests of our country and to the maintenance of peace that the capacity of the United Nations to act for peace not be inhibited by a lack of financial resources."

Kennedy added:

"Some members have failed to pay special assessments levied for peace-keeping operations in the Middle East and in the Congo, claiming that these assessments are not binding upon them. The shortage of operating funds thus created has reduced the working capital fund of the United Nations to zero and compelled it to hold back on the payment of bills and borrow from United Nations agencies."

**Iranian Crash Victims Found**

Tehran, Iran, Jan. 30—(AP)—U. S. authorities report a U. S. medical team found four U. S. airmen alive today around the wreckage of their small Army plane high up on snow-covered Zardkyh Mountain in Iran where it crashed last Saturday. Their condition was not immediately reported, but an official said an attempt to evacuate them would be made today.

The single-engine plane plunged into deep snow about 12,000 feet up the mountain. Bad weather had prevented rescue teams from reaching the plane earlier although supplies had been dropped from the air. The skies cleared today, and a U. S. medical team parachuted in.

Earlier a rescue plane radioed it had sighted one survivor walking around the wreckage.

# Weakened Uconns Win; Top Loyola 84-74 Monday

BY WAYNE MORTBERG

Big Ed Slomcenski paced a well balanced Uconn attack as the Huskies beat back the touring Loyola of New Orleans team at the Field House Monday night 84-74.

Good shooting and rebounding, and fierce determination enabled the Huskies to defeat the Louisiana squad which had knocked off Dartmouth and Fordham on its swing through the north.

Thus Uconn improved its record to 9-4 despite the loss of starters Dave King, Bill Della Sala, and center Walt Griffin because of scholastic difficulties.

## Slomcenski Stars

Slomcenski, the improving sophomore center, tossed in 21 points and grabbed a dozen rebounds in an impressive performance. He connected on 11 of 13 attempts from the charity line, the first ten being in succession.

## Perno Rebounds

The blond backcourt stars Andy Czuchry and Len Carlson were right behind Slomcenski with 18 and 16 points respectively, in addition Czuchry came up with ten rebounds. Soph Dom Perno substituting for Bob Haines and Jerry Manning in the forecourt picked up 10 in both the rebound

and point column.

Marty Niehaus, a reserve forward, meshed nine of his 13 shots from the floor and paced Loyola with 19 points. Two tall forwards, Bob Luegers and Captain Gene Turni followed Niehaus with 14 and 13 points.

## Statistics Tell Story

The statistics which show that Uconn outshot and outrebounded its foe tell the story of the game. The Huskies swished 30 of 63 shots for a fine 47.6 per cent from the floor, while the Louisianians had a mediocre 35.9 per cent.

At the free throw line it was close as Uconn dumped in 24 of 30 for an excellent 80 per cent, while Loyola hit on 78.3 per cent of its charity attempts. The Uconns dominated the backboards

as they piled up a 53 to 38 edge in rebounds.

## Uconn Take Lead

After the southerners jumped off to a 5-4 lead, Slomcenski scored from underneath and was fouled, then he calmly added the foul shot that gave the Huskies the lead permanently.

Box Score									
UCONN					LOYOLA				
	B	F	Pt		B	F	Pt		
Haines	2	1	5	Turni	6	1	13		
Manning	3	0	6	Ryan	2	3	7		
Slomcenski	5	11	21	Luegers	2	10	14		
Carlson	6	4	16	Kennedy	2	0	4		
Czuchry	7	4	18	Hoyt	1	1	3		
Perno	5	0	10	Tschira	4	0	8		
Comey	1	1	3	Pietri	2	0	4		
Hulteen	0	0	0	Niehaus	9	1	19		
Roeber	0	0	0	Charanne	0	0	0		
Ritter	1	3	5	Weber	0	2	2		
Totals	30	24	84	Totals	28	18	74		
Score at halftime: Uconn 40, Loyola 35.									

## Huskies Nip UVM 67-63 In YanCon Contest Sat.

The Uconn Huskies moved into undisputed third place in the Yankee Conference with a 67-63 win over a scrappy Vermont team in Burlington Saturday. This gives Uconn a 3-2 YanCon record.

If the Huskies hope to remain in contention in the conference they must win all of their remaining YanCon games and because of this every conference game must be considered crucial.

The Catamounts entered the game with a 2-4 record in conference. They had split with Maine, beaten New Hampshire, and lost to Umass once and Rhodey twice.

## Becton Out

The Vermont five was without the services of its captain, leading rebounder, and top scorer in the form of 6 foot 2 inch Benny Becton. Never the less they gave the Huskies a tough game, losing by only four points.

The Catamounts jumped to an early 4-0 lead but the Huskies caught up and tied the game up at 11 all. The Uconns then put together a six point string to lead 17-11.

The Vermont five never gave up as they trailed by 28-25 and 30-27 during the half. The score at the intermission gave the Huskies a slight four point advantage, 39-35.

## Guards Important

Guards were the big scorers for both teams in the first stanza. 6 foot 2 inch Dick Ader led the Catamounts in the scoring column with 12 points while Len Carlson sparked the Uconns in the first half with 15 points.

The Huskies came on strong in the beginning of the second half. They scored seven straight giving them a 10 point lead, 43-38. However, the Vermont team again came back and this time closed the score to 55-54 with 7:30 to go in the game.

## Slim Lead

The Vermont full-court press gave the Uconns several scoring opportunities in the final few

minutes after they had barely hung onto the slim lead. And with 1:39 to go in the game the Uconns held an eight point advantage, 64-56.

The Vermont five was unable to overcome this margin and the buzzer sounded with the final score 67-63 in favor of the Huskies.

The Catamounts sorely missed Becton who had been averaging 19.1 points per game. He sustained an ankle injury the day before. The Uconns also were without the services of their leading rebounder and one of the best players on the team as 6 foot 6 inch Walt Griffin left school for scholastic reasons just previous to the game.

## Haines Replaces Griffin

Replacing Griffin in the Uconn lineup was 6 foot 7 inch Bob Haines. Soph Ed Slomcenski moved in at the pivot position as the game progressed.

Guards were the top scorers in the game for both teams. For the Uconns Len Carlson paced the attack with 18 points and Andy Czuchry had 11.

Jack Shabel led the Catamount attack with 21 points while his teammate in the backcourt, Dick Ader netted 13.

## Uconns Nip Manhattan

Previous to the Vermont game and the final exams the Huskies won another squeaker, over Manhattan. The final score in the game, which saw the Huskies staving off a strong Jasper attack he whole game, was 69-68. Dave King, Bill Della Sala, and Walt Griffin all put in fine performances for the Huskies.

Box Score									
UCONN					VERMONT				
	B	F	Pt		B	F	Pt		
King	2	1	5	Shabel	7	7	21		
Della Sala	4	0	8	Stahler	5	2	12		
Haines	1	2	4	Lawson	4	2	10		
Carlson	7	4	13	Ader	6	1	13		
Czuchry	4	3	11	Strassburg	3	1	7		
Slomcenski	3	2	8	Glick	0	0	0		
Manning	2	1	5	Nurse	0	0	0		
Comey	3	0	6						
Perno	0	2	2

## Three Of Top Five Huskies Out Effect Not 'Too Bad' Says Greer

As Uconn basketball fans noticed Monday night three players were missing from the Husky bench. Those conspicuous in their absence were Big Walt Griffin, high scoring Dave King, and soph Bill Della Sala who all went the way of many a Uconn student. They had left school due to "scholastic difficulties."

## Not Too Bad

In a first analysis of the loss of these three men, who had all started in the last few games Coach Hugh Greer stated that although the squad will be obviously weakened, "the effects might not be too bad."

He said that he feels that the fellows will now play harder and be working every second, knowing that the bench has been depleted in numbers. For an example, Mr. Greer cited the game with Loyola in which the effects were not readily noticeable to anyone. Certainly not to the men from Louisiana.

## Strategy

Talking about possible strategy switches he said that both offensively and defensively there will

be some changes made. Dom Perno, who turned in a creditable job Monday night in a forward position, will be seeing a lot more action around the forecourt in the future.

## Familiar Spot

Perno, who previously was a guard, played both the backcourt and forward in high school. Therefore he is not at all unfamiliar with the position.

As for chances of ever seeing any of the missing three in Uconn uniform again it is easily said that the "only hope may lie in Bill Della Sala. He was only a sophomore and thus had two good years of eligibility remaining. Of course, all this depends on whether or not he returns to school in the Fall.

## King, Griffin Seniors

Walt Griffin and Dave King were both seniors so that even if they should return to complete their college educations they would still be ineligible for athletics.

# J. O. Christian Resigns As Uconn Baseball Mentor

The grand old gentleman of Uconn athletics, J. O. Christian, has announced that he will draw his career as a baseball coach to an end, in order to devote his full time to his position as Director of Intercollegiate Athletics.

Taking Christian's place as baseball coach at Uconn is Larry Panciera, an assistant coach in previous years.

## Top Record

As Christian leaves the coaching field, he leaves behind one of the most successful records in Uconn sporting annals. In 1926, Christian plunged into his career at Eveleth (Minn.) Jr. College.

Here he served as head coach of football, basketball, and track; was the director of athletics and also the head of the physical education department. When he left Eveleth to come to Connecticut, Christian had compiled the fantastic record of only one loss in the four years he served as football coach.

Christian began his association with Uconn in 1934, when he was named head coach of football and baseball. In 1936, "Christy" took on the additional responsibility of being the head of the department of intercollegiate athletics.

In 1947, official baseball competition in the Yankee Conference began. The added pressures that resulted forced Christian to end his football coaching, in order to have more time for baseball.

He served as both baseball coach and athletic director until his announcement last Friday.

## Uconn Record

During the 27 years that he coached baseball at Uconn, Christian did a spectacular job. His teams have won 9 of the last 14 conference titles, and his clubs of 1957 and 1959 played in the college world series.

The 1959 team (which Christian considers his best) had a 20-1 record, being undefeated in New England competition. In 1960, his team was first in the nation for the earned run average of his

pitchers, and first nationally in team defense. During his years as baseball coach at Uconn, Christian's teams compiled 258 wins, 179 losses, and eight ties.

## Top Athletes

In addition to his fine teams, Christian has fostered many top-notch athletes. The most well known of these are Walt Dropo, who blossomed into an outstanding hitter for the Boston Red Sox, after starring in three sports at Uconn.

Walt Trojanowski, the top scorer in national football in 1945 with 132 points; and Rollie Sheldon, who sparkled with the New York Yankees last year after making the jump from the Yankee Conference to Yankee Stadium in less than a year.

## All-Americans

Four All-Americans were named from Christian's teams of the last 3 years. The first of these was Bob Wedin, a left-handed pitching expert who received the honor in 1958. Two more made All-American in 1959—Moe Morhardt, a right-fielder who is playing first base for the Chicago Cubs and made the grade on the strength of a mighty .352 average.

And Bill Stevens, an outfielder who murdered the ball at a .407 pace. Last season, Joe Clement, a right-handed pitcher who won 16 straight games over a three-year span joined the All-American ranks.

## Success

Coach Christian modestly attributes his success to the outstanding players that he has worked with, and to his able assistants.

There is no question, however, that without the touch of magic that outstanding coaches seem to have, Connecticut's baseball teams would never have reached the heights that they have.

With an eye to the future, Christian feels that Uconn's coming baseball teams will continue to play outstanding ball. He cites

"It's all yours now, Larry," University of Connecticut Athletic Director J. O. Christian seems to say, while turning over his duties as head baseball coach to Larry Panciera (left) who was his assistant since 1954. The move terminates 36 years of active coaching which

began at Eveleth Junior College (Minn.) and included 28 years at Uconn. Christian won two New England titles, nine of 14 Yankee Conference pennants and 258 victories during his 27 years as baseball coach at Uconn. (Uconn Photo).

the fact that there are several outstanding prospects on the team, and he has utmost faith in incoming Coach Panciera, to whom Christian gives credit for much of the team's previous success.

Mr. Panciera, a graduate of the University of Rhode Island where he was captain of the football team and played baseball, came to Connecticut in 1950.

Before that, he served as athletic director and coach of football and baseball at Killingly High School in Danielson, where he won Class C State titles in both also coached an outstanding Junior Legion team and the Uconn freshman nine. His coaching career shows a record of 118 victories and only 18 defeats in high school, Junior Legion, and freshman teams.

## Uconn Spikers In K of C Meet

The Saturday before final exams, Uconn's indoor track forces competed in the Knights of Columbus meet in Boston. The trackmen made a good early season showing in two relays, the pole vault, and the high hurdles.

## Two Relay Teams

The two mile relay team of Carl Westberg, Lou Durant, Tom Iannaconni and Paul Oberg ran the best early season time turned in by a Husky team in many seasons. Iannaconni looked especially strong as he turned in a beautiful 2:00.4 half mile leg.

Oberg and Iannaconni also teamed up with Mel Parsons and Gene Bachman in the one mile relay. The four men were placed in a heat with tough competition, such as Yale and Holy Cross, but

ran well. Coach Duff was very pleased with the performance of both relay teams.

Parsons also ran in the high hurdles. He hit the first hurdle, lost his step and was unable to place at the end. Holder of all the school records in the hurdles and top point scorer on last year's teams Parsons will do much better his next time out.

Turning to his specialty, Bachman was able to clear 12 feet even in the pole vault. This is only 9 inches under his school record and a good showing for his first meet of the year.

The next meet for the Husky trackmen will be against Umass on February 13 at 6:30 p.m. The Wednesday evening meet will open the dual meet season.

## Activities And Notices

**FLYING CLUB:** The Uconn Aviation Association will hold its regular monthly meeting this evening at 7 in HUB 104.

**WHITE CAPS** will hold a meeting tonight at 7:30 in HUB 101. Two films will be shown, "Project Hope," and "Crotched Mountain," both concerning the U.S. Rehabilitation Center for the Handicapped.

**SENIORS:** Senior pictures will be taken February 5 through 16. Please make an appointment at the HUB Control Desk as soon as possible, so that you can reserve a convenient time as 1500 Seniors will be photographed during this period.

**THE FOLK SONG CLUB** will meet in the HUB tonight at 8. The meeting will be concerned with plans for the coming semester. There will be singing so bring your Guitars and Banjos. Everyone is welcome.

**JUDO CLUB** will hold a meeting at 7:15 Thursday night in the men's gym. Bring Judoji or other heavy clothing. All those interested in joining are welcome.

**BRIDGE CLUB:** The Bridge Club will meet at 7 p.m. in Commons 311. Duplicate bridge will be played.

**CHRISTIAN SCIENCE ORGANIZATION:** There will be a meeting tomorrow night at 6:30 in the Reverend Waggoner Chapel.

**CULTURAL COMMITTEE:** There will be a meeting tonight at 7 in Commons 315.

**OFFICIALS CLUB:** There will be a meeting tonight at 7 in Hawley Armory.

**SENIORS:** Those Seniors who expect to complete requirements for graduation in June are requested to come to Administration 150 to fill out a application for a diploma. The application should be made at least four months prior to the time that requirements for the degree have been met.

**MEDICAL SCHOOL:** All students interested in gaining admission to Medical School for the fall of 1963 are urged to register for the Medical College Admission Tests that will be given on this

campus on May 5, 1962. The deadline for filing application is April 6, 1962. Application blanks may be obtained from the secretary of the Premedical-Predental Committee in the Zoology Department office, Life Sciences Building room 312.

**FRESHMAN CLASS COUNCIL:** There will be a meeting Thursday February 1, at 7 p.m. in the Connecticut Room of the Commons Building.

**OUTING CLUB:** There will be a meeting of the Outing Club tonight at 7:30 in HUB 102. A new president will be decided upon. Plans for this weekend's trips will be discussed. Anyone interested is invited to attend.

**JOHN BROWN'S BODY:** Tickets are now available at the auditorium box office for John Brown's Body. Admission is \$1.00. Everyone is reminded that this show is not on the season ticket. Only a limited number of tickets are available and the run will not be extended under any circumstances. Performances will run February 9 and 10 and, February 12 through 17.

**OKLAHOMA:** February 2 in Fine Arts 227 at 7 p.m. There are roles for seventeen men and fifteen women and many are non singing roles as well as solo dance roles. Scripts of Oklahoma are available for reading in the Reserve Room of the Library.

"Flat light bulbs" soon in production, will have many uses in architectural lighting. The inch thick fluorescent plates will produce a soft diffused light with almost no heat, and a low power consumption.

The sheer walls of Marble Gorge in the Grand Canyon are 2,000 feet high.

Great Britain has a \$273.5 million program to bring the complete automation of its telephones.

## Education Majors

All fourth semester Sophomore students who intend to enter the School of Education should attend a meeting in the School of Education Building Auditorium. The meeting will be held this afternoon at 3:30. Program and procedures will be explained. It will help those students avoid the problem of filling out two different sets of Junior-Senior plans for the school they are presently in and the School of Education.

## CCC Theme Contest

Name \_\_\_\_\_

Residence \_\_\_\_\_

Theme \_\_\_\_\_

## Theme Contest

The annual contest to select a theme for the Campus Community Carnival begins today and runs through March 16. Any student is eligible to submit an entry. Students should keep in mind that the theme should be original and draw attention, and at the same time be well adapted to the construction of floats, and to the general purpose and atmosphere of the CCC.

Entries can be sent to the APO office, HUB, c/o Cliff Anderson, Special Events Chairman, or brought to HUB 211.

The winner of the contest will ride in the parade and receive two free tickets to the midway.

If you see a financial 8-ball in your future, there is a way you can start getting ahead of it—now!

A life insurance program started while you're still in college can be the first step in your lifetime financial planning. And you profit by lower premiums.

Your campus representative is qualified to discuss with you a variety of plans to take care of your present and future needs.

## IBM WILL INTERVIEW FEB. 15

Candidates for Bachelor's or Master's Degrees are invited to discuss opportunities in:

## Engineering

This is a unique opportunity to find out about the many career opportunities at IBM. The IBM representative can discuss with you typical jobs, various training programs, chances for advanced education, financial rewards, and company benefits—all important factors that affect your future.

### SOME FACTS ABOUT IBM

An Unusual Growth Story: IBM has had one of the exceptional growth rates in industry. It has been a planned growth, based on ideas and products having an almost infinite application in our modern economy.

Diverse and Important Products: IBM develops, manufactures and markets a wide range of products in the data processing field. IBM computers and allied products play a vital role in the operations of business, industry, science, and government.

Across-the-Country Operations: Laboratory and manufacturing facilities are located in

Endicott, Kingston, Owego, Poughkeepsie, Vestal, Yorktown, N. Y.; Burlington, Vermont; Lexington, Ky.; San Jose, Calif.; Bethesda, Md.; and Rochester, Minn. Headquarters is located in New York City with sales and service offices in 180 major cities throughout the United States.

The Accent is on the Individual: No matter what type of work a person does at IBM, he is given all the responsibility he is able to handle, and all the support he needs to do his job. Advancement is by merit.

The areas in which IBM is engaged have an unlimited future. This is your opportunity to find out what that future has to offer you. All qualified applicants will be considered for employment without regard to race, creed, color or national origin.

Your placement officer can help you to learn more about IBM. He can give you literature describing the many career fields at IBM. He will arrange an appointment for you with the IBM representative. If you cannot attend an interview, write or call the manager of the nearest IBM office:

R. H. Torgler, Branch Manager  
IBM Corporation, Dept. 882  
1049 Asylum Ave.  
Hartford 5, Conn.  
Phone: CH 9-8601

# IBM

You naturally have a better chance to grow with a growth company.
