## Nemirow, Reilly Vie For Senate Presidency

### Positions Yet To Be Filled In Senior Sophomore Class

By RON ABUCHAN

At the USA Convention where all candidates were nominated with no opposition, it took only one hour to nominate all but two Senators for the Senior, Junior and Sophomore classes. Robert Reilly, Phi Sigma Kappa, was nominated for the position of President of the Associated Student Government. Upon his nomination Reilly stated that he "was appreciative of the confidence that the party has placed in him. In order to win this election, it will be necessary to eliminate any and all factions and factionalism."

"There is now no honor in the position of Senator. It is the responsibility of the USA Party to put the Senate and the position of Senator into its proper status and respect on this campus. There should be an organization on this campus to provide leadership, and that organization is the Senate."

Reilly concluded by adding, "If you revitalize the Senate, you revitalize the students. We need a fight to pull us together—we need to be united."

At this point in last night's convention Dennis Lepak,

President of the USA, stated that according to the Senate constitution candidates for the offices of the Student Senate must be Junior Senators, and that Reilly was the only qualified person at that time. Lepak pointed out that permission was needed to run a candidate for Vice President of ASG. They would therefore, ask permission from the Senate at tonight's meeting.

Nominations for Vice President were then held. Gordon Tuthill, Tau Kappa Epsilon, was the sole nominee for this office. Tuthill, upon his nomination, said "We have a tough election ahead of us. The majority of Senators and of past and present Presidents of the ASG have always been members of the ISO."

He added that he "will do everything within my power to see to it that this campaign will be the most vigorously fought campaign. The United in United Students Association shall stand for victory."

Nominations for Senior Senators included Adolph Luciani, Sigma Alpha Epsilon; Kathy Bland, Kappa Kappa Gamma; Britt Unman, Alpha Delta Phi; and Diane Naktenis, Delta Zeta. Although one additional candidate was to be nominated, no further nominations were held.

Those students chosen to run for Junior Senators were Carl Fisher, Phi Epsilon Pi; Barry Silver, Alpha Epsilon Phi; Ralph Palmieri, Sigma Phi Epsilon; Al Medeiros, Sigma Alpha Epsilon; Ellie Sealy, Alpha Delta Phi; Bert Goldfarb, Alpha Zeta Omega; Kevin Dunne, Chi Phi; Karen Dunn, Phi Sigma Sigma; and Shirley Buttrick, Kappa Kappa Gamma.

Concluding the nominating convention was the selection of Sophomore Senators. Those nominated were: Joel Hirschhorn, Phi Epsilon Pi; William

Hait, Alpha Zeta Omega; Mike Sholik, Alpha Epsilon Pi; Harvey Arnoff, Sigma Phi Epsilon; and Maurice Fradette, Tau Kappa Epsilon. As in the case of Senior nominations one nomination was not filled.

Dennis Lepak, President of the USA, stated at the beginning of the convention that due to the excellent turnout at Executive Board meetings and the leadership of the candidates, the year should be "the year for the USA Party."

He continued by saying that not only he, but others, "pledge to build the USA Party up. We should be proud of our membership, and go out and fully support the party. Each one of you should take it upon yourself to not only vote but to get others to vote."

Lepak concluded the convention by stating that if anyone were to make further nominations for the two open positions in the senior and sophomore class he should contact Lepak no later than this Monday.

### Nutmegs On Sale

Sale of 1961 Nutmegs begins this week for \$9. in HUB 110.

Peter Crooks, editor-in-chief, emphasizes the importance of seniors purchasing yearbooks and also urges other classes to obtain Nutmegs.

"This year's books will be on time," according to Crooks, "and will be one of the best we have ever had."

### Pick Up Books

The Alpha Phi Omega office will be open today through Wednesday, February 22 from 3 to 4:30 p.m. in order that those who left books for the APO book exchange may reclaim them. All books not reclaimed during this time will become the property of APO.

Robert Reilly  
USA Presidential Nominee

Sam Nemirow  
ISO Presidential Nominee

## Panhel Officer's Installation Held

The new officers of the Panhellenic Council were installed at the annual Panhellenic Banquet held last Wednesday.

The guest speaker at the affair was Rev. James Carse, the director of the youth fellowship at the Storrs Congregational Church. He spoke on the potentials of the fraternity system. He challenged the fraternity system to take full advantage of the influence that it has on college students, channeling it forward toward academic and spiritual goals. The Panhellenic council he considered the nucleus of the sorority system through which activity towards these goals can be channeled.

### Rev. Carse's Background

The Rev. Mr. Carse was Sigma Chi at Ohio Wesleyan. He later went to Yale Divinity School. In addition to his present service at UConn, he was associate secretary of the YMCA at the University of North Carolina.

The new president of the Panhellenic Council is Barbara Mohler. She is from Massachusetts, and is a junior in the School of Education. She is a sister of Kappa Kappa Gamma. Her other activities include the Nutmeg of which she is the Organization editor, the student senate, a Winter Weekend Committee. She plans to teach elementary school after graduation.

### Pat Cleary-Vice President

Patricia Cleary is the vice president. She is from Rhode

Island, and a junior in the School of Physical Therapy. She is a sister of Pi Beta Phi. Her other activities include the Photopool the Newman Club, and the Physical Therapy Club. She is also the staff representative from the Photopool to the Board of Directors of the Daily Campus.

Ethel Winters is the recording secretary. She is from New Jersey, and is a junior in the School of Home Economics. She is the President of Phi Sigma Sigma. In addition she is the vice-president of Hiller, he plans to teach elementary school after graduation.

### Barbara Steinberg

Barbara Steinberg is the corresponding secretary. She is from Connecticut, and is a senior in the College of Arts and Sciences. She is the assistant treasurer of Alpha Epsilon Phi, and a member of Hiller. She is undecided concerning her plans after graduation.

Linda Geils is the treasurer. She is from New York, and is a junior in the School of Business Administration. She is Rush Chairman of Phi Mu. She is also the secretary of the Board of Governors. She plans to teach Business Administration after graduation.

These officers are not elected, but are filled by a system of rotation of sorority delegates. In this way each sorority has an equal opportunity for its delegate to hold office.

## Gale Nominated For Veep; Platform Planks Approved

By JUDY MEYER and CLARA DUNN

Sam Nemirow edged out Charles Gale in the bid for the ISO nomination for Student Senate President at last night's convention.

Gale, along with Judy Vibert, was then nominated for the Vice-Presidential position with Gale winning the contest.

The convention convened at 7:15 with Matthew Schechter, ASG President, delivering the keynote address. Schechter began by introducing Ed Bates, former ASG President who attended the convention but did not speak. Reading last year's party platform, he pointed out that the majority of the planks have been carried out. Commenting on his term of office, he said, "It was an educational process, and I hope it was also worth while for the school."

Charles Levine, former Vice-President of ISO, then read the rules and regulations under which the convention would operate. Craig Larson, platform committee chairman, then introduced this year's platform for criticism and approval. No preamble has been written. The planks are as follows: We will endeavor to:

Set up a Student Senate Committee to co-ordinate academic and curricular problems; revise the attendance regulation; allow students over twenty-

ty-one years of age to live off campus; revise the counseling system; initiate a plus and minus g.p.r. system; a general meal plan; set up a co-operative department store and have the Student Union Board of Governors responsible to ASG.

Additional planks proposed from the floor concerned association with National Students Association, election of a faculty member to the Board of Trustees, and helping to establish student government at UConn Branches. These planks were accepted and added to the platform. The entire platform was then endorsed.

Presidential nominations began with Mark Marcus nominating Charles Gale and Barbara Ceppetelli nominating Sam Nemirow.

For the Vice-Presidential post, Denny Funk nominated Judy Vibert and Barbara Ceppetelli nominated Gale.

Due to a lack of time, these two positions were the only ones in which nominating speeches were given. In the case of the other nominations, the nominees were the only ones to speak.

The following Senior Senate candidates were nominated: Judy Vibert, Marlene Freedman, Matt Egan, John D. Perry, Jr., Richard Thorsell, William Sommers, Miss Critchell, Miss Weinrich and Sue Tiller. The names of Gale and

Nemirow were put into nomination, but were made automatic nominations and deleted. This left eight positions to be filled.

The following nominees were selected: Marlene Freedman, Judy Vibert, Matt Egan, John D. Perry, Jr., Richard Thorsell, William Sommers, Sue Tiller and Miss Critchell.

In the Junior Class the nominees were: Ann McLaughlin, Denny Funk, Jan Solomon, Howard Rosenfeld, Joe Hamerman, Irwin Lerner, and Prodinsky.

A motion was made to close nominations and therefore a white ballot was cast endorsing Sophomore Senator nominees were: Ann Lovelace, Fran Tiller, Maureen McGrath, Helen Sharpe, Jerry Fox, Fred Wallace, Vic Schacter, Sherwood Bein and Steve Kahn.

Voting for six positions, the nominees ran a closely contested race which lasted through six ballots.

Nominees selected were: Ann Lovelace, Fran Tiller, Maureen McGrath, Helen Sharpe, Gerry Fox and Vic Schacter. The convention closed at 11:30 p.m. At that time the candidates were given petitions to be signed by members of their respective classes.

Pictures of candidates will be taken from 15 p.m. today in the HUB.

## BOG Holding Interviews

Any students on campus who are interested in serving on the Student Union Board of Governors are requested to attend interviews for the positions.

The interviews are being held daily, until February 23 from 3-5 p.m.

The student body is reminded that any UConn student, with or without experience, is eligible for a position of the Board. Anyone interested may sign up at the HUB Control Desk, beginning today.

The nominating committee is made up of senior members of the present Board of Governors, the manager of the HUB, and a faculty member of the Board.

## Successful Communication Necessary For Good Business Management

The value of communication between one individual and another was emphasized by Frank Anthony, guest speaker, as the most important aspect in successfully performing business management at Tuesday's meeting of the Society for the Advancement of Management.

Communication Complex He pointed out that communication between individuals is a complex matter, especially as day by day, people become less and less capable of listening. This refers to listening in the sense of understanding, not merely hearing.

According to Anthony, the basic problem in communication is the fact that people, even when talking about the same subject, form their own concept of the subject, and are thus discussing completely different matters. To further his point, the speaker related a true-to-life incident concerning a water bill presented before a state legislature.

Confusion Of Meanings Since Mr. Anthony's neighboring town was in dire need of water, the town legislature presented a bill to the state, requesting water from Anthony's town anytime it was needed. However, when this bill was withdrawn, second and third substitute bills were presented and labeled simply as the "Water Bill". When the townspeople referred to the bill, each individual was thinking of either the conditions of substitute No. 2 or substitute No. 3. Together, however, they thought they were talking about the same matter.

Listening Problems Another important problem discussed at the meeting was that of listening. According to Anthony, one listens by being interested, which means disposing oneself mentally and physically. Since many people have the idea that they are good listeners, Anthony made use of a unique but simple game: during five minutes of abject silence, everyone was asked to make note of all the different sounds they heard.

As a result, the notations ranged from five to sixteen various sounds, proving that

Frank Anthony  
SAM Speaker

no matter what group of people comprise a listening audience, each person hears and interprets sounds differently.

A primary factor in business, explained Anthony, is not to listen with ears alone, but also with your eyes. Making use of another demonstration, one of five volunteers was shown a picture; he then had to describe what he saw to another person, who in turn related what he heard to the next and so on. The result was five completely different interpretations of the picture.

### Eye Contact

A final important concept is to get your listener's eyes focused upon your own. This indicates an attentive, interested listener; and the fewer diversions there are, the more attentive your listener will be. Also, a good way of obtaining attention is to repeat a statement or fact four or five times, each time in a different way.

Summed up, the more language and speech skills one has, the easier it is for one to reach higher levels of understanding with others.

Making use of these same concepts, Anthony has catapulted to a highly successful businessman. Entering the business field only two years ago, he is now the owner of the Import-Export Co., a foreign car sales agency. He has also spoken to various college groups interested in some aspect of the business field, and to many business groups.

## Ten Students To Award Free Tickets

The Publicity Committee of Winter Weekend is continuing the tradition of the "Mystery Student" contest which was started last year.

Five male students and five coeds have been designated as Mystery Students. During this last week before Winter Weekend they will be stationed at various places on campus holding in their possession free tickets for Winter Weekend.

These tickets will be given to the first person who asks the Mystery Student, "Are you the Winter Weekend Mystery Man (or Woman)?" If the person who thus identifies the Mystery Student already has tickets for Winter Weekend he may turn them in at the HUB Control Desk and his money will be refunded.

### Contest

The contest will continue until all of the Mystery Students have been identified. When that happens their names and the names of the winners of the tickets will be printed in the Daily Campus.

Remember, the Mystery Students may be any students on campus, even your fraternity brother or your best friend. Throughout the contest various clues as to where they may be found will be printed in the Campus. Here is the first clue: on Friday there will be Mystery Students in the HUB Snack Bar from 10:11 a.m., and from 2-4 p.m.

### Tickets

Don't forget—the tickets may only be procured by asking the question, "Are you the Mystery Man (or Woman)?"

Begin today. Ask everyone you see on campus that question. Everyone on campus whom you meet will probably be asking you that question. Watch for the clues as to the whereabouts of these Mystery Students in the Campus.

## Cellular Biology Stressed As Being Very Important

By Evelyn Marshak

Amid the larger problems that face the world today, the cold war, the race for space, and the Congo crisis, there is almost no time to notice the little things that are necessary to keep the world moving. Yet it is one of these little things, cells, that compose all organisms and may be the key that will solve many of the medical problems that plague mankind.

To understand the 300 million human cells that make up the human body and to investigate the possible connections between the mis-function of cells and disease, the University of Connecticut established the Institute of Cellular Biology in November 1958 to integrate and coordinate the research in this complex field.

### Institute Membership

The Institute draws its membership from the departments of bacteriology, botany, genetics and zoology. Also cooperating are members of the chemistry, plant science, dairy industries and poultry science departments and the School of Pharmacy.

Through the institute the university hopes to increase opportunities for interdisciplinary training of graduate students, provide opportunities for training post-doctoral fellows whose interests are similar to or supplementary to those of the faculty, enable outstanding American and foreign scientists to collaborate in the university laboratories for brief periods as lecturers or for longer periods as visiting professors or research associates, conduct regular conferences in cellular biology among the resident staff and with scientists from other institutions, hold an annual symposium on topics within the field of cellular biology, and offer short training programs in specialized techniques.

The institute has a staff of 30 including Dr. Heinz Hermann who was the first permanent member and Dr. Jay Roth and Dr. Balaji Mundikar recently appointed permanent members. Many foreign scientists are coming to the institute to take advantage of the university's growing stature as a major research center and are doing their part to add to the growth.

The institute is being supported by a National Institutes of Health five-year grant of \$315,000.

With these goals in mind the institute works this way: Its several scientists receive research grants, usually through individual efforts. In performing the research with the institute facilities, they agree to teach high caliber students, the country's future researchers.

These students work in the project laboratory, doing work the scientist ordinarily would assign to a special research assistant, and also learning while gaining this sort of a head start on their own future research.

The students spend about a month in each scientist's laboratory. This way they gain on-the-job training in several biological fields.

Periodically Institute staff members get together to discuss individual and mutual problems from the viewpoints of several specialties. Several times a year, guest lecturers from other schools are invited to present their ideas to both students and faculty.

### Institute Director

Director of the Institute is Dr. Hugh Clark, a university zoologist since 1949 and a man who describes cellular biology as "an explosive segment of biology with exciting possibilities."

The institute has a staff of 30 including Dr. Heinz Hermann who was the first permanent member and Dr. Jay Roth and Dr. Balaji Mundikar recently appointed permanent members. Many foreign scientists are coming to the institute to take advantage of the university's growing stature as a major research center and are doing their part to add to the growth.

The institute is being supported by a National Institutes of Health five-year grant of \$315,000.

## Junior Queen's Coffee To Be Held On Monday At Kappa Kappa Gamma

Judy Wright and Maury O'Connor, chairmen of the Junior Prom Queen's Committee, have announced that the first coffee to select candidates for the Queen of the Junior Prom will be held on Monday, February 19, at 7:30 p.m.

The coffee, which will be held at Kappa Kappa Gamma, will be attended by candidates from each of the twenty-nine women's living units.

From these women, the judges will pick ten semi-finalists. On the following Monday evening, February 20, a coffee will be held at Phi Sigma Kappa, where the five finalists will be selected.

Serving as judges at the coffee on Monday will be: Dr. Frank Dolyak, of the Zoology Dept., Mr. Robert A. Denis, of the School of Business Administration, and Mrs. Helen G. Scrivener, of the School of Education.

### Students To Vote For Queen

After the finalists are announced, their pictures and a ballot box will be placed in the lobby of the HUB. The entire student body is eligible to vote for their favorite candidate for the queen title.

The semi-finalists and finalists will be selected by the judges on the basis of appearance, personality and social grace.

The Queen of the Junior Prom will reign at the annual affair on March 10 at the Hotel Statler-Hilton in Hartford. Bobby Kaye and his orchestra will provide music for dancing from 9 p.m. until 1 a.m.

Chairmen of the Junior Prom are Fred Esposito and Gordon Tuthill.

Judy Wright  
Jr. Prom Co-Chairman

Maury O'Connor  
Jr. Prom Co-Chairman

## This Spring's Uconn CCC To Offer Additional Prizes

Steve Driggers, general chairman of the Campus Community Carnival has announced that this year's C.C.C. will offer several new prizes, in addition to prizes offered in previous years.

This spring's C.C.C. will be held on Monday, April 24. Following a parade at 4:30, the midway will open at 6:30. Announcement of prizes will be made at the midway at 11 p.m.

The prize divisions this year are: Parade; Best Men's Float, First, Second & Third prizes; Best Combined Float, second & third prizes; Best Women's Single, first prize only; Queen's Float Trophy and the Top Band Trophy.

Midway: Best Men's Booth; Best Women's Booth; Best Combined Booth; Best All-Around Booth or Event, first and second prizes; most lucrative booth. Queen's: Trophy for Miss University of Connecticut; trophy for each princess in her court.

A plaque will also be given to the house which contributes the most in the House Campaign.

Due to some changes in the C.C.C. administration, the following chairmen have been appointed: Finance Chairman, Ed Hurwich; Queens Committee, Bill Quigley; and Special Events, Dick Petricella.

Discarded CS

# Connecticut Daily Campus

"Serving Storrs Since 1896"

## A Helping Hand

Bringing professionals in the various journalistic fields to Uconn to speak to the CDC heeler is part of the paper's new policy of reform to improve the quality of the Daily Campus.

Through these talks, followed by informal question and answer periods, it is hoped that the new people on the staff will get an insight to the responsibilities and significance of a newspaper. This is especially important here in the Storrs community where the only medium of communication on local matters is the Daily Campus. Although no competing newspaper exists to motivate us to strive to do the best possible job of informing the University community. We are endeavoring to fulfill this gap through a sound Heeling Program.

In Article II of the Constitution of the Connecticut Daily Campus, it is stated that, "the objectives of the Campus shall be to serve the University and the students by providing them with a newspaper which shall present the news of the University as well as items of opinion and interest and significance in a responsible and efficient manner."

In trying to obtain these objectives, what better method can be used than by drawing upon the experiences of journalists who have made it their

life's work to report the news "in a responsible and efficient manner."

On Monday evening the Daily Campus started its heeling program for this semester by having Mr. Charles Towne, City Editor of the Hartford Courant, speak to the prospective heeler.

In his talk, Mr. Towne spoke on "the demands and obligations of newspapers—something of the specters that haunt the business—what newspapers can do—and how they go about doing it." He also impressed upon the group the fact that, "No one should embark lightly upon a newspaper career, and once he has, he must never treat it lightly." He also said, "Read a newspaper and you learn about government—health—education—religion—the arts—finance—economics—the list would in fact be an inventory of all that affects our existence."

"Add to this the reform demanded and achieved by newspapers, the causes espoused and brought to success, achievements recognized, the inspiration and encouragement inherent in much of the news, and you have something approaching a fuller measure of the daily newspaper." Through his talk Mr. Towne gave the new heeler an idea of how professionals feel about their work.

He gave us all something to seriously think about.

## The Unthinkable

There has been for some years now much discussion about the military capabilities of the United States, with most of it centered about the subject of our deterrent power. And it is well that we think about ways to dissuade a potential enemy from bringing about a nuclear holocaust because America as a nation is dedicated to the principle that we shall not strike first.

But all of the discussion of our power to deter is in terms of missiles and airplanes and tanks and submarines. Basically, it is the idea that we must show Russia that were she to attack the US, our military power would still be able to wreak such havoc on the Soviet Union as to completely outweigh any possible gains.

Let us hypothesize, however, that although the mutual attacks destroyed an equal amount of military and industrial facilities in both countries, most of the Russian population came out unhurt whereas most of the American population became casualties. What then would be the outcome of the ensuing war?

This most unpleasant occurrence may well happen as the result of that old dog "anathy" about which we hear so much on this campus. But this apathy is nationwide—and it concerns civil defense. We have no civil defense. Oh sure, we have Civil De-

fense organizations in every town equipped with searchlights and first-aid kits. But what could they do if an atomic attack occurred? And knowing this, would not a potential enemy be encouraged to attack, realizing that so many casualties could be inflicted as to make recovery impossible?

The Soviet Union, however, has organized self-defense groups consisting of 48 trained fire fighters, shelter attendants and first-aid workers for every 500 residents. Since 1955, these units have carried through three compulsory training courses for all citizens. According to Leon Goure, the leading U. S. authority on Soviet civil defense, the Soviets this winter will give a compulsory course to all citizens on how to protect themselves against nuclear attack and how to behave in a shelter.

Americans seem to believe that the end of the world will result from any nuclear war. Experts know this just isn't so. Plenty of people will survive a nuclear attack; but 60 million casualties one way or the other depend on the quality of advance preparations.

It is high time that we came to realize that deterrent force consists of more than military weapons. And it is also time that we started thinking about the unthinkable: if we fail to deter, what then?

### Letter To The Editor:

## Thank You, Miss Funk

Recently a series of articles appeared in the Connecticut Daily Campus which were based on information gathered from replies to questionnaires sent out to faculty members by the Student Senate Academics Committee last Spring. There are many worthwhile suggestions and much valuable information contained in these articles. It took a great deal of time and effort to prepare, circulate, and evaluate this questionnaire. The articles appeared under staff reporters' names and I think it only fair to give credit to the people who actually compiled this information.

Members of the Academics Committee who prepared the survey were Stanley Brumaghim and Charles Neuse. Senators Shiela Sperber and

Dency Funk were acting as co-chairmen of the committee.

Most of the credit for this work, however, should go to Dency Funk who single-handedly compiled the results of the questionnaire and wrote a fine report (22 pages long) which was used for the articles mentioned above and is now available in the Student Senate office for those interested.

Often we read criticism in the paper of Student Senators who are not assuming the responsibilities of their office. This criticism may be justified in many cases, but recognition should be just as readily given to those who make outstanding contributions. My congratulations to Senator Funk for a job well done!

Judy Vibert

# Annual Tryouts Will Be Held For Spring's Skitzofunia

Tryouts will be held for Skitzofunia, the annual show in which houses compete in presenting skits which are written, directed, and played by the houses' members. The tryouts will take place on April 6 for doubles (two houses, usually a men's and a women's, producing one skit). Rehearsals will be on April 13 for independents and on April 15 and 16 for fraternities and independents.

The show will be presented on two days: Monday, April 17, for singles, and Tuesday, April 18, for doubles. Held in the HUB ballroom, Skitzofunia will try something new this year, "theater in the semi-round." The stage will be placed against the long wall containing the doors. The audience will sit in front and at either end of the stage.

Douglas Woudy of Sigma Chi Alpha is this year's Skitzofunia chairman.

## Belgians Ordered To Leave

The government of the African Republic of Ghana has ordered all Belgians to leave the country within 48 hours. At the same time, Ghana gave recognition to the leftist Gizen-ga regime as government of the Congo.

The Ghana statement said Ghana has always maintained that the government of the slain ex-Congo Premier Patrice Lumumba was the only legal authority in the Congo.

It is estimated that there are fewer than 20 Belgians left in Ghana.

## WHUS Lists Program Schedule

- 2:00 Music Hall—Russ Ginns plays the nation's top 40.
- 3:00 News — He keeps you up-to-date.
- 3:05 Music Hall — Russ returns with a pick hit and some old hits.
- 4:00 News — Tom Scanlan reports.
- 4:05 Music Hall — Scanlan swings with more top 40.
- 5:00 News — Keep posted with UPI.
- 5:05 Music Hall — Tom plays a few popular album selections.
- 5:30 Relax — Lee Etlinger and dinner music.
- 6:45 News and Views — Tom Scanlan, Harry Glasser, Pat Fontane and Dave Milson report all the news, weather and sports.
- 7:15 The Navy Swings — With Pat Boone.
- 7:30 Evening Concert — Lee Etlinger presents an hour of classical music.
- 8:30 News — Tony Welch and the news.
- 8:35 Music Unlimited — Tony plays the great bands from Goodman to Kenton.
- 10:00 News — From UPI.
- 10:05 Knights of the Turntable — Miles Ludwig with his swinging jazz show.
- 11:15 News — Miles reports.
- 11:20 Night Owl — Dick Pice features Dakota Staton this evening.
- 12:00 Spotlight on Science News — With John Cameron Swayze.
- 12:05 Night Owl — More study music.
- 12:55 Sign O. f.

## MEETINGS ANYONE? Activities On Campus

**Sophomore Class Council:** There will be a meeting of the Sophomore Class Council today at 4 in HUB 306. Topics for discussion will be Winter Weekend, Mansfield Training Center Project, Skitzofunia, and Constitutional revisions.

**Junior Class Council:** There will be a meeting of the Junior Class Council this evening at 7 in Commons 310. All members are requested to attend.

**Big Research and Evaluation Committee:** There will be a meeting of the Research and Evaluation Committee tonight at 7 in HUB 301.

**Gamma Sigma Sigma:** Sister and pledge meetings will be held tonight at 7. A work meeting will follow the regular business meeting.

**American Marketing Association:** There will be a meeting this afternoon at 2 in room 419 of the School of Business. Plans for this semester will be discussed. Anyone interested is invited to attend.

**Inter-Varsity Christian Fellowship:** There will be a meeting in the Community House this evening at 7. Miss Denise Farquhar from the Hope Bible Mission in France will speak on the topic "From a Missionary's Journal." She will relate to the fellowship one of her "average days" on the mission field.

**Debate Council:** There will be a meeting of the Debate Council tonight at 7 in HUB 207. All those interested are invited to attend.

**Lithuanian Club:** There will be a meeting of the Club tonight at 7 in HUB 214. All members and anybody interested are cordially invited to attend.

**ASCE:** The ASCE student chapter will install its new officers at the annual banquet tonight at 7:30 at the Imperial Steak House in Bolton. Guest speaker for the evening will be Dr. Stanley Wedburg, head of the Bacteriology department. Tickets for the banquet may be obtained from Duncan Silver and Sal Fazzino.

**AUSA:** The Nutmeg photo of the AUSA will be taken tonight at 6:45 in the HUB Ballroom. Uniforms are required. After, there will be a meeting at 7:30 in Hangar 6 where Lt. Col. Monty will address the members. Following, there will be a short business meeting and nominations of new officers will take place.

**Hi-Fi Instruction:** Hi-Fi instructions will be given Thursday, February 16, Tuesday, February 21, and Thursday, February 23, in the Music Lounge of the HUB. All those interested please sign up at the Control Desk.

**Engineering Council:** "Space and Relativity" will be the topic of Dr. Marshall Walker of the Physics Department. The Engineering Council urges all to attend this event which will be held in the UN room at 8 tonight.

**Condidiot:** There will be a meeting this afternoon at 3:30 in HUB 101 of the Condidiot staff. All members are urged to attend this meeting.

## Campus Feature: "Campaign Against War" Topic Of Tonight's Meeting

**By PETER STRONG**

"I have always held that if he who bases his hopes on human nature is a fool, he who gives up in the face of circumstances is a coward. And henceforth, the only honorable course will be to stake everything on a formidable gamble; that words are more powerful than munitions." — Albert Camus

To begin writing a regular newspaper column is an ominous task at best. Few would assume that they had that much of importance or interest to relate. It is perhaps an illusion which few would share. As my purpose in embarking on this venture however is quite apart from from entertainment or edification, this problem should not arise.

A newspaper column according to Webster is a regular, signed contribution to a newspaper, consisting in news, comment, or feature writing. It may be sustained with or without the help of contributors.

It is my contention that there are enough students on this campus interested in the subjects which will be treated, who will be anxious to have their views appear in print, to secure the success of this column.

\*\*\*

If asked to discuss your attitudes about the threat imposed on the world community by the possibility of a nuclear holocaust, what exactly would you reply? Could you give an intelligent, well-informed answer; or, would you be indignant at the suggestion that you as a "student" really need be concerned with such matters—thus answering that there will be ample time when you "get a bit" of school; or, will you merely shrug and admit you know next-to-nothing about the problem? Unfortunately, most of us find ourselves in the latter category. But, even this can be a start! To admit one's ignorance of a question is to discover a problem.

A problem does exist. What can be done? Organizations and discussion groups are being formed every day in American universities from coast-to-coast. Students across the nation are beginning to realize their duties as citizens. The student is not and must not consider himself a temporarily isolated school-boy who should be neither seen nor heard. Quite the contrary! The student is a privileged citizen with relative security and a lack of material responsibilities. Available for him are a library full of books and periodicals, and faculty experts, and most essential, the leisure hours to exercise these unique privileges.

A meeting held at the University of Chicago to discuss the campaign against war attracted 600 students and faculty.

A similar meeting to discuss the United States Army's policy on disarmament was held this January at the University of Connecticut. Six attendees.

There will be a meeting held this evening to decide on a general program for discussion of this problem and its implications. Why not be in the Union (Commons 315) tonight at 7:30 p.m.?

**Goglia Offers His Praise Of Sophomore Class Council**

"This year the Sophomore Class Council," as pointed out by sophomore class president Ed Goglia, "has done more to improve the general scope of the council than ever before."

Pointing out examples, Goglia mentioned the fact that for the first time the class council is in charge of a Senate Committee, namely the Husky Handbook.

He went on to say that the sophomore class council would be an aiding factor in Skitzofunia and Winter Weekend when the Council will supervise the games to be held in the men's gym.

**Field Trip**

"This week the members of the Council went on a field trip to the Mansfield Training Center where they hope to spend afternoons and evenings aiding wherever they can," Goglia added.

Another new facet of the class Council will be the News letter which will be headed by Kevin Dunne. The purpose of the Newsletter, Dunne stated was to familiarize sophomore with other members of their class.

### UC To Offer Data Course

The University of Connecticut will once again offer a basic course on computers and data processing at two of its Branches this spring.

Introductory in scope, the course is designed to pave the way for persons planning to take advanced work in this field at special programs offered by the various computer firms. The UofC course will be taught at Stamford and Hartford by Henry Cadow, of International Business Machines Corp.

Hartford classes start Feb. 4 and will meet Saturdays for 10 weeks, from 9:30 a.m. until noon and from 1 to 4:30 p.m. The Stamford program will be conducted Tuesdays and Thursdays, starting Jan. 31, from 7 to 10 p.m. for 10 weeks.

Applications must be received by Albert Jeffers, Box U-56 by Jan. 16. Students may register in person Jan. 17-18 at the Hartford Branch, from 7 to 9 p.m.

Stamford area students may register in person Jan. 25-26 at the Branch, located at Stamford High School, from 7 to 9 p.m.

**Dayton In Nite**

Dayton is the 7th team to accept a bid to next month's National Invitational Basketball Tournament.

# Elis Sink Aquahuskies 61-34 Benson Standout

By John Purtill

In a meet, Tuesday, with the much touted Yale swimmers, the University of Connecticut varsity swim team won only four of the eleven events, and lost by a 61-34 margin. The meet was the second Yale win since their 201-meet streak was broken by Navy.

## New Record

Significant in the UConn victories was speedy Bob Benson, distance swimming. Junior, who won the 220 and 440 freestyle, swim anchor on the winning freestyle relay team, and broke the 220-yard freestyle school record. For his wins, Bob beat the famed Yale freestylers, and did the 220 in 2:11.9, to break Steve Pinney's old record. This is the second of Pinney's records that Bob has taken; the first was Steve's 440 record.

The other victorious Husky swimmer was Dick Busher, a consistent winner who holds the WPI pool record and several others. In his event, the 200-yard backstroke, Dick stroked in before the best Yale men to win with a fast time of 2:15.0. He has won this event in every meet this season.

## Few Seconds

UConn's second places were also few; only three men were able to come in second against the rested Yale swimmers who

were deep in all events. They were: captain Neale McGarry; butterfly, George Tatorosian; individual medley, and Bob Long; diving. Taking third places were: Ted Boynton; sprints, and Joe Kraznowski; outstanding breaststroke who usually turns in a good time for his event.

Yale's principle advantage was its great depth in all events; if they weren't able to win first place in an event, they at least won second and third places.

## Umass Today

The Huskies start now have a won-lost record of 4-3. Today, they will swim the University of Massachusetts at 4 p.m. in Brudage pool.

400-yard medley: 1. Yale (Bailey, Head, Bissell, Guthrie), 7:33.8; 220-yard freestyle: 1. Benson, C.; 2. Buselle, Y.; 3. Barber, Y. 2:11.9; (new UConn record)

300-yard freestyle: Ball, Y.; 2. Lonsborough, Y.; 3. Boynton, C. 2:23.5.

200-yard individual medley: 1. G. O'Neil, Y.; 2. Tatorosian, C.; 3. Bedford, Y. 2:22.13.2.

100-yard freestyle: 1. Benson, C.; 2. Murphy, Y.; 3. Boynton, C. 1:33.5; 200-yard backstroke: 1. Busher, C.; 2. Finch, Y.; 3. Stevens, Y. 2:15.0; 400-yard freestyle: 1. Benson, C.; 2. Colver, Y.; 3. Hall, Y. 4:31.5; 200-yard breaststroke: 1. Hollister, Y.; 2. Lee, Y.; 3. Kraznowski, C. 2:38.9.

400-yard free style relay: 1. Connecticut (Childs, Tatorosian, Schneider, Benson), 7:33.9.

## Giants' Chief Confident

(AP) — Alvin Dark is going since being named manager, into his first season as manager of the San Francisco Giants, but he is well acquainted with the club. He was a National League infielder for the past 13 seasons, and a Giant himself for over 5 of those years. From what he has seen and from what he has learned

## That Willie

First of all, Al terms the Giants a solid Pennant contender. He is, of course, high on the amazing Willie Mays. And on Willie's outfield mates, Orlando Cepeda and Felipe Alou. Dark also thinks the off-season acquisition of steady-hitting Harvey Kuenn will strengthen the team. He plans to use Kuenn at 3rd base, even though the ex-American Leaguer has been an outfielder for most of the recent seasons.

## Optimistic Mentor

Al is optimistic about the return to form of 4 infielders who were sub-par last year, Willie McCovey, Jim Davenport, Don Blasingame and Ed Bressourd. He figures on no problems on starting pitchers, with Sam Jones, Mike McCormick, Jack Sanford, Billy O'Dell, Juan Marichal and Stu Miller on hand. Dark concedes a bullpen weakness, but has hopes a rookie up from the Texas League, Ray Davault, will help.

All in all, Al Dark feels he has a challenger for the title in his Rookie Year as a big league manager.

# 18 US Skaters Killed In Air Disaster

(AP)—The flaming crash of a Sabena jet airliner near Brussels airport has taken the lives of 54 Americans, including the 18 members of the United States figure skating team. In all, 72 persons died in the crash after a flight from New York. A man on the ground was killed.

## US Champ Killed

Among the victims were Mrs. Maribel Vinson Owen of Winchester, Massachusetts, 9 times U.S. figure skating champion, and her 2 daughters, who were members of the team. One of the girls, 16-year-old Laurence, only last week won the North American women's figure skating title at Philadelphia.

The U.S. team was en route to the world figure skating

championships scheduled for next week in Prague, Czechoslovakia.

**Championships Not Off**  
A spokesman for the organizing committee of the World Figure Skating Championships said today the event has not been canceled despite the death of 18 U.S. competitors in the Brussels plane crash.

The spokesman said in a telephone call to Frankfurt from Prague that reports distributed by the East German news agency that the competitions have been called off "are not true."

However, final decision on the competition now rests with the International Skating Union with headquarters in Switzerland.

The president of the ISU, Dr. James Koch, said earlier he favored calling off the event.

## 5th Sports Tragedy

The death of 18 members of the United States figure skating team in an airplane crash in Belgium while en route to the World Championships in Prague is the 5th air tragedy involving sports teams. The first occurred May 4th, 1949, when 31 persons were killed in a crash at Turin, Italy, including all members of the Italian National Soccer team. It was composed of players from the Torino Eleven of Turin which won the National Championship 4 straight years.

On February 6th, 1958, a British airliner carrying Britain's championship soccer team home from Yugoslavia fell and

burned at Munich, and among the 21 killed were 7 members of the team and 8 British sports writers.

**Two Last Year**  
Two sports air tragedies occurred last year.

On July 16th, a chartered plane crashed at Copenhagen, killing 8 of Denmark's leading soccer players.

On October 29th, another chartered plane cracked up in fog at the Toledo airport, killing 16 members of the California Poly football team of San Luis Obispo en route home after being beaten 50-8 by Bowling Green of Ohio.

Fairmont 79, Wheeling 64

## Moore Must Face Rinaldi

(AP) — Italy's Giulio Rinaldi is jumping for joy over the prospect of meeting Archie Moore for old Archie's share of the World Lightweight Title. Moore said Tuesday he plans to fight the 25-year-old Italian on June 10th at Madison Square Garden in New York. The bout is not definite, but apparently is well along in the planning stage.

**Outpoints Moore**  
Rinaldi banged his way to the forefront as a challenger when he outpointed Moore in a non-title match last October in Rome.

Archie is no longer recognized as champion by the National Boxing Association, which has jurisdiction in all States except New York and Massachusetts. The N. B. A. stripped Moore of his title because of his failure to make a defense within a specified time. Archie last risked his crown 18 months ago, when he knocked out Yvon Durelle of Canada.

## NYAC Threatened

Tuesday, the New York State Athletic Commission threatened to lift its recognition of Moore if he did not sign for a defense forthwith, and European authorities indicated they would follow through. Archie promptly announced his intention to fight Rinaldi.

# Win These Big Prizes

## IN Lorillard's 3-way Campus Contest!

A WOMEN'S DORMITORY  
OR  
**A Sorority**

WILL WIN THIS FABULOUS  
RCA 21-INCH COLOR TV SET!

Here's all you do. Have every member of the sorority save the empty packages of any of the Lorillard products displayed below. The sorority that has saved the most empty Lorillard packages will be awarded the RCA color television set. NOTE: 1. Wrap empty packages in bundles of 50. 2. Deliver to Student Union, Room 111, by 2 p.m., March 17, 1961. 3. Winning Sorority will be notified by March 20, 1961.

In event of ties—a blindfold drawing will decide the winner.

A MEN'S DORMITORY,  
OR  
**A Fraternity**

WILL WIN THIS FABULOUS  
RCA 21-INCH COLOR TV SET!

The rules for fraternities follow the same pattern for sororities. The fraternity that saves the most empty Lorillard packages will also win this RCA color 21-inch television set. So start saving the empty packages of any of the Lorillard products shown below. NOTE: 1. Wrap empty packages in bundles of 50. 2. Deliver to Student Union, Room 111 by 2 p.m. March 17, 1961. 3. Winning Fraternity will be notified by March 20, 1961.

In event of ties—a blindfold drawing will decide the winner.

**THE Entire Student Body AND FACULTY**

CAN ENTER THE LORILLARD SWEEPSTAKES FOR THESE FOUR GREAT PRIZES!

You don't have to be a member of a fraternity or sorority to enter.

## READ COMPLETE SWEEPSTAKES RULES HERE:

1. Each entry must consist of one empty pack of any of the following brands: Kent... Newport... Old Gold Filters, Straights... Spring OR—a plain piece of paper which has the "hand" drawn block letters of any of these brands drawn in any size.

Your name and address must be written on the back.

2. Deposit your complete entry in the Lorillard Campus Sweepstakes entry box. All entries must be on deposit before:

There will be a random drawing in which the prize winners will be selected in consecutive order. Drawing

will be held under the supervision of the college newspaper staff. Enter as many times as you want. Only one prize per contestant. Entrants need not be present at drawing to win.

3. Lorillard Campus Sweepstakes is open to all students and faculty members of this school.

4. Lorillard Campus Sweepstakes is subject to all Federal, State and local laws.

5. Students and faculty whose immediate families are employed by the P. Lorillard Co. or its advertising agencies are not eligible.

Date of drawing

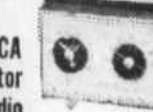

An RCA Portable Stereo Set Mark 38

A Royal Portable Typewriter

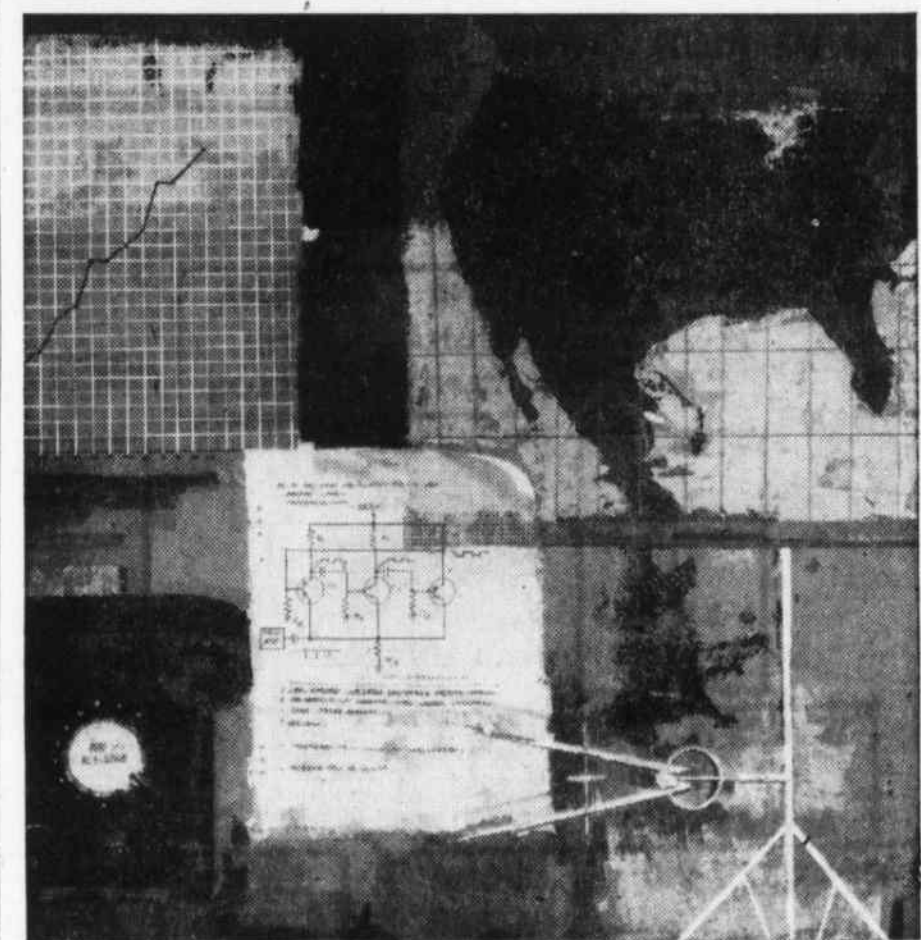

A Polaroid Land Camera

An RCA Transistor Clock Radio

## 8,000 Management Opportunities!

That's right. There will be 8,000 supervisory jobs filled from within the Western Electric Company by college graduates in just the next ten years! How come? Because there's the kind of upward movement at Western Electric that spells executive opportunity. Young men in engineering and other professional work can choose between two paths of advancement—one within their own technical field and one within over-all management.

Your progress up-the-ladder to executive positions will be aided by a number of special programs. The annual company-wide personnel survey helps select management prospects. This ties in with planned rotational development, including transfers between Bell Companies and experience in a wide variety of fields. Western Electric maintains its own full-time graduate engineering training program, seven formal management courses, and a tuition refund plan for college study.

After joining Western Electric, you'll be planning production of a steady stream of

communications products—electronic switching, carrier, microwave and missile guidance systems and components such as transistors, diodes, ferrites, etc. Every day, engineers at our manufacturing plants are working to bring new developments of our associates at Bell Telephone Laboratories into practical reality. In short, "the sky's your limit" at Western Electric.

Opportunities exist for electrical, mechanical, industrial, civil and chemical engineers, as well as physical science, liberal arts, and business majors. For more information, get your copy of Consider a Career at Western Electric from your Placement Officer. Or write College Relations, Room 6106, Western Electric Company, 195 Broadway, New York 7, N. Y. Be sure to arrange for a Western Electric interview when the Bell System team visits your campus.

**Western Electric**  
MANUFACTURING AND SUPPLY UNIT OF THE BELL SYSTEM

Principal manufacturing locations at Chicago, Ill.; Kearny, N. J.; Baltimore, Md.; Indianapolis, Ind.; Allentown and Laureldale, Pa.; Winston-Salem, N. C.; Buffalo, N. Y.; North Andover, Mass.; Omaha, Neb.; Kansas City, Mo.; Columbus, Ohio; Oklahoma City, Okla.; Engineering Research Center, Princeton, N. J.; Teletype Corporation, Skokie, Ill.; and Little Rock, Ark. Also Western Electric distribution centers in 32 cities and installation headquarters in 10 cities. General headquarters: 195 Broadway, New York 7, N. Y.
