Student Union Budget Report Released Yesterday

What The Money Is Used For

THE INSIDE STORY. Phil Bemis, former staff cartoonist for The Campus, has captured the spirit of what really goes on inside the Student Union. The above drawing will be incorporated into the 1954 Freshman Handbook and Student Union Handbook for Freshmen.

The Student Union budget for this year's operations was released yesterday following a meeting of the Union Board of Governors. According to the budget report, the Union management expended a total of \$16,762 out of a total income of \$17,000 as of April 30.

Income from the student activities fees totaled \$13,150. An additional income of \$4,950 was realized from juke boxes, game rooms, the Winter Carnival, instructional series and minor dances.

The Union management received \$2.50 from the \$5.00 activity fee paid by 5,260 undergraduate students. This procedure is a result of the 5-4-1 split of the activities fee which was in effect this semester.

June 1 Deadline For Scholarships

Students planning to apply for scholarships for the 1953-54 academic year were reminded yesterday that June 1 is the deadline for submitting scholarships requests.

A spokesman for the Placement office said efforts are being made to set up the scholarship procedure so that the amount of the award can be deducted from the fee bill before it is sent to the student. The spokesman indicated that this will only be possible if the June 1 deadline is met.

Scholarship application blanks may be obtained in Administration Building room 380.

For Other Than Activities

Some students were surprised to learn from the budget report that \$9,968 was expended for salaries for the operation of the game rooms, the control desk and for cleaning. Many students, including members of the Student Senate thought that money from the student activities fees would be used solely for the operation of activities taking place at the Union building.

The biggest item on the budget for social, cultural and recreational events was the expenditures incurred for dance bands. The Winter Carnival, social and square dances cost \$2,016 for bands.

The Student Union management did not receive any income from the activities fees for the first semester although the Union program went into effect prior to this semester.

Also included in the expenditures listed under the social, recreational and cultural expenditures are supplies for the Board of Governors amounting to \$479.

Not Itemized

The budget report did not include itemized expenses. The report was broken down into two major parts, operating expenses, and social, cultural and recreational events.

Scholarships And The Fee Bill

An announcement today from the Placement office brings to light an improvement that has long been felt here. According to a spokesman for that office, plans are being made to credit scholarship awards against the total amount charged on the semesterly fee bill.

Under the old system, students receiving scholarships have been required to pay the \$75 a semester University fee before entering school in September, only to receive a \$75 check back from the school the following month. The proposed system would simply credit the fee bill with the scholarship award and would eliminate the exchange of \$75 checks. This is the way it should be, since, in most instances, scholarships are given to those who need them in order to meet all financial obligations.

If the new plan goes into operation, a heavy financial burden will be taken off the shoulders of many scholarship recipients, who sometimes find it difficult to scrape together the \$75 in time for the opening of school in September.

The success of the plan, however, depends on the cooperation the Scholarship committee receives from applicants. A June 1 deadline has been set for all applications. Failure to meet that deadline may mean that the scholarship awards will not be made in time to credit the award on the fee bill.

Here again, success of the venture depends upon student cooperation. Students are being given the opportunity to help themselves. If they fail to take advantage of this opportunity, they have no one but themselves to blame.

The Need For A Sitting Fee

The letter by David Frost, which appears in today's issue, pointed out a "slip" made by the staff of the Nutmeg when publicizing the \$2 sitting fee for pictures that will appear in next year's yearbook.

The error, as J. Dennis Pollack, editor-in-chief of the '53 Nutmeg, answered was "unfortunate". But, the Nutmeg staff shouldn't be criticized for charging such a sitting fee.

As Mr. Pollack explained, a sitting fee is necessary to make "ends meet", and since the sitting fee is the lowest in many years, we feel he and his staff are justified in establishing such a fee.

Most students should be aware, by now, of

the financial difficulties that student publications have been undergoing. In order to raise the standards of publications and, at the same time, remain within a strict budget, the various publications have to depend on outside income to offset operating costs. If the Student Senate were still publishing the yearbook, free of charge, then sitting fees might be eliminated. But, the Student Senate, because of a shortage of funds, will have to scrape every reserve they can muster to meet the budget demands.

The sitting fee is necessary and we hope that the students can see why.

From Our Readers

Letters to the Editor should be addressed to the Editor of the Connecticut Campus and should be submitted by 12 p.m., the day before publication. Letters must be signed, but names will be withheld upon request.

Nutmeg Editor Answers Letter On Sitting Fee

To The Editor:

In clarification of Mr. D. J. Frost's letter which appeared in your column yesterday concerning the portrait proofs for '54 Nutmeg, Mr. Frost, in essence, is quite correct in stating that he was under the impression the \$2 sitting fee was deductible from any order placed by himself. This was an unfortunate "slip" on the part of the Nutmeg, which appeared in an issue of The Campus. In truth, the \$2 is only deductible from any order of \$10 or more.

In defense of the \$2 sitting fee, let me state that it is the lowest sitting fee the Nutmeg has been forced to charge in a number of years. It had previously been \$3. The Nutmeg staff has always worked diligently in trying to make "ends meet" and keep the total expenses the students have to pay to a minimum and yet produce a new and different yearbook with color.

The \$2 fee, in itself, pays for the sitting fee, the 8 x 10 black and white enlargement proofs, which had previously been 2½ x 3½ contact "sunproofs." Even more important than these expenses, is the cost of retouching, as each photograph that appears in the Nutmeg, whether one, a hundred or none are ordered personally, must be retouched by the photographer, by contract agreement.

Reader Praises Letter To President Jorgensen

To The Editor:

Hurrah! Hurrah! Hurrah! They've taken the Old Bull by storm! Man the battlements! Dig in! It's a hot controversy—in the open—no cloistering curtains for this Campus staff. My complete and exuberant congratulations to you, Campus Board of Directors. Your open letter to Dr. Jorgensen was fine.

I can scarcely believe it, after feeling shackled for 3 years to what I considered a pusillanimous student body, here at last I find quite a fiery and intelligent spirit.

And to you, Dr. Jorgensen, we students are not completely witless. We can understand the financial pressures you face both from within and out. Management of any type always demands decisions of compromise. Often the compromise is quite cutting, but the clever administrator never compromises to disaster. And it is a disaster to cut student publications now, just when the student body is getting the feel of itself. It would be a pity to let down their morale now, just when it is building up.

To you again, Campus Board of Directors, a hearty toast from one who has felt asphyxiated for so long.

Alpha Sigma Phi

Fair skies and warm weather played their part in making Alpha Sigma Phi's annual Spring Weekend a great success.

The weekend commenced with the Spring Formal which was held at the Tumblebrook Country Club. The patrons and patronesses in attendance were: Major and Mrs. Richard E. Thuma, Mr. and Mrs. Stanley E. Wedberg, Mr. and Mrs. Frederick Amling, and Mrs. Christine A. White. The high point of the evening was the crowning of Miss Dorcas Kimball, 3B, as the Alpha Sigma Phi Sweetheart; her attendants were Miss Terry Murphy, Alpha Delta Pi, Miss Sue White, Kappa Alpha Theta, Miss Helen Stohlman, Alpha Delta Pi and Miss Harriet Hunt, Alpha Delta Pi. Social co-chairmen Merrit Card and Richard Coleman presented corsages to the sweetheart and her attendants. Another presentation was made by Major Richard E. Thuma, on behalf of the Brotherhood, to Mrs. Christine A. White upher her selection as Mrs. Alpha Sigma Phi. Favors for the dance were a combination necklace and bracelet emblazoned with the fraternity crest.

A picnic Saturday afternoon at Sweetheart Lake proved to be a tremendous success with about 170 persons in attendance, including many alumnae. The picnic was followed by an informal party at the chapter house Saturday evening.

The Eddie Turner Trio furnished music at a jazz concert held at the chapter house Sunday afternoon. This highly enjoyable concert served as the finale for the most enjoyable weekend.

Tau Epsilon Phi

Tau Epsilon Phi climaxed an active Spring social season with a weekend extravaganza appropriately called "The lost weekend."

The weekend, held on May 8, 9 and 10, was highlighted by a New Year's Eve party held at the chapter house Friday evening. Lavish decorations completely covered the lounge, dining hall and basement and aided considerably in attaining a typical New Year's Eve atmosphere.

On Saturday afternoon the brothers and their dates adjourned to Mashamoquet State Park for a picnic. The balmy air and the warm water of the lake encouraged many of the enterprising pledges present to dump some of the brothers into the water. Later the brothers rallied to retaliate in a like manner. The result being a few water-logged pledges.

An informal dance was held at the Shell Chateau, Willimantic Saturday evening.

The weekend concluded with a brunch, held at the chapter house Sunday morning, which was followed by a jam session featuring a combo from "Tinie's Heat Wave" in New London.

Sigma Chi Alpha

The third annual Sigma Chi Alpha Spring Formal was held at the chapter house on May 8. During the evening the couples danced through a large Sigma Chi white cross fashioned by the brothers, each date plucking a white rose from its border while going through.

Later in the evening as Brother Ernest Meier pinned his date Miss Patricia O'Malley of Stratford under the cross, the brothers serenaded them with the "The Sweetheart of Sigma Chi."

An Alumnae tea honoring Mrs. Hannah Lamb, resident counselor, was held on May 10. Alumnae from all over the state were present to mark the occasion of Mrs. Lamb's 14th semester with Sigma Chi and Sigma Chi Alpha.

The annual Carnation Ball, held at the Hedges Friday evening, ushered in Phi Sigma Kappa's Spring weekend on a very propitious note. Miss Jan O'Connor, '53, Kappa Alpha Theta, and fiancée of Robert Krause, '53, was chosen Phi Sigma Kappa Moonlight Girl. She was presented a sterling silver compact and a bouquet of carnations.

In his role as president of the Board, Jungherr believes in giving the college community a well-rounded social, cultural and recreational program. He was quoted as saying, "The constructive use of leisure time is perhaps one of the most important subjects for college students to learn. Participation in extra-curricular activities not only gives training and experience in this subject, but serves as a supplement to the classroom and as a laboratory in human relations."

Jungherr plans to enter the Army upon graduation, and subsequently to go into personnel management and administration, making industry his career.

"Science And Politics" Physics Seminar Topic

By Harry Shanley

"Scientific inquiry is the common denominator of science and politics," said Dr. Fred Kort, instructor in government and international relations, Monday night in a joint seminar presented by the Government and Physics Departments.

The seminar, entitled "Science and Politics", consisted of three papers read by members of each department.

Dr. Marshall J. Walker, assistant professor of physics, defined "professional", as used in professional scientist, as a man "who tells his employer what to do." He went on to explain that the professional man generally has more knowledge on the subject than the man who employs him, but that the man who employs him can either listen or ignore his advice.

Dr. Charles A. Reynolds, assistant professor of physics, defined the various places where research work is done. These, he explained, are industry, government, and universities and colleges. The objectives of these different types of research are more profit, defense, and knowledge "for its own sake", he went on to say.

Professor Harold P. Knauss, head of the physics department, related the difficulties of research in colleges and the problems of "red tape" that arise.

Political difficulties that enter into research were discussed by Dr. Karl A. Bosworth, associate professor of government and international relations. He said that one has to play politics to get money for research and one must accept the values of the donor of the money.

Professor Kort explained that a belief has persisted that science is based on fact whereas political sciences are highly speculative. He stated further that both are based on scientific inquiry and that the study of politics can conform to the scientific method as well as physics.

"The aspect of government and science is only one aspect

of the problem of the whole," said Professor G. Lowell Field, head of the government department, in the final speech of the evening.

"Society that has been committed to freedom and finds itself going through a period of transformation has to make the necessary adjustments on its freedom to implement it. Our society has passed from a small unit society to a bureaucratic state. This stresses public good rather than the good of any private citizen," stated Profes-

sor Field. In this type of state, he continued, "no private citizen can justify actions in his private good over the public good."

The readings were followed by general and private discussions.

Nothing no, nothing beats better taste
and **LUCKIES**
TASTE BETTER!
Cleaner, Fresher, Smoother!

Ask yourself this question: Why do I smoke?

You know, yourself, you smoke for enjoyment. And you get enjoyment only from the taste of a cigarette.

Luckies taste better—cleaner, fresher, smoother! Why? Luckies are made better to taste better. And, what's more, Luckies are made of fine tobacco. L.S./M.F.T.—Lucky Strike Means Fine Tobacco.

So, for the thing you want most in a cigarette... for better taste—for the cleaner, fresher, smoother taste of Lucky Strike...

Be Happy—**GO LUCKY!**

But fishing ain't complete without
