MIA issue to keep Vietnam out of U.N.

Continued from Page 1

names of 12 U.S. pilots killed in action.

Hanoi "has not been helpful," said the former Pennsylvania governor.

A spokeswoman for the National League of Families of POWs and MIAs said it was "gratified and pleased" by the decision. She said "The recent release of 12 names by the SRV was a transparent ploy to soften U.S. attitude toward their admittance." The league called on Ford to open direct negotiations with Vietnam to settle all issues between the two countries.

The U.N. Security Council has turned over to its admissions committee the Vietnamese application for membership, and that panel has scheduled a meeting on the issue at 10:30 a.m. EDT Tuesday.

But regardless of the committee's recommendation, Vietnam could not be granted membership without the unanimous approval of the 15-member Security Council.

Scranton said Ford reached the veto decision "on a nonpartisan basis," and had given him formal instructions to take the action when the Security Council takes up the issue.

On Labor Day, Hanoi released the names of the 12 AMerican pilots, previously listed as missing in action from the Vietnam War, who had been shot down and killed.

"They are certainly in no position to make these demands. W do not accept this token list of 12 names of MIAs as any reason to move on the normalization of our relations. Our primary concern remains a complete accounting for the MIAs."

CLASSIFIEDS

FOR SALE: '68 VW Squareback. New Engine(10,000 miles), 3 new tires. $600. 228-9006.

Male roomate wanted. Willington--2.2 miles from campus. $75/month, own bedroom. Call 486-3601.

SR-56

The super slide rule programmable powerhouse

...with 10 memories and 100 program steps.

$109.95*

SPECIAL SR-56 $10.00 Rebate Fill out coupon

The SR-56 is a tremendously powerful slide rule calculator. Yet you can program it whenever you're ready.

There are 74 preprogrammed functions and operations. You can do arithmetic within all 10 memories†. It has AOS – a unique algebraic operating system that lets you handle problems with up to 9 levels of parentheses. There's also polar to rectangular conversion – built in. Mean. Standard deviation. Degrees, radians, grads. And, it works with TI's new printer – the PC-100.

Chances are, you'll be programming. That's what professionals in your field are doing – right now. And with an SR-56 you're ready. It has 100-merged prefix program steps. 6 logical decision functions. 4 levels of subroutines. You can decrement and skip on zero to iterate a loop as many times as you specify. There are 4 levels of subroutine to let you use your program steps to maximum advantage. And, you can even compare a test register with the display to make a conditional branch. So you can check an intermediate result for convergence, or a maximum.

The edge you need. Now. And in your career.

$10.00 rebate coupon

Texas Instruments will rebate $10.00 of your original SR-56 purchase price when you return this coupon and your SR-56 customer information card postmarked no later than October 31, 1976. To apply:

1. Fill out this coupon
2. Fill out special serialized customer information card inside SR-56 box
3. Return completed coupon and information card to:
