## Resurgents Try To Oust Pivnick, ISO Head

### SAM To Present Noted Lecturer Thursday Evening

The Role of Business in International Relations" will be discussed by Mr. Saul M. Silverstein at a meeting of the Society for the Advancement of Management Thursday at 8 p.m. in HUB 306.

Mr. Silverstein, president of the Rogers corporation of Rogers and Manchester, is a graduate of Massachusetts Institute of Technology, holding bachelor's and master's degrees in chemical engineering.

#### American Observer

In 1952, Mr. Silverstein participated on a five-man management team dispatched to Belgium by the Mutual Security administration to conduct seminars aimed at increasing productivity in that country. A year later, he was one of four American observers at the International Conference on Management in Paris, and was asked to survey progress made by Belgian management since the team had worked with them.

#### Foreign Administrator

In March, 1954, Mr. Silverstein again visited Belgium under the auspices of the Foreign Operations administration. In September of that year, he and three other American executives spent five weeks in Turkey for the same organization. Lectures on management procedures, production, marketing and human relations were delivered to approximately two-hundred-fifty Turkish industrialists in Ankara, Istanbul, Izmir and Adana.

Mr. Silverstein is also secretary of the Council for International Progress Management, which recruits and organizes the work of the management teams sent abroad by the government.

The public is welcome to attend the talk. Refreshments will be served following the program.

### Booster Club To Form At Tonight's Ball Game

The Booster's club, under the direction of the Freshman Council Pep committee, and headed by Roberta George and Emil Levi, will be initiated at tonight's basketball game. Anyone who is interested may participate; the only requirements are a white shirt for the boys, white sweater or blouse for the girls, and your presence in section CC of the Field House before the second half of the freshman game. The cheerleaders will be there to lead cheers, and mimeographed copies of the cheers will be given out.

Campus Photo

Richard Cronin, former NCAC president and president of the Archons (men's honorary fraternity), led the unsuccessful attempt to unseat Ronald Pivnick (left) as ISO president, a position he has held for 2 years

### Party Rejects Offer Of Resignation Offered By Challenged President

By AARON MENT

The usually quiet and orderly ISO primary was turned into a wild scramble of parliamentary procedure by a bitter inter-party battle that concluded with ISO president Ronald Pivnick offering his resignation. Pivnick's resignation was unanimously rejected by the group.

The conflict began when the platform prepared by a special committee was defeated, and Richard Cronin, Tolland hall, moved that another special committee be set up to write the platform and manage the campaign. This committee, he explained, would include the presidential and vice-presidential candidates and two members, other than any member of the present ISO executive committee, chosen by the candidates.

#### Shortcomings Cited

Speaking for his motion Cronin stated that the present ISO Executive committee had demonstrated its incompetence and inability to handle the writing of the platform and the managing of campaigns. As an example of the ineptness Cronin cited the "Letter-to-the-Editor" written by Pivnick concerning statements made by a USA candidate during the fall elections. He said that the letter was poorly written and spoke poorly for both Pivnick and the ISO party.

In arguments against the proposed motion Cronin was accused of trying a "crude political grasp for power." It was also argued that by excluding the present ISO executive committee, the people who would be most qualified to handle the campaign would be eliminated.

The motion was then amended so that the committee would be enlarged to include one candidate from each class, the presidential and vice-presidential candidates, and any two other persons chosen by the candidates. This motion was passed by the group.

Commenting on the proceedings Pivnick said that he felt the proponents of the change wanted to remove control of the organization from the "old guard" and that he felt that it would be in the best

See PIVNICK page 6

### Coates Heads I.S.O. Slate For Elections

The Independent Students Organization has nominated party candidates for the Student Senate. In a pre-vacation primary, which deteriorated into a party split, 13 were selected to vie for Senate seats in the Senate elections next month.

George Coates, who is presently a Senator, is the party choice for president of the Senate. His running mate is Audrey Delaney, also a Senator. Miss Delaney is presently serving a second term as Senator and holds the post of co-chairman of the Blue and White Committee.

Five Junior candidates will be in the running. They are, in addition to Coates and Miss Delaney: Matthew Shafner, commuter; Richard Cromie, Unit E 2-B, and Sheldon White, Hartford Hall. Shafner is also a Senator.

As far as the Sophomore Class is concerned, there are two candidates in the running, according to a list of candidates submitted to

Campus Photo

the Daily Campus. Ruth Raymond, Sprague Hall, and John Perry, Quad II are the party's choices.

However, the list of Sophomore candidates as well as the slate of Freshmen and Junior candidates has not been completed, Ronald Pivnick, president of the ISO, said that the Executive committee will complete the slate in a nominations session shortly. The Freshmen Class is entitled to six candidates, the Sophomore Class nine and the Junior ten.

In the running on the Freshmen Class slate is Florence Wagmen, Unit 5-B; Judith Pulin, Unit 7-B; Carol Emerick, Unit 3-B and Lee Wallace, New London Hall.

### Walter Burr Will Head Drive For '56 Alumni Membership

Walter Burr, assistant professor of animal diseases here, has been named chairman of the 1956 Alumni Association membership and fund raising drive.

Announcement of the appointment was made here today by Charles Anderson, class of 1929, president of the University of Connecticut Alumni Association.

In accepting the chairmanship, Mr. Burr said that "We hope to make this the most successful membership and fund drive in the school's history."

#### Will Back Jubilee Celebration

"Next fall we will start celebrating our Diamond Jubilee, and it is important that we get the cooperation of all our alumni at this time," he added.

Mr. Burr received his Bachelor of Science degree from Connecticut in 1940, and a Master's degree in

bacteriology in 1949. He has been with Uconn since 1947.

A lieutenant colonel in the National Guard, Mr. Burr is commander of the 1st Battalion, 169th Infantry Division, with headquarters in Manchester.

#### Fought Overseas

He served during World War II with the 40th Division in the Philippines, and was recalled in 1950 with the 43rd Division. He has a total of 15 years of military service.

In 1940, Mr. Burr was captain of the Uconn swimming team. He is a member of Delta Chi Delta fraternity, formerly Alpha Gamma Rho. He is married to the former Jean Barnes of Greenwich, class of '42. They have a daughter, 11.

Alumni of the University can send their membership dues and contributions to Alumni House, Mr. Burr said.

### Alpha Sigma Phi Initiates 'Pizza Man' As Honorary

By BOB SOKEL

A passing remark of "Those boys are all right. I'd like to join that frat", made by proprietor Sam Tranchida as a group of Alpha Sigma Phi's were leaving his "Huskies restaurant" one night recently has led to Sam being given an honorary membership in Alpha Sigma Phi.

The comment was made to waiter Ray Prato, who is also an Alpha Sig. He brought the idea back to the house where it was unanimously decided that Sam should be offered a bid to join the fraternity.

Prato made a cardboard duplicate of the pledge pin and officiated at the pledging ceremony which took place late last November. Sam's pledge tasks included learning the pledge manual, especially the part on dining etiquette, which the house thought would be most helpful to a restaurant owner. During his abbreviated three week pledge period, Sam worked obediently under Prato and fellow pled-

ge Frank Balzoni who is also a waiter at the "Huskies".

About 45 brothers witnessed the initiation ceremony Dec. 10 at the "Huskies" where Sam was presented with a cardboard duplicate of the fraternity pin. A fast worker lost no time in pinning his wife Barbara, as the fraternity sang its traditional sweethearts songs. This was believed to be the only time in history when the initiation and pinning ceremonies took place within five minutes of each other. The "Pizza Man", however, was spared the customary dunking in the lake which is the highlight of the pinning ceremony.

Sam makes frequent visits to the house and has already attended a party with wife Barbara as his "date". His honorary membership privileges include a standing invitation to all house socials. A dinner invitation is presently in the offering.

Christmas presents were exchanged. See ALPHA SIGMA page 6

### Court Frees Singer Of Poison Charge

William R. Singer, a Wallingford resident and an ex-student at the University of Connecticut who was accused of feeding arsenic to Miss Elsie Treggor, a senior student at the University, was freed by a Superior Court judge recently.

Judge John H. King accepted the recommendation of State's Attorney Joel E. Reed that prosecution be dropped. Singer had been charged with assault with intent to commit murder.

Attorney Reed told the court that the state had no evidence as to where the arsenic came from and no evidence as to how it was administered. The proceedings for the case lasted for five minutes.

The court's action in entering the case as a nolle with the prosecution withdrawn means that the case remains on file and can be reopened at any time.

The judge presiding over the case cited this case as "an outstanding example of Connecticut justice working in its best tradition."

## Present Rushing System Reveals Visible Failures

Failure is not an American habit. The American nation in fighting its way to the top of the world pinnacle has known its share of setbacks, but never has it accepted them. The American is noted for his ability to bounce back from a setback, and for this reason failure is not an American habit.

Failure should not become a habit at the University of Connecticut either. There is, unfortunately, an outstanding failure now visible at the University. This is the immediate rushing system adopted last semester by the sororities and fraternities of the University. Although the failure is most evident, there has been as of yet no attempts to remedy it. With such the case, all concerned are suffering. Unless the situation is alleviated immediately, those freshmen who rush, and the entire fraternity-sorority system will suffer from the same malady again next year.

Statistics tell the story in this case. One of the larger fraternities pledged twenty seven men after what it thought was a most successful rushing program. Since tapping nine of this group have left school with thoughts of transferring, joining the service, or because of very poor grades. Of the nineteen remaining, not more than ten have marks high enough to qualify them for brotherhood. Is this a sign of success? The percentages certainly don't indicate thusly.

Most of the fraternities witnessed similar headaches. This seems to add up to the fact that first semester freshmen aren't ready to become fraternity men. Neither they nor the fraternities concerned know whether the first semester student is capable of doing college work. Why spend all the time rushing freshmen, then, if they are only going to flunk out?

The scholastic gamble isn't the only drawback to the program. Rushing in the first semester means rushing individuals who haven't really been given an opportunity to see the system in operation. They are new at the University, not settled yet, and in most cases totally unfamiliar with the full meaning of fraternity or sorority. Why pressure them then into making a snap decision on a matter which may affect their whole life?

Furthermore, the weaker fraternities and sororities did not profit from immediate rushing. Not up to par numerically, they were unable to cope with the competition from the larger groups who could carry on more extensive rushing. Thus, the houses who needed a boost in the arm and time to rebuild were only knocked farther down the ladder. Is this strengthening the system? Hardly, for as the old adage goes, a chain is only as strong as its weakest link.

In view of all this, it would seem that now is the time for a change. Cornell, with fifty three fraternities and thirteen sororities, recently dropped immediate rushing for causes similar to those existing here. Uconn could do well by following suit, for failure should never be allowed to become a habit at the University of Connecticut.

## Campus Coed Unlike "Average" Woman Theory

(Los Angeles (Exec Res) There's quite a gap between the ideal campus queen and the average American woman, as statistics depict her.

So it seems, at least, to Jerra Lynn Tyler, this year's Helen of Troy at the University of Southern California.

For when Jerry Lynne matched her own dimensions against those reported by Henry Dreyfuss, one of the nation's foremost industrial designers, in his best-selling book, "Designing for People," she found that she was far from "average."

The Dreyfuss typical figure, which was developed after years of research and which serves as the model for the scores of products he designs, is five feet, three inches tall, and has a 39-inch hip spread, a 35-inch bust and a 29-inch waist.

### "Versus The 'Average'"

Compared with her, Jerra Lynne towers to five feet, six inches, and measures 36 inches in the hips, 36 in the bust and 25 in the waist. A junior at USC and a major in business administration, she admits that she's not one bit envious of this mythical average woman Designer Dreyfuss has conjured up and christened "Josephine."

In the course of his research, which involved the collaboration of ear doctors, neurologists, psychologists and opticians, Dreyfuss found that three and eight-tenths percent of American women are left-handed, two-tenths of one percent are color blind, four and one-half per cent are hard of hearing, and fifty-six and four-tenths per cent wear glasses.

Jerra Lynne pleads "not guilty" on all scores.

But the Dreyfuss average woman, although she may win no beauty contests, has proved immeasurably useful to the industrial designer as the target consumer for whom he designs everything from telephone head sets to the interiors of hotel rooms.

## Vari-Colored Flowers Via Atomic Charges

Atomic energy in the form of radiation on flowers will soon be responsible for the sprouting of many varied flowers.

University of Connecticut scientist Dr. Gustav A. L. Mehlquist asserts his studies show that gamma radiation can produce changes or mutations in the color and other characteristics which are most in demand by the flower-buying public.

At the National Conference on Radioactive Isotopes in Agriculture, held in January, Dr. Mehlquist first made his findings known.

Use of gamma radiation by florists, says the Uconn professor of floriculture, will be commercially feasible in two years, for producing marketable varieties. He expects commercial enterprises to launch their own experimental work within a year.

Carnations have been used in the gamma radiation experiment. The flower is comparatively simple to work with, and the information gained can be readily applied to fruits and other woody plants where vast possibilities lie almost unexplored stated Dr. Mehlquist.

### Brookhaven Lab

The work has been done in cooperation with the Brookhaven National Laboratory, where there is a supply of radioactive cobalt. The rays appear to cause somatic or non-hereditary mutations in the tissue cells of the carnations. Such cells may contain the flower pigment, and it is these which are affected in color changes, he said.

Gamma radiation is the probable cause of the gene according to Dr. Mehlquist. If so it is the key to the whole business of mutations, to lose its ability to produce normal substances. In the case of the William Sim carnation, with which he has conducted most of his radiation experiments, the red color pigment has been worked with.

It has been shown that radiation can also reverse a mutation. In this case the radiation apparently destroys the affected cells, and allows normal cells underneath to produce a normal epidermis.

### Affective On Perennials

Gamma radiation will probably be affective on most perennials, such as roses, chrysanthemums, and so on. On the other hand, mutations will have to be produced germinally in annuals, such as snap dragons, zenias, petunias, and others to be practical, since these plants are reproduced by seeding. As far as is known gamma radiation does not affect germ or sex cells.

The possibility of improving the quality and appearance of agricultural products and thus making them more marketable is almost limitless, Dr. Mehlquist feels.

# Society NEWS

By BUNNIE FANNING and JEANI WILLIAMS

The brothers of Pi Delta Chi held their Winter Formal just prior to vacation at the Hilltop House in East Hartford. At the dance Mrs. Sebastian Bartolotta of Middletown was chosen "Sweetheart of Phi Delta Chi." Favors for the dance were blue simulated leather jewelry boxes.

Unit 5-A reports several new engagements as well as one recent pinning. Carole Askin, '58 is engaged to Jerry Phillips, Pfc., U.S. Army and Connie Northrup, '57 will wed Frederic Wickman, A.I.C. Natalie Stone recently became engaged to Alfred Dean, '55, Phi Sigma Delta and Phyllis Stone, '57 became pinned to Gilbert Aliber, '55, Delta Upsilon, Amherst. A daughter, Andrea Lyn, was born recently to Judy Sandler Finkel.

### Lambda Chi Alpha Has Dinner Guests

President and Mrs. Albert N. Jorgenson were guests at the Christmas dinner of the brothers of Lambda Chi Alpha at the chapter house. The brothers also held a "surprise going-away dinner" on January 10 in honor of the resident counselor, Mrs. Florence Withee. Among those attending were Mr. and Mrs. Sumner Cohen, Mr. and Mrs. Huber Ellingsworth, Rev. and Mrs. J. Garland Waggoner, Mr. and Mrs. David Phillips, Mr. and Mrs. Howard Rollins, Mrs. Hannah Lamb, several Lambda Chi Alpha alumni and the brothers and pledges of the fraternity. A television set was presented to Mrs. Withee after the dinner.

Some of the most recent pinnings on campus are three reported from Delta Zeta. Helena Heath, '57, has become pinned to Buddy Manizza, '57, Tau Kappa Epsilon and Jean Delaney, '57, is wearing the pin of Edward Russell, '52, Phi Delta Chi. Martha Peninger, '57, became pinned during the mid-term vacation to Merwin Brandon, Jr., '57, Alpha Delta Phi, Columbia University.

The brothers of Lambda Chi Alpha initiated several new members just before the mid-term vacation. They are: Les Boyle, Frank Hawkins, Chic Chafee, Ron Whitaker, Pete McDevitt, Shawn Kelly and Bill Tetmeyer. Also initiated at that time were: Sam Beach, Lou Roushon, Hector Arias, Dick Gualano, Art Allen and Dave Owen.

Several of the Lambda Chi's have become pinned. Bob Platt is pinned to Barbara Baier, Unit 3-B and Harry Jordahmo is pinned to Sandy Heeks, Alpha Delta Pi while Frank Hawkins has pinned Nancy Wikander, Unit 3-D. John Reeve has become pinned to Joy Robinson from Farmington and Bill Burt is pinned to Lillian Michel, Kappa Alpha Theta. Another, Ross Baxter, married Sylvia Izzo on December 17.

### Beta Ep Formal

Beta Epsilon Rho held its annual Christmas Formal on December 9 at Cavey's Restaurant in Manchester. The event was highly successful with about 65 couples enjoying dancing and refreshments. On January 7, Beta Ep held a party for its pledges at which the presentation of paddles and an amusing skit were highlights of the evening. Bruce Richardson, '56 from Camden has become engaged to Mary O'Neil from Collinsville.

Seven of the residents of Unit 1-C have become either pinned or engaged. They are Elizabeth Kidney, '56 who is pinned to John Rathbun, '57, Theta Sigma Chi, Dorothy Stuessi '57 who is pinned to Joseph Cavanaugh, '57, Delta Chi Delta and Anne Travers, '56, who has become pinned to Gerald Blodinger, '57, Tau Epsilon Phi. Sandra Hilton, '57, is engaged to Sp/3 Jerry Lee, Fort Bragg, North Carolina and Kathleen Thomas, '58, is engaged to Ronald Barrett, Bay Shore, New York while Nurith Fish, '59, will wed Howard Rothstein, '56, John Hopkins University and Sandra Hammond, '57, is engaged to Joseph Kerby, '57, Delta Tau Delta, Tufts University.

Brothers of Pi Delta Chi who have become pinned in the last few weeks are Robert Santone, '58, who is pinned to Barbara Charlis, Kappa Alpha Theta, Pasquale Milone, '58, to Elena Grottole from West Haven and Walter Klein, '57, to Betty Jane Saccone, '57, Alpha Delta Pi.

# Something Local

By AARON MENT

The slogan "It's Time for a Change" started its life as a Republican campaign slogan, but it can be applied quite aptly at Uconn. The Black Triumvirate is one of the things that most needs a change.

Charged with the "upkeeping of traditions" the B.T. lacks the "drive" and the organization to fulfill its responsibilities.

There are three factors that have prevented the Triumvirate from succeeding. The "leaders" do not have the time nor the ambition. Secondly, there is no natural rivalry between the frosh and the B.T.; and thirdly, there are many in the student body and the administration who have refused to cooperate with the organization because of personality conflicts.

At many other colleges the sophomore-freshman rivalry is one of the most revered traditions, and each sophomore class is eager to prove its supremacy over the frosh. The freshmen are just as eager to show that the soph's are the inferior ones. There is no reason why a similar situation could not be created here at Connecticut.

One way to help this rivalry is to allow the sophomore class to handle the freshman "hazing" program. The president of the previous year's freshman class could be "high chancellor" and all sophomores could be B.T. members.

Admittedly the difficulties of such a change would be numerous, and the switch would require the help of many persons who have not cooperated in the past, but the advantages that would be gained would dwarf the problems.

**POLITICS:** Members of the ISO have been holding behind-the-scene talks trying to determine who will handle what in the coming campaign. It looks as if the rift that developed in the primary may continue into the campaign . . . It's amazing to watch the pick-up in the social life of the women political chairmen right before a primary . . . There can't be too much interest in campus politics. Only half of the ISO candidates were chosen at the recent primary.

**QUESTION OF THE WEEK:** What justification does the Senate have for voting itself funds for a banquet when it notifies other senate-sponsored organizations that banquets are out because of lack of funds? This reporter realizes that the Senators should be given recognition, but no more so than any other student organization.

**HERE AND THERE:** When naming the achievements of great University presidents one Uconn professor added Dr. Jorgenson to the list, commenting that Dr. Jorgenson had added "concrete" improvements . . .

The Booster club, which will swing into operation tonight, should provide a chance for the freshmen (and any one else who is interested) to show the school spirit they claim to have . . . The Senate is investigating the possibility of setting up a "ASG Press" that would print works by Uconn students in both the sciences and the humanities. It sounds good, but it will probably never get past the talking stage . . . Rumors are that the President is building a home on Spring Hill. Will it be built North Campus quadrangle style . . .?

**SOMEBODY GOOFED:** Last June when crowds of people were turned away from the graduation ceremony the talk was that this year it would be different because we would have a February graduation. This reporter may be wrong but it looks as if somebody missed the boat.

**HERE AND THERE:** Time for graduation is quickly approaching and no speaker has been announced yet. We were the Diamond Jubilee for three and one-half years and now nothing . . . Maybe it's too late for this year but in the future it would be better for all concerned if senior week were held immediately after finals instead of every one going home for a week or so and then coming back. A lot of the spirit and enthusiasm never comes back . . . Tonight's NCAC meeting may produce some surprises. It should at least be interesting.

**DEFINITION OF THE WEEK:** A committee is the unfit chosen by the unwilling to do the unnecessary.

## TEL and DEL

### Parties and Picnics

1141 Main Street - Willimantic, Connecticut

Phone 3-0920

## Telephone Directory Displays Auditorium On Its Front Cover

Uconn's new auditorium now decorates the cover of the most widely distributed book in this area, the Willimantic telephone directory. Harry T. Chalmers, local manager for The Southern New England Telephone Company, said the campus scene was chosen as one of a series of landmarks and historic sites being used for directory cover illustrations.

The illustration is from a pencil drawing by Norman Rines, Boston artist, who has done several such works for Connecticut telephone directories.

The previous Willimantic directory bore on its cover a similar sketch of the old Revolutionary "War Office" of Governor Trumbull in Lebanon. Other scenes recently used in this area have included Nathan Hale's birthplace at Coventry and the old "Indian School" at Lebanon.

The directory has a press run of about 45,345 copies. Of these, 24,000 were delivered in the Willimantic area a few days ago. Others go to telephone offices and information centers elsewhere in Connecticut and other states, and a supply is held in reserve for replacements and new telephone installations.

## Sophomore Council To Gather Feb. 8

The first meeting of the Sophomore Council will be held on February 8, according to Lester Boyle, Lambda Chi Alpha, President of the Sophomore Class.

"We hope to establish committees to start working on such sophomore functions as the spring concert and the Sophomore Follies, and we would also like to have students more interested in their class as a whole," Boyle stated.

Each living unit is to elect one alternate, who is interested in the council, to attend the meetings. Also, all other sophomores who would like to participate are invited to attend.

# Uconns Romp To 19th Straight Yankcon win over Maine 94-68

By BOB SOKEL, Assistant Sports Editor

Bouncing right back to winning ways, the University of Connecticut ran up a season's scoring high as well as its 19th consecutive Yankee Conference victory by easily defeating Maine 94-68 last night at the Field house.

Connecticut has not lost a Yankcon game since 1952-53 when the University of Rhode Island upset the Huskies 82-80 at Kingston. Uconn now boasts a 38-5 lifetime edge over Maine and the last loss to the Bears in 1944-45 by a 45-44 score.

Fran Quinn paced the Uconn attack with 20 points. Ten of which were scored within the last five minutes of the first half. Maine had closed the gap to 32-28 with five minutes, 23 seconds remaining in the half when Quinn came in to lead a drive that netted the Huskies a 46-32 halftime lead over the Bears. The remainder of the game was all Connecticut, as Maine got no closer than within eight points of the Husky advantage.

The Bears took an early lead which stood until 14:07 of the first half when Osborn's jump shot put the Blue and White ahead to stay. The Huskies ran up 12 straight points mid-way in the opening period to give them a 24-15 first period lead. Bushwell and Kaspar provided the scoring punch during this time and carried most of the load until Quinn made his entrance in the game.

## Kaspar Shines

Kaspar and Osborn sparked the second half attack that consisted

mainly of reserves. Kaspar scored consistently and Osborn controlled the boards for a good part of the time. Playing in top form Kaspar hammered in 19 points. Coach Hugh Greer emptied his bench in the late stages of the game and all performed creditably with Dick Kiernan the only Husky not breaking into the scoring column. Steve Narracci made his debut as a Husky and looked good in setting up Quinn for two easy hoops.

## Ruddy Out

Co-captain Ruddy was replaced in the starting lineup by Jim O'Connor because of an irregularity in registering for second semester courses. The Uconn high scorer will be eligible for tonight's Rutgers game and is expected to be back in the starting lineup.

Pete Kosty was high man for Maine with 22 points and did most of the Bear second half scoring with Bob Jones who proved deadly from the foul line in scoring 12

points, eight of which came on free throws. Mike Polese hit with monotonous regularity from outside in the first half when he scored ten of his 14 points.

Connecticut is now 12 and 6 on the season whereas Maine now stands 2-8. Uconn leads the Yankee conference with a 4-0 mark compared to Maine's 1-2 record.

## Pups Down Quonset, 95-40

BY MIKE TOBIN

Connecticut's once beaten Freshman basketball team resumed play last night after a three week lay-off by drubbing an under-manned Quonset naval base quintet, 95-40 at the Field house.

Playing with only seven men, the Sailors played the entire game without four of their first five due to transportation difficulties enroute.

The Pups built up a comfortable 8-0 lead at the start and were never headed, leaving the floor at halftime with a 55-17 spread.

Led by Wayne Davis who tallied 17 points, the charges of coach Nick Rodis now own a respectable 7-1 season record and will enter-

tain the Dean Junior college five tonight in the prelims to the Uconn-Rutgers game and will travel to Worcester tomorrow to meet the Holy Cross yearlings for the second time this year.

## VIVE LE POPCORN!

The other day as I was walking down the street picking up tinfoil (Philip Morris, incidentally, has the best tinfoil, which is not surprising when you consider that they have the best cigarettes, which is not surprising when you consider that they buy the best tobaccos and the best paper and put them together with skill and loving care and rush them to your tobacco counter, fresh and firm and loaded with gentle smoking pleasure to lull the palate and beguile the senses and shoo the blues) the other day, I say, as I was walking down the street picking up tinfoil (I have, incidentally, the second largest ball of tinfoil in our family. My brother Eleanor's is bigger—more than four miles in diameter—but, of course, he is taller than I.) the other day, as I was saying, while walking down the street picking up tinfoil, I passed a campus and right beside it, a movie theatre which specialized in showing foreign films. "Hmmm," I said to myself, "I wonder how come so many theatres which specialize in showing foreign films are located near campuses?"

And the answer came right back to me: "Because foreign films are full of culture, art, and esoterica, and where is culture more rife, art more rampant, and esoterica more endemic than on a campus? Nowhere, that's where!"

I hope that all of you have been taking advantage of the foreign film theatre near your campus. Here you will find no simple-minded Hollywood products—full of treacly sentiment and machine-made bravura. Here you will find life itself—life in all its grimness, its poverty, its naked, raw passion!

Have you, for instance, seen the recent French import, *Le Jardin de Ma Tante* ("The Kneecap"), a savage and uncompromising story of a man named Claude Parfum, whose consuming ambition is to get a job as a meter reader with the Paris water department? But he is unable, alas, to afford the flashlight one needs for this position. His wife, Bon-Bon, sells her hair to a wigmaker and buys him a flashlight. Then, alas, Claude discovers that one also requires a leatherette bow tie. This time his two young daughters, Caramel and Nougat, sell their hair to the wigmaker. So Claude has his leatherette bow-tie, but now, alas, his flashlight battery is burned out and the whole family, alas, is bald.

Or have you seen the latest Italian masterpiece, *La Donna E Mobile* ("I Ache All Over"), a heart shattering tale of a boy and his dog? Malvolio, a Venetian lad of nine, loves his little dog with every fibre of his being. He has one great dream: to enter the dog in the annual dog show at the Doge's palace. But that, alas, requires an entrance fee, and Malvolio, alas, is penniless. However, he saves and scrimps and steals and finally gets enough together to enter the dog in the show. The dog, alas, comes in twenty-third. Malvolio sells him to a vivisectionist.

Or have you seen the new Japanese triumph, *Kibutzi-San* ("The Radish"), a pulse-stirring historical romance about Yamoto, a poor farmer, and his daughter Ethel who are accosted by a warlord on their way to market one morning? The warlord cuts Yamoto in half with his samurai sword and runs off with Ethel. When Yamoto recovers, he seeks out Ethel's fiancé, Chutzpah, and together they find the warlord and kill him. But, alas, the warlord was also a sorcerer and he has whimsically turned Ethel into a whooping crane. But loyal Chutzpah takes her home where he feeds her fish heads for twenty years and keeps hoping she'll turn back into a woman. She never does. Alas.

©Max Shulman, 1956

The makers of Philip Morris, who bring you this column, hope that if there's smoking in the balcony of your campus theatre, it will be today's new, gentle Philip Morris you'll be smoking.

## A Campus-to-Career Case History

## "I take a job from scratch"

The Air Force introduced Forrest I. Hurst to communications. In 1953 he was Communications Officer at Lowry Air Force Base near Denver, Colorado. He was partially responsible for the communications setup of the President's "Summer White House," and in this assignment he met members of the local Bell telephone company.

"The telephone people I met," says Forrest, "were always helpful. I considered them the experts. They gave a very good impression of the Bell System. So three months before I was discharged I wrote to Indiana Bell for an interview, and subsequently I was hired as a Student Engineer."

Today Forrest is in Indiana Bell's Engineering Department, working with

carrier facilities—the means by which a number of telephone calls can be sent simultaneously over one circuit.

Forrest is given the basic circuit and equipment requirements for a job. "My boss farms it out to me," Forrest says, "and I take it from scratch." Forrest does the complete engineering job. He writes the specifications, including wiring plans and the list of equipment for the job. Then the installers take over.

"I really feel that I'm contributing to the telephone business," Forrest says. "My wife does too. When we're in the car we get a kick out of driving by a job that I engineered. Nothing can compare with a career in a business that's growing as fast as the Bell System. It's the place to move ahead."

Forrest graduated in 1952 from Purdue University with an E.E. degree. His career is typical of those which exist in other Bell Telephone Companies, and in Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer has more information about Bell System companies.

### Student Newspapers Blast Tatum, Big-Time Football

by Wells A. Twombly, SPORTS EDITOR

For more than three decades College athletic directors have been more or less going on the assumption that students were strongly in favour of big time athletic programs. That thesis faded last month when the University of Maryland's "super-coach" Jim Tatum left College Park, Md. for his old alma mater at Chapel Hill, N.C. The student newspapers of both institutions roasted both Tatum and big-time college sports unmercifully on their editorial pages.

The Maryland Diamondback sent Big Jim (winner of 71, loser of 13 in nine seasons) packing with the following epitaph, "we do not feel that his leaving means the end of the University of Maryland. It may give us a pause in athletics which will give us time to develop more of the academic fundamentals for which the university exists." The former Terrapin mentor, who made five bowl trips in his stay at College Park, helped lure such stars as Jack Scarbath, Bernie Feloney, Bob Morgan, Ron Waller, Dick Modzelewski, Ed Modzelewski, Dick Bielski, Russ Dennis, Bob Pellagrini and Ed Vereb into Terrapin livery.

The Maryland paper dismissed the Tatum dynasty with this, "It was an era in which our accreditation was partially threatened because of an over emphasis on athletic scholarships."

### No Cuckoo-Land...

North Carolina's Daily Tar Heel gave Tatum a sulphuric welcome to the school where he started as a tackle in the thirties. In an editorial headlined, "From University to Cuckoo-Land?" the students called Tatum "a parasitic monster."

"Amateur football has suffered acute asthma at this school," the Tar Heel stated. "With the arrival of Jim Tatum, as head football coach, it will draw its last painful gasps and suffocate."

"Let's not believe that Jim Tatum will play the game any more for the old college try here any more than he did at Maryland," the paper cautioned. "He will play to win and to win alone. That he will do so will not be his fault. The 'must win' has already become firmly established for college athletics—rapidly becoming a vaster business than avowedly professional football."

The editorial cuts "Tatumism" with a blasting summary: "The Daily Tar Heel believes as strongly in winning sports as anyone else. But we do not believe in subsidies for athletic prowess alone. We do not believe a football coach should receive more money than the president of the university. And we would sooner see intercollegiate sports stopped than the University turned into an athletic Cuckoo-Land."

Amen, brother, on a couple of those points!

Campus Photo.

**LITTLE MAN; BIG HOOK:** Diminutive Bob Osborn, 5'11" Uconn forward, throws a big hook shot against Niagara last Saturday night. The Huskies bowed 84-81, in a tough battle with the Purple Eagles.

Ron Bushwell was the game's highest scorer with 23 points. The Huskies now stand 12-6 on the season's action. Others in the picture are Niagara's Jim Maloney (15) and Connecticut's Bob Dube (10).

## Stieglitz Takes Fourth, Sixth, In Two Runs

BY MARK HAWTHORNE

Lew Stieglitz, Uconn track and cross country star, ran against the country's top two-milers in two indoor track meets during the between-semester vacation. He took fourth in the Massachusetts Knights of Columbus meet in Boston on Jan. 18, and snagged sixth in the Boston A.A. tilt two weeks later.

In the Leo Larivee, K of C race on the 14th, Stieglitz finished behind Horace Ashenfelter, Olympic ace running for the N.Y.A.C.; George King, N.Y.U. and; Bob Sbara of Manhattan. Stieglitz time was 9:22.3 over the eleven lap wooden track at Boston Garden. Ashenfelter's winning time was 9:03.

### Sixth in Boston A.A.

Stieglitz sixth place time in the Boston A.A. meet two weeks later was 9:23, even though he had run a two minute half-mile gust a couple of hours earlier. The winner of this race was Horace Ashenfelter, this time with a 9:01 clocking. Browning Ross was second, Alex Breckenridge third, and John Kopil of Villanova was fourth.

The University of Connecticut two-mile relay team, which also ran in the two Boston meets, placed third and fourth. In the K of C contest, competing with the other Yankee Conference squads, the Huskies were third. They trailed Massachusetts and New Hampshire across the chalk. In the Boston A.A. they were fourth, behind Umass, Northeastern and MIT.

Track coach Lloyd Duff urges all track candidates to come for practice, as the first regular dual meet is on the 18th, with the University of Maine.

BY BOB SOKEL

Only a last minute win over Colgate saved the University of Connecticut from a slate of losses between semesters. The schedule was climaxed by Saturday's thriller against powerful Niagara.

The tour of New York state began at Syracuse where Connecticut was handed its worst defeat in three years, 102-82. The Huskies were never close after the first period as the Orangemen pulled ahead to

## Kaspar Shines In Victory Over Eagles At Home, 88-57

BY DICK WEINER

Once again, the number "25" stood out on the Uconn basketball court as sophomore center Paul Kaspar, the current possessor of the two digits which formerly identified one Mr. Arthur Quimby, turned in by far the greatest performance of his collegiate career to date and led the Huskies to an easy 88-57 romp over Boston college at the Field House on Jan. 14.

In addition to gathering an individual high for the season thus far of 23 points Kaspar, who has shown continuous improvement in every game this season, put on a performance under both boards that was greatly reminiscent of Quimby, and collected a total of 32 rebounds, just 8 short of the record set by Quimby in last season's tilt with Boston university. This despite the fact that Kaspar was on the bench during more than seven minutes of the game, or the equivalent of almost a full quarter of play.

Other stand-outs in the game were Co-captain Gordon Ruddy, who scored 18 points on a variety of shots including two sweeping, crowd-pleasing hooks; Co-captain Ronny Bushwell, who again played an excellent floor game and hit for 12 points, mostly on jump shots from the foul line; and Bobby Osborn, who demonstrated again the sparkling floor play which had earned him a return spot in the starting line-up for the game. Ozzie, who had not started since the encounter with Yale, replaced Donny Burns, who had not been quite himself since the New England tournament.

The win, coming as expected, gave the Uconn a record at the half-way point in the season of 9-3, and ended their short streak of three consecutive losses at home. For BC, it was the fourth consecutive loss and gave them a record of four wins and nine losses. The score, incidentally, marked the third time this season that Connecticut had wound up with 88 points, the other occasions being against New Hampshire in their first encounter and against Rhode Island in overtime the previous week. BC's 57 points was the lowest score made against Uconn thus far, the previous low being New Hampshire's 63 in the first meeting of the two clubs. A crowd of 3,781 braved the falling sleet and icy roads to witness the game.

an unsurmountable lead. They hit on almost 50 percent of their shots. Gordon Ruddy was the only Husky to hit with any consistency and he led the Greenmen with 20 points.

Connecticut rebounded against Colgate at Hamilton the following night 82-80 when Ron Bushwell scored two crucial foul shots to stem a last ditch Colgate surge. Newcomer Bob Cherapy was high man for the Huskies with 21 points and was equally effective under the boards with 18 rebounds. Scoring 18 points, of which 16 came in the second half, Fran Quinn was at his best in topping his previous individual high for a single game.

Reserve Jim O'Connor turned in another fine performance in scoring 10 points in the highly productive second half when Uconn hit on 53 percent of its shots. Showing no ill effects from his sprained ankle, Ron Bushwell looked impressive scoring 16 points.

### Fordham Romps

A disastrous first period against Fordham at New York City last Thursday proved too much for the Huskies to overcome as the Blue and White lost to the Rams 82-72. The Rams pulled away to a 22-4 first period lead and increased that to 35-14 after Connecticut resorted to pressing tactics in a fruitless attempt to stop the hot New Yorkers. The deadly outside shooting of Gordon Ruddy helped keep the score down in the first half and Bob Osborn sparked the Uconn second half rally that narrowed the Husky deficit to 9 points. The game was actually lost under the boards where the Rams out-rebounded the Huskies 62-32. Fordham's 50 percent shooting from the field offset the respectable Connecticut total of 39 percent.

### Eagles Squeak

"So close and yet so far" depicted the Husky's plight against Niagara Saturday when the Husky's could not quite catch up with the Purple Eagles. Although outscoring Niagara 31-26 from the field, Connecticut fell short on the foul line where Niagara was particularly effective in the first half. Sophomore Bob Sawyer highlighted this first half Niagara foul-shooting spree by hitting 8 for 8. Ron Bushwell continued his steady play in leading the Connecticut scorers with 23 points. Ruddy and Kaspar followed Bushwell in scoring with 15 and 14 points respectively.

Connecticut takes on Rutgers tonight at the Field House with game time set for 8:30 The preliminary game pits the, Uconn Frosh against Dean Junior College.

Dean fronts 6-11 Pete Corbett, who received national publicity as a school-boy ballplayer last year from Life magazine.

## U.S. Regular Army Will Grant Six Full Commissions

Commissions to six Uconn seniors have been given in the Regular Army upon successful completion of their undergraduate program of studies and their ROTC work, it was announced today.

The students were all named Distinguished Military students last fall. This award is given only to students who show outstanding performance in leadership, drill and scholastic work in the ROTC program. Included in the six selected for Regular Army commissions are: John Gullen, Quad 2; Ronald Lundberg, Tau Kappa Epsilon; Maurice Dougherty, Middlesex hall; Robert Sinagra, a commuter; Nathan Broder, Beta Sigma Gamma; and John Swann, Sigma Chi Alpha.

Gullen is majoring in industrial administration and has the rank of Cadet Lieutenant Colonel in the Army ROTC. He is active in the Husky band, the Concert band, the University chorus and as a student counselor.

Lundberg, a student in the field of business administration, is a Cadet Colonel and is serving also as commanding officer of the Per-

## Royal Judging Set

A coffee for judging the royalty to reign at the University of Connecticut Winter Weekend will be held Wednesday evening at 7 in the HUB Reception Lounge. Four finalists for both the king and queen will be picked at this time.

shing Rifles.

Dougherty, a mathematics major, is a Cadet Captain and is active in the Newman club. He is also co-captain of the Fencing team.

## Yale-Reid Hall Program Is Again Being Offered

Applications are now being received from prospective students for the Yale-Reid Hall summer session in Paris, assistant professor James F.M. Stephens Jr. of Yale University announced today.

The four-week session begins on July 1 and will end August 2. It is open to qualified men and women college students who have had two years of college French or the equivalent.

This co-ed group, established six years ago, offers courses in French, contemporary French literature, French art, and French politics, taught at the Serbonne and the Louvre. College credits are granted for work completed.

For further information and application blanks, students have been asked to apply before March 1, 1956, to Professor Stephens, 320 William L. Harkness Hall, Yale University, New Haven.

## Pivnick

[from page one]

interest of the party to offer his resignation.

He added that he does not expect any difficulties at tonight's ISO meeting because "I think that they think that they have accomplished something. And besides, I don't think they would cause a split in the party immediately prior to a crucial election."

ISO presidential nominee George Coates said that he does not know if the current split will affect the elections, but he added, "I feel that the ISO is entering a new and better era." He concluded by saying that tonight's meeting will probably bring a reconciliation in the best interest of the party.

Cronin, who was originator of the motion and one of the members most opposed to the present ISO executive committee, said that he feels that there is a definite split in the party, and that the Old Guard will have to give up some of its power, if there is to be a reconciliation.

He concluded by stating that if there is no reconsideration of the amended motion that he will consider a reconciliation in effect.

## Activities

### Fencing Club

The Fencing Club will hold coed instruction and fencing in HUB 103 at 7 Thursday night. All persons interested in learning to fence are invited to attend.

### Ukrainian Circle

The circle will meet this Thursday evening at 8 in HUB 214 to plan its program for the spring semester. All those who are interested in the group's cultural and social activities are invited to join the club.

### Sigma Xi

Sigma Xi will meet in Beach 311 at 8 to discuss plans for the coming semester.

### Physical Therapy Club

A meeting for all physical therapists will be Thursday at the Student Union at 7 p.m. The speaker for the evening will be James M. Bauer of the Connecticut Chapter of the American Physical Therapy Association.

## Alpha Sigma

[from page one]

changed by the Fraternity and its newest member just before the holiday recess. Sam and Barbara received engraved Alpha Sigma Phi beer mugs, and their gift to the house consisted of three record albums.

The pledge pin and fraternity pin are framed behind the counter where the beer mugs are also on display along with pictures of the presentation of the mugs. When asked how it felt to be an honorary man Sam's reply was, "It is a great feeling to know that so many fellows think enough of me to make me part of their fraternity."
