

List of Approved
War Relief Organizations

Issued By
**The Connecticut State Council
of Defense**

From Reports Furnished By
**THE CHARITY ORGANIZATION SOCIETY
OF THE CITY OF NEW YORK**
105 East Twenty-second Street
New York City

The following lists are based upon investigations covering more than two hundred organizations of more than local scope which are giving some form of aid or relief in response to needs created by the war and are soliciting funds from the public for that purpose. Only those organizations are included which investigation has shown to be legitimate and under responsible management. The submitting of a satisfactory financial statement has been requested as essential evidence of such management.

It is so difficult as to be nearly impossible to secure reliable information as to the actual work accomplished in foreign countries. For that reason these investigations have covered chiefly the American activities of the work.

Supplements to this Bulletin will be issued from time to time.
