Democratic Town, 2d Dist., City Council Chamber.

Disquiet Elsewhere, also.

Hon. James H. Olmstead, that old war horse of honest Democracy in western Connecticut, fires this broadside at his party friends in Stamford, and sounds the same notes of warning that our best citizens of both parties here in Norwalk have been uttering and considering with apprehensive alarm. He says:

"The writer has obtained the expen diture for the out-door poor for the last year. They are \$16,682.21, being, instead of less than the year before, \$1,278.53 in excess. And the expenditure for this last year for highways and bridges is \$29,820.21, which is also in excess of last year by the sum of

\$1,417.29.

"The tax-payers are having more burther than backs that dens placed upon their backs than many of them will be able to carry, and things are becoming more and more oppressive every day. It is an old adage that "it is the last straw that breaks the camel's back." Well, is

breaks the camel's back." Well, is not the camel's back nearly broken?
"To the members of the Democratic party, to which I belong, I wish to state that the only hope of the party is in taking a decided stand at the coming caucus in favor of reformation in our town affairs."

For Water Commissioner.

A friend and patron of the DAILY GAZETTE urges a presentation of the name of the Hon. John D. Kimmey for Water Commissioner. He is certainly a man possessing many admirable qualities for the position. So long as the Borough continues its present system of allowing no compensation for this service, it is mean he says, to invite men like Messrs Beers and Merritt to make the necessary sacrifice of their time, which to them must needs be money, while Mr. Kimmey can afford to give the duties attention, and his well known generous and enterprising interest in our public affairs, would no doubt induce him to render our borough the service that it so distressingly needs.

Miss Laura Frazier, who has been a faithful typo in the Sentinel office for the past eight years, leaves us on Friday to take a case in the Norwalk Conn., DAILY GAZETTE office. She is a very competent type-setter, possessing the elements of being both rapid and clean. She has frequently set a column without a typographical error in it. While we regret to lose her, we hope her new place will be pleasant and profitable.—Ashtabula Co., Ohio, Sentinel.

Miss Frazier is duly installed at her "case" in the office of the "bright little DAILY GAZETTE" and already shows her ability to give the "gentleman compositor" points, both as regards rapidity and freedom from typographical errors. The GAZETTE now numbers four lady compositors on its force.

The Hospital.

There is to be a public meeting at the Armory Thursday evening, promotive of the new town hospital enterprise. Addresses are to be made by Revs. Dr. Noble, Father Slocum, Attorney Light, E. J. Hill and others. Music by Dwyer's City Band and singing by a quartette. The public are urged to be present.

Borough Caucus.

In another column will be found the call for the Republican Borough Caucus, which is to be held in the Town House this evening at 8 o'clock. Every Republican voter residing in the Borough should attend this caucus and see that the very best candidates are nominated for Borough officials.

Miss Spinster.

After her long summer vacation. Miss Spinster again returns to town and to her bright and highly appreciated contributions to the 'bright little DAILY GAZETTE."

Gen. That if the weather bureau were not officially responsible for the statement that this has been one of the coolest Septembers on record, we should feel lisposed to challenge its accuracy.

That again we have experienced the sultriness of a tropical September. The high temperature and humid atmosphere of the past few days have been hard on the babies. These are days when the little ones should receive the best ere. est care. Close attention to their diet and an outing in the fresh air are es-sential to their welfare at this season of the year. This is where charity can best accomplish its blessed mission now.

Proposed Citizens Ticket.

EDITOR DAILY GAZETTE: You have given a proposed Borough ticket formulated at a quiet little seance of both the Republican and Democratic politicians, and of course in both cases, strictly partisan. Grace Church.

"And he shall give his angels charge concerning thee, to keep thee in all thy ways." From these words of Holy Writ the Rev. Mr. Watkins builded the theme of his discourse yesterday morning, giving in glowing detail, the work of those messengers of the Father of all to the children of men,-showing how. from age to age, these winged attendants of the Almighty had perfermed the work He had given them to do; and aiming to dispel from the minds of men and women the delusive idea, so often entertained, that even the good of this terrestrial abode ever become any part of that celestial throng, i. e.—that angels sang songs of joy on creation's morn, and their number is neither added to nor taken from—that they are the same "yesterday, to-day and forever." It was an earnest exhibition of the solicitious feeling of this devoted servant of Christ.

The Rev. Mr. Watkins leaves town to-day for a brief and well-earned vacation, and during his absence, Dr. Clark, a professor in the Middletown Theological Seminary, will fill his place on Sundays; and should any of the congregation need spiritual comfort and consolation during the absence of the Rector, they are earnestly requested to call upon the Rev. Mr. Hallock, the Rector of Trinity church, South Norwalk, who

will be as ready to give as they to ask. Mr. Watkins announced yesterday morning that the offertory on the anniversary occasion, towards the contemplated Parish Rooms, amounted to \$301.

Pinafore.

To-night the Aborn Opera Company give us good old Pinafore, the first and best of all the Gilbert-Sullivan operettas. This is given in compliance with the requests made by many of our citizens, and the sale of tickets already ensures a good house for the accommodating singers. In it Aborn and Wooley will be immense, as they were in Erminie and the other operas, while Josephine and little Buttercup will be as delightful and delighting as they have been throughout. The pianist playing the opera is a whole orchestra himself, while the gentleman playing between the acts is simply phenomenal.

The Progress of Four Tracking. During the past week the cutting down the grade in the rock cut in East Norwalk of the road bed of the old double track has been completed, and some progress made in building the long retaining wall. When this wall is completed the new tracks can be laid, thus completing the four tracks be-tween East Norwalk and a point a short distance west of the Greens Farms de-pot. From this point to the Bridge-port city line much work remains to be done, and it must be several months

before it is completed.

The reducing of the grade in East
Norwalk rock cut, and the raising of it
both east and west, will enable passenfreight trains to draw much heavier loads than heretofore.

Erminie.

This light, but very bright little opera was given Saturday afternoon and evening at the Opera House, by the Aborn troupe. The matinee was the children's red-letter day and the little tots were just wild in their enthusiastic demonstrations of delight and happiness. Milton Aborn and Frank Wooley were a pover feiling source of joy and amuse-Milton Aborn and Frank Wooley were a never failing source of joy and amusement to the little people, who filled the house, as they were and are, to all "the children of a larger growth." The "By Baby By" was finely rendered and a joy to all who heard it. A full house greeted the troupe Saturday and we are sure another awaits them to-night on their rendition of Pinefore their rendition of Pinafore.

No "Trusts" in Meat-—If you want to know why the "People's Market" was crowded all Saturday evening, while all the "Combine" meat markets were comparatively empty, the explanation is found in the fact that I sall good most at a small proof. explanation is found in the fact that I sell good meat at a small profit, and am able to do so because I do not believe in "trusts" and "combines" and "Butchers' Associations" to keep up prices, in matters of the people's food.

A Runaway

This morning about 8 o'clock Frederick Alger, a carpenter, living on the New Canaan road, was driving down Mill Hill with a box of tools in the back part of his wagon and when opposite Hanlon's baking powder establishment the chest in some way or other fell out. The horse, which is a young and nervous animal, and a new purchase, was frightened by the noise of the falling tool chest and started on a run. The horse turned the corner in front of Hendee's music store and started in the direction of High street. When crossing the car track the wagon wheel became entangled in the track and the sudden lurch threw Mr. Alger out, over the side of the wagon, and he landed on his neck and shoulders on the stones. Several men ran to his assistance expecting to find him seriously injured but he picked himself up, and after brushing the mud and dirt off his cloth-ing, found he was not hurt. The horse continued up High street on a run and was stopped on France street.

Who Cares?

Rowell & Co., publishers of a new paper directory in New York, complain and growl because, as they claim, the newspaper publishers do not furnish exact figures of circulation. The news-paper publishers are not the fools Row-ell & Co. would have them be, and there is no more reason why the pub-lishers of newspapers should give away their own private affairs, than should Rowell & Co. give away the exact amount of their bank deposit. The advertisers for Rowell & Co. do not know for a certainty that the said company can pay their bills, and when the latter assume to say nineteen out of twenty newspaper publishers are liars, they as-sume a good deal. But who cares, any-how?—Gazette, Chelsea, Mass.

A New Plan.

Mr. Epitor:--As our Water Commissioners started at \$300 and now pay their clerk \$850, why not increase that amount to \$1000 and then let Mr. Camp be our sole water commissioner and superintendent, as he certainly must superintendent, as he certainly must know more about the whole business than any one else. He could keep the books and collect the same as now, and have time enough to ride up to the reservoir as often as our commissioners do, and he could also save another salary by looking after our sewers too. Let the caucus to-night fix this and save the \$700 paid a superintendent, \$550 for fence painting and the Lord only knows how much for "labor," "horse hire," "supplies" from our store etc., etc.

TAX-PAYER

The scheme above out-lined is certainly worth a trial, but as it can't be did "without a legislative amendment" to our charter and as we haven't any legislature and the scheme is "unconstitutional" as it were, we see no chance of working this reform just now, unless we act on the amiable Tim Campbell's theory when seeking to overcome Gov. Hill's constitutional objections retorted, "What the devil has the constitution to do among friends anyhow?"

Jumped Out of the Window. Last night, about 12 o'clock, Chief

Last night, about 12 o'clock, Chief Gormley was notified that a young man had jumped out of a window of a house on Center avenue, and was severely injured. He went immediately to the scene of the accident, and found that John McDonald, a young man of about 17 years, had jumped from the window of his room, while laboring under the delusion that burglars were in the house and were after him. McDonald, who is from Brooklyn, has been in town only three days, and is stopping town only three days, and is stopping with his sister, the clarivoyant, on Center avenue. He is of a very nervous disposition, and easily frightened. Last evening he thought he heard some one trying to get into his room, and after barricading the door, jumped from the window to the ground, a distance of about fifteen feet. He was found later, on Main street, by two friends scantily attired, and taken to their house where his ankle, which was sprained by the fall, was attended to by Dr. Huntington. Last evening, from some cause or other, the clarivoyant could not be made to understand what had occurred, and to understand what had occurred, and it was not until this morning, when Chief Gormley again went to the house, that she knew what her brother had done. The young man's mother, who lives in Brooklyn, was sent for.

tf 183 BETTS & FARRINGTON'S.

Something New. Druggist Hale has an invoice of curious and unique "comforters," for special use at our Opera House, so that thirsty gentlemen will not hereafter be forced to clamber over ladies and children in their hurried efforts to get out between the ages, and concerns the between the acts, and go across the street to see a man. Manager Adams says they are just the thing and will fill a long felt want. The contrivance consists of a near classical distribution. consists of a pear shaped, flatish sort of a glass bottle, holding about a quart, made to slip into a gent's inside coat pocket. To this is attached a small dexible tube reaching to the mouth, and on the end of it is a cute little black rubber mouth piece, through which the liquid refreshment may be quietly drawn and enjoyed, without atquiety drawn and enjoyed, without attracting the attention of even the fellow's best girl. This simple yet ingenious contrivance, not only saves shoe leather and an immense wear and tear of the nervous forces on the part of the thirsty man struggling to sit out a play without disturbing everyone in the seat with him, if not in the whole house, but physicians and veterinarian surgeons say it is the least injurious way that any needed tipple can be introduced into the male biped system.

A Deserved Compliment. An unexpected but well-deserved compliment was paid Manager Adams Saturday afternoon. He remarked in a jocose way, that the matter of making up a satisfactory Borough ticket, we be the property of the prope was bothering both parties so much, he believed he would run for Warden himself. An old gray-headed stranger passing at the time caught the remark, and stopped long enough to respond, "Well, young man, if you could work as many reforms in the Borough as you have at the Opera Borough as you have at the Opera House, let me tell you, your admisistration would be a success." Then the venerable stranger passed on, and Adams has no idea who he was.

DEATH SEEMED IMMINENT.

A Yawning Chasm One Hundred Fee Deep Disclosed to View When the Coal Began to Run - Climbed Hand Over Hand to Safety.

SHAMOKIN, Pa., Sept. 28.—For eight hours sixteen men were imprisoned in an old chamber in the Hickory Ridge coal mine, not knowing what second they would be crushed to death. They were Carson De Long, Zach Hann, Frank Walthoff, Daniel Oyster and a dozen Hungarians and Italians. When they entered the mine at 7 o'clock in the morning Inside Foreman William Reinhardt directed the men to rob pillars. This is considered the most dangerous of inside work. A pillar divides one breast or chamber from another, and after all the coal is taken from

the chamber the pillar is removed.

A chain pillar divides the levels. At the Ridge the men were working on the first level and 100 feet of rock and coal lay between it and the second lift, which had been well worked out.

A Peculiar Sensation.

An hour after the first pick had been sunk into the coal the miners experienced a tingling sensation in their feet. It was as though a bunch of needles had been thrust into the soles of their feet. They grew dizzy. The bottom of the gangway was cracking in hundreds of places, while through the fissures came blasts of air and dirt. A violent swaying then ensued, mingled with a sudden roar and crunching of coal. Then came a succession of reports like an artillery battery in action.

Sounding an Alarm.

"Boys," shrieked Hann, "the chain filler must be running, and if we don't get out of here it means death."

A rish was made for the closet chamber. Walthoff was in the rear and was lifted to the ledge in safety just as the bottom of the place they had left dropped and revealed a yawning chasm 100 feet deep and ninety feet wide. When the pillar began to disappear the men on the lower level to disappear the men on the lower level escaped.

Their Perilous Position.

The imprisoned men were surrounded on all sides by falling coal. They went up the chamber as far as possible and had a conference. They found that there was no possible way of exit other than by the way they had entered. But there was an impassable chasm between them and it.

Suddenly they heard voices.

"Are you alive?" cried Foreman Reinhardt, who with Tom Llewellyn and David Williams, had gained the entrance of the gangway as soon as the rush occurred. The rescuing party were overjoyed on learning that the men were safe.

The Rescue. How to get the miners across the abyss

was next in order. A rope was procured and for four hours Reinhardt and his men tried to cast an end across. Sometimes it would land on a treacherous ledge almost within reach, and then it would go whistlng down in darkness and dust.

Once it fell on a rock which seemed solid, Once it fell on a rock which seemed solid, but as Dan Oyster was about to seize it the rock and rope went down. The men then grew timid and glanced into each other's faces with fear. They were almost without oil, and had only what was in their cans. Was it to be a second Jeansville horror, and yet within shouting distance of rescuers?

At Last Hope Dawned.

These gloomy meditations were cut short by a whirling noise and the crack of a bolt. The prayed for rope had fallen at the fact

"Fasten your end of the rope to a timber," they heard a voice cry, "and we will do the same."

Once securely tied about a post, the me consulted as to who would make the at-tempt to cross the chasm hand over hand ous undertaking, but as the way led to ous undertaking, but as the way led to liberty it did not take long for Carson De Long to make up his mind to try it. Bid-ding his comrades goodby the intrepid fel-low flung himself into space and went hand over hand.

Landed Safely.

The rope cracked and swayed. Several times he thought he would fall, but with strained muscles and stout heart De Long went on and on and at last was safe. The others followed, and when the last had crossed they first wept like children and then cheered loud and long. When they were hoisted to the surface 2,000 persons cheered and danced with joy.

Supposed Suicide. WILMINGTON, Del., Sept. 28.—Barrett J. Munson, a married man about sixty-five years of age, was arrested on a charge of sending threatening matter through the mail to a woman and locked up in the United States court building for a hearing. A few hours later United States Marshal Mahaffy found the man dead on the floor of the cell. It is thought he took strychnine.

A Diamond Merchant Dead. NEW YORK, Sept. 28.—The man who was reported by cable to have died suddenly at Waterloo station, London, was D. Dessau, who was in the diamond importing business with his son S. Dessau at 4 and 6 John street. The dead man was returning from his usual business trip abroad.

Glass Blowers Resume Work.

and his business often calls him away

About midnight Wednesday Mrs. Holston was awakened by a poculiar noise inside a large sheet iron stove that stood at one side of the room. The strange

noises continued to come from the stove and at last, wild with fear, Mrs. Holston

sprang from the bed and ran screaming into the adjoining room, which was occu-

pied by her daughters.

Under the impression that their mother

was suffering from the effects of a night mare, the girls struck a light and after

they had succeeded in calming their mother, entered her sleeping room and

approached the stove, so as to satisfy their mother that she had been dreaming.

When they drew near the stove the noise

began again, and, thoroughly overcome with fear, the girls sank down upon the

floor, too weak to leave the room.

The racket in the stove continued and

the frightened girls began to scream. This

threw their mother into convulsions, from

which she has not yet, and probably never will, recover. A man in the building

heard the screams of the girls and reached

them by bursting in an outside door.

When he saw them he ran down the road a quarter of a mile and summened the

wife of a neighbor. The hired man opened the door of the stove and found inside a

EXTRA SESSION CALLED Mrs. Holston and Two Daughters in Con

Pennsylvania's Senate to Inquire Into Grave Charges.

TWO OFFICERS INVOLVED.

To Satisfy the Public Mind a Searching Investigation Is to Be Mad-Removals of Officials to Follow if the Suspicions Are Proved True.

HARRISBURG, Sept. 28.—Governor Patti son has issued a proclamation calling a extra session of the senate on Oct. 13:0 investigate the scandal arising out of the arrest of John Bardsley, under the section of the constitution providing for the removal of certain elective officers on the address of two-thirds of the senate. The governor gives the following reasons for his action:

Grave charges have been preferred involving the auditor general and state treasurer and most seriously reflecting upon the manner in which their official duties have been performed. It is proper that diligent inquiry should be made to ascertain whether or not reasonable cause does exist for their removal. There is in the public mind a profound conviction that the officials referred to and some of their subordinates have been grossly inefficient, shamefully negligent and entirely wanting in their fidelity.

Dishonesty Suspected. It is the prevailing opinion that some of the officials connected with these officers have been guilty of absolute faithlessness and downright dishonesty in violation of their oaths of office and of the original laws of the commonwealth. If any one of the charges made should be established, appropriate action looking to the removal of the officers involved should be taken by the senate as a duty to the people of the state, whose good name has been dishonored and whose money has been stolen, squandered or lost. John Bardsley, late treasurer of the city of Philadelphia, is now a convict for the embezzlement of public money, a large portion of which would have been in the state treasury long prior to the exposure of his actions had those charged with the administration of the duties of auditor general and state treasurer performed them with due fidelity.

Bardsley's stubborn refusal to disclose any information whatever as to the conduct of these officials has compelled the abandonment of proposed criminal prose cution, at least for a time.

Removals May Follow. A proper inquiry by the senate may develop evidence sufficient to satisfy its members that reasonable cause exists for the removal of the auditor general and state treasurer.

The governor proposes to have the attorney general at future meetings of the treasury investigating committee. Auditor General McCamant said that politics had much to do with the governor's course.

PORT CHESTER, N.Y., Sept. 28.—James P. Daly, a prominent grocer of this place, vas shot and killed in his store by John P. leason, a night watchman. Daly had heltered Mrs. Gleason, who had been irven from home by her huoband. About 1:80 o'clock Gleason entered the store of he Daly Brothers, James was alone and was standing behind his desk. Gleason, without saying a word, walked up to the punter, and drawing a revolver from his ip pocket, pointed it at Daly and fired. The bullet struck Daly over the right eye nd lodged in the brain. He fell to the foor and was unconscious when his rother Thomas, who had been attracted the shooting, ran in. He lived but y the shooting ifteen minutes.

The Murderer Was Arrested. As soon as Gleason fired the shot he put he pistol in his pocket and went out. Constable Parker, who keeps a livery stable a few doors from the store, heard the thot and saw Gleason running down Main treet. He pursued Gleason and overtook im about a block away. The fellow re-Parker's assistance Gleason was soon overowered and disarmed and taken back to he scene of the murder.

The Deceased's Good Intentions. For some time Gleason and his wife had not lived happily together. Six weeks ago the left his home. She was friendly with the Daly family and went to them. Daly and his wife allowed Mrs. Gleason to stay t their house. They believed there would be a reconciliation between her and her husband. Gleason's son sided with his lather. Gleason told Daly he was enouraging Mrs. Gleason to leave her home by harboring her. Daly replied that he lid not want to interfere, and hoped that he and his wife would become reconciled and again live together.

Probably Insane. Gleason is not a drinking man, though e has a violent temper. His wife believes he is of unsound mind. He brooded over his domestic troubles and visited the store of the Daly brothers every day to air his grievances against James for harboring his wife. Friday Daly told him that Mrs. Gleason was willing to go back to live with him if he would promise not to abuse

ner again. Gleason replied that there wouldn't be any more trouble, and left the store with the belief that his wife would return home that night. She did not do so. Daly went lown to Gleason's house Friday night, and was bitterly denounced by both Glea-ion and his son. Young Gleason raved ike a maniac and broke the furniture. Daly went back to the store and told his brother that Gleason and his son were so agly that he didn't think it advisable for Mrs. Gleason to return home that night. The body of the murdered man was re-

A man was around yesterday afternoon, making strong threats of having a certain saloon-keeper in this city arrested for selling intoxicants on Sunday. It seems that the soloon-keeper refused to sell him half a pint of liquor because he was too drunk. This morning the fellow claims that there was nothing in the threat. Possibly he may be arrested himself.
