The Republican Party and its Needs | morrow. Mr. John J. Ingalls says that he does

not know exactly whether the Republi- | Shoes. cen party needs a Turkish bath, an emetic, or a long rest. This was said in a recent interview in regard to the of his age. Republican League convention held in the city of Louisville.

There are, says the Washington Post, several things the Republican party needs, chief of which is a long rest from boss rule, machine-made conventions, barnacle leadership, and constant gong beating.

Gen. Clarkson in his speech opening the league convention at Louisville said a great many sensible things regarding the infusion of new blood into his party's organization and more liberality in the treatment of men and policies by the party of which he has long been a distinguished leader. But the reading of the names of the prominent men managing the convention surpass all previous ones in interest. over which Gen. Clarkson is presiding has that familiar "old oaken bucket, moss-covered bucket" sound that has been heard in the land, and especially in Republican conventions, for the past sixteen years.

If a Turkish bath, as suggested by Market. Mr. Ingalls, would open the pores of circulation would be better and its make a microbes? health would undoubtedly improve. Or, if an emetic would turn its stomach inside out and enable it to throw off its festering office-holders and some of its barnacle leaders, there would be

Mr. Ingalls' suggestions as to the needs of the Republican party may be wise. Gen. Clarkson's suggestions are both wise and patriotic.

The building boom in Bridgeport shows no signs of abating, and plans are being prepared by local architects for over 100 new buildings, a large pro-portion of which are to be handsome dwelling houses.

Found in the Pond. The body of a seven-months old infant was found in a paper bag in the woolen mill pond at Naugatuck Friday. Workmen drawing leaves away from a gate made the discovery. The infant was probably strangled before being thrown into the water.

Bridgeport Knights Win.
The decisive drill between Unity commandery, O. U. A. M., of New Haven, and Bridgeport division, U. R. K. P., for \$190, was held in Madison hall, Bridgeport, last night, in the presence of 2,000 persons. Bridgeport won, 76 to 44 points. It was the third drill, and each had previously won one.

An Added Charm

to any lady is the possession of a soft clear complexion. Few have it; all de-sire it. One of the first results of using Sawyer's Dandelion Compound is the disappearance of all pimples, blotches and moth patches and the sallow, livid face soon begins to wear the rosy hue of health.

No Union of Colored Methodists. At the third day's session of the New England conference of the A. M. E. Zion Church held Friday the committee on condition of the church urged in its report that the conference go on record as in favor of the union of the A. M. E. and the A. M. E. Zion churches. That part of the report, however, was stricken out.

Powerful New Locomotives,

The first of fifteen new compound occomotives being built for the New York, New Haven & Hartfoad road has been delivered. Four others are nearly finished. They are made at the Rhode Island works and are after designs by Master Mechanic Henney. They stand 13 feet 11 inches high, with 20 by 26 inch cylinders and 6 feet 6 inch drivers. The new engines can easily make sixty miles in an hour, the speed called for in the contract. Only hard coal will be burned and there will be no smoke or cinders, an especially desirable feature in summer travel.

. Scarcity of Shad.

Some good catches of shad are being made at Saybrook—a thing unworthy of mention ordinarily at this time of year, for the height of the shad season is usually between May 10 and 30. But hardly any shad have been seen yet and it is undoubtedly an off year, more so than usual. Authorities say the high water would little affect the catch, for the murky water would, if anything, send the fish more into the nets. If there were many shad about they would be caught in greater numbers in the pounds, according to some old fishermen.

At Last.

Last week, there being no successful answers to the missing word contest at H. H. William's crockery store on Wall street, the contest was continued this week, with the result that there were four correct answers out of a very large list of replies. The sentence read, "The numerous letters received in answer to H. H. William's puzzling advertisement is a—indication of its popularity. The missing word was "strong" and the answers were received in the following order: E. L. Smith, Mrs. M. A. Tolies, Percy Glendenning and Mrs. Laura Scofield. The prizes won are \$2 worth of goods; \$1.50 worth; \$1 worth; and 75c. worth.

After the Cadetship.

The examination for a cadetship at West Point, was held in the council chamber at city hall Bridgeport, Friday. The government allows one position to every congressional district, and examinations for the place are held every two years. The examining committee were: W. T. Hincks, Superintendant Bouton and Dr. Cowles. The applicant passing the best examination will, of course, be awarded the place if his physical condition is sound. The sec-ond best will be declared the alternate, to succeed the successful applicant in case of disability or death.

Miss Farrell was discharged from the asylum something over two years

the asylum something over two years ago as cured. She went to live with her sister and up to within about three months had acted in a rational manner. She then at times appeared daft and members of the family feared her on these occasions. But her sister kept a charge over on her. This morning her sharp eye on her. This morning her craziness assumed a more violent form, and she threatened to do those living in the house violent injury, and on their running into a room in the second story to escape her, she locked the door on them. A ladder was secured and Mrs. McNerney escaped through the window and sent for assistance.

The case is a particularly trying and sad one for Mrs. McNerney, she having within a short time lost both of her parents and her husband, and much sympathy is expressed for her.

One of Slattery's Jokes. Charles Jennings drove down from Cranberry Plains yesterday afternoon and left his horse standing on Main street. About 7 o'clock when Jennings got ready to start for home the horse was missing. After some inquiry he learned that a young man named Slat-tery had taken the horse and invited a number of little girls and boys to take number of little girls and boys to take a ride. As he was coming out of Cross street with his happy party, Jennings who was in search of him in company with William Abbott came up and stopped the team. "He yanked Slattery out of the wagon and gave him a swot alongside of the head," said a party to a GAZETIE reporter, "and then proceeded to rid the wagon of its load of youngsters." Slattery became angered at such treatment and hurled a gered at such treatment and hurled a stone at Jennings which narrowly escaped hitting him on the head. Slattery evidently took the turnout in a spirit of fun, but Jennings failed to see it in that light. The children enjoyed the ride apparently as much as Slattery did in affording them opportunity for such enjoyment.

#### SATULLI AND WIGGER.

The Bishop Feels Aggrieved Over What He Considers a Slight.

WASHINGTON, May 13.—The statements respecting the attitude of Bishop Wigger and some of the priests of his diocese toward the reception to be given next Monday night by Father Corrigan to Mgr. Satolli, the pope's legate to the United States, contained in New York papers, were read with interest at the Catholic university. According to these statements Bishop Wigger had declined to attend the reception and dinner for the reason that Father Corrigan's relations with himself prevented him from accepting the invita-tion to be present, and the priests who had expressed their intention to be present, and the priests who had expressed their intentions not to partake of Father Corrigan's hospitality were moved thereto because long established custom requires a Catholic dignitary, upon coming into a diocese, to pay his first visit to the bishop. That the legate was not to observe this custom, but to ignore it, was held by them, it is said, to be an insult to Bishop

Wigger. It was intimated that important and serious results would follow the visit of Mgr. Satolli, because of the antagonisms aroused, and that a powerful secret influence was at work against him. In regard to these assertions it was said at the university that Mgr. Satolli would make no statement for publication. It is under-stood, however, that the criticism upon Mgr. Satolli for the violation of the cus-tom regarding the precedence of visits is unfounded. There is good authority for the statement that he at first proposed to spend Sunday with Bishop Wigger, at Seton Hall, but that a subsequent misunderstanding necessitated a change.

## THE MINISTRY WINS.

The Long Deadlock in the Spanish Cortes Ended.

BIG REPUBLICAN DEMONSTRATION.

Thousands Cheer the Defeated Republican Deputies as They Leave the Parliament Building, and Soldiers Are Called Out to Disperse the Enthusiasts.

MADRID, May 13.—The cortes has adjourned after sixty hours continous sitting. Members and ministers were utterly exhausted. Last night the discussion concerned a motion to give the government free hand to settle the question of the municipal election. A counter motion of the Republicans against leaving the gov ernment free hand in the matter of the municipal elections were rejected by a vote of 126 to 21. The Republican deputies retired for a few minutes to the lobbies to confer, leaving but two men to watch the government. Almost immediately after their departure the men on watch summoned them back in all haste. It was too late, however. The original bill postpon-ing the election had already been rushed through the house by the ministers.

The Republican members at once withdrew from the building. As they appeared in a body in the street they were cheered repeatedly by the thickening crowd. news spread like magic, and before the deputies reached the Republican club thousands were marching behind them shouting, "Long live the republic." balconies near the Republican club were thronged with men and women, who answered the cheers of those below as the deputies passed.

Meantime 10,000 men and women had assembled some 200 yards from the parliamentary building and were cheering for the republic. The police ordered them to disperse. They refused to do so. The police charged and were repulsed.

Three companies of reinforcements were

summoned. All charged with drawn sabres, divided the mob and scattered the groups through side streets, When the cortes adjourned most of the people had been driven off, and the ministerialists were in no danger of being molested.

The Republican club is surrounded by thousands of cheering men and women. The Republican deputies are said to con template resigning in a body from the cortes. The government is taking all precautions to protect the public buildings.
The court yard of the home office is filled with mounted gendarmes. The offices have been similarly garrisoned, The government is taking steps to prevent the publication of Republican manifestos in this city. Orders have been sent to the authorities of all towns in the provinces to prevent the publication and circulation of Republican appeals to the people.

NICARAGUA'S REVOLUTION.

The Report That It Was Instigated by United States Capitalists.

New York 'ny 13.—Gerando Canton, the Nicarag n consul in this city, declared today thus he knew nothing whatever in regard to the charges made by the Nicaraguan minister at Washington that the Nicaraguan revolution had been principally instigated by residents who possess large capital and are financially interested in Nicaraguan affairs.

"Our minister is a responsible man," said Senor Canton, "and he would not make charges of that character without substantial foundation for them. For me. I know nothing at all about it, and would not feel at liberty if I did. I do know that the revolutionists are headed by very wealthy people, and that the provisional government is composed of the wealthiest

men in the country."
"Who are the persons referred to by Dr.

Guzman?" was asked.
"It is said that he means the Nicaraguan Canal company, of which Warner Miller is president, but, as I said before, I know nothing about it. Dr. Guzman promises to tell who he means in good time. He ought to know what he is talking about."

Archbishop Corrigan Defeated.

NEW YORK, May 13.—Archbishop Corrigan has been defeated by the general term of the supreme court in his claim to thirty lots in One Hundred and Fifty-sixth street, near Boston road. The land was deeded to Archbishop Hughes on Sept. 19, 1862, by Mrs. Mary McDonough Davy for a nominal consideration. The deed contained a condition that it was to be void unless the ground was consecrated and a church erected on it "within a reasonable time." This condition has never been fulfilled, and Mrs. Tupingter, a grandniece of Mrs. Davy, brought sait to recover the property.

World's Fair Directors Decide the Matter Finally.

DENOUNCING THEODORE THOMAS.

Commissioner Vigorously Declares That the Musical Director Is Corrupt, and Demands His Immediate Dismissal. Action in the Matter Postponed.

CHICAGO, May 13.—On and after May 21 the World's fair grounds will be open every Bunday. This decision was reached at a neeting of the directors of the exposition yesterday afternoon. President Higinbotham had called upon Edwin Walker, who is chairman of the committee on legislation, to submit an opinion whether or not the exposition can be opened on Sunday in spite of the restriction placed upon this feature by congress when the appropriation of \$2,500,000 was granted. Mr. Walker presented his official and legal in-terpretation before the directors, which is to the effect that the law passed by congress stipulating that the exposition should be closed on Sunday applies only to the buildings containing exhibits. Mr. Walker's construction of the act further says that the buildings erected for other uses, the grounds, the Midway Plaisance, with its varied human panorama and things pertaining thereto, may be thrown

open to public inspection.

-After considerable discussion a resolution was proposed to open the gates every Sunday on and after May 21, and to close the main buildings containing the exhibits. The resolution was carried by a vote of twenty-two to seven. Of the seven who voted nay six were in favor of opening the fair in every department, and the seventh was opposed to opening the gates under

FOR THE BENEFIT OF FOREIGNERS. ly conditions. Thus, upon the techni ality named, the Columbian fair will be to all intents and purposes open, leaving the public to visit throughout the grounds. to ride on the electric launches, to enjoy the novelties of the Venetian gondolas, to patronize any of the booths, varied attractions of the Plaisance and to have a good time generally The price of admis-

ion on Sunday will be reduced to twenty

ive cents. The report of the committee on music considering le uestion of the removal of Theodore Thomas from the position of musical director of the World's fair was musical director of the world's lair was taken up for consideration by the national commission yesterday. J. W. St. Clair, of West Virginia, commissioner, spoke against the adoption of the report. He said the committee had put itself on record as condemning a man without giving him a fair trial. He said if Mr. Thomas was removed it would result in the wrecking of the music department and the loss to the exposition of the greatest orchestra on

Mr. Lannon, of Utah, replied to General St. Clair. He asked the commission to act upon the report quickly and instruct the director general to remove Mr. Thomas. Mr. Lannon took no stock in the assertion that Mr. Thomas' dismissal would wreck

THE SOUVENIR PEDDLER. the music department. He thought an other good director and orchestra, should Mr. Thomas' follow him, could be secured at once. Mr. Glendinning, of Arkansas also spoke in favor of the adoption of the

report. Commissioner Ryan, of North Dakota, denounced the attempt to deprive the commission of the authority vested in it by congress and paid his respects to Theodore Thomas in the following language;
"That man is corrupt, and he has taken

this action through corrupt motives. I am in favor of wiping him out of this exposition, and the national commission has the power to do it. If the commission refuses to assert its authority in this music matter it countenances bribery and cor-

ruption.

A motion to lay the report temporarily on the table was voted down, but Chairman Lannan, fearing the defeat of his report, rose to ask that it lie on the table until there was an assurance of a quorum. His motion was unanimously concurred in. The sentiment of the commission seemed to be in favor of deferring judgment against Mr. Thomas until articles of peace could be drawn up by the council of administration.

When Theodore Thomas, baton in hand, emerged from one of the doors leading to the stage of Music hall, at the exposition, the eight hundred people in the parquette of the hall surprised the conductor with a prolonged outburst of applause. The demonstration no doubt had some connection with the adverse finding of the tion with the adverse finding of the national commission's special committee, which has been investigating the charges

brought against Mr. Thomas by certain musical firms. The applause was in the nature of an expression of confidence by his friends.

the proposed Sunday opening with delight, for it means shekels to him.

The average American who visits the fair objects very strongly to the placards placed on the fire extinguishers announcing that "this is not drinking water." It is explained that these placards are "for the benefit of foreigners." It is assumed, evidently, that all foreigners who can afford to visit the fair can read the English language. It might be fair to assume, elso, that they can distinguish a fire ex-

tinguisher from a pump.

The paid admissions to the fair yesterday numbered 15,829.

NEW YORK, May 13.—The presidents of the trunk lines held a meeting to consider the fareto be charged on the twenty hour train between New York and Chicago which will begin running over the New Which will begin running over the New York Central and the Lake Shore roads, May 28. The Pennsylvania raliroad objected to the running of the train, but insisted if it was to be run that \$30 should be charged for the trip on it with \$5 extra for sleeping and parlor car privileges. The New York Central desired to make the fare \$25. As an agreement could not be reached, it was voted to leave the question to arbitration.

Presbyterian Revision. NEW YORK, May 13.—This morn'n 7's Times says: "It is very probable that the matter of the revision of the creed of the Presbyterian church may come up before Washington next week, in a way unex pected by many eminent ministers of the denomination. Out of a total of 225 Presbyteries, scarcely 125 seem likely to be found favoring the first attempt of the Presbyterian church to revise her creed, which is thirty less than the constitu-tional two-thirds necessary to secure a

### MANY BANK FAILURES

Panic Stricken Bankers in Indiana Country Towns.

DRAGGED DOWN BY THE COLUMBIA.

The Panic Spreads to Michigan and Ohio Banks, and Several Suspensions Are Added to the List in These States-Pe culiar Methods of the Columbia Bank

CHICAGO, May 13.—The failure of the Columbia National bank has disclosed a System of shystering without a parallel in American banking. The president and manager of the Columbia is shown to have organized about fifty small concerns of incinificant points. at insignificant points in Indiana and Ohio, all of which were correspondents of the broken bank, and it is scarcely likely that any of them will survive. But as the that any of them will survive. But as the banks were at places where there was little business the moral effect is likely to be more serious than the actual losses. The Columbia had very little business in Chicago, and such as it had was chiefly with customers who, like the bank, were without commercial standing. Hence the failure was not felt in reputable business circles, and had it occurred at any other time it would have been forgotten in half an hour. an hour.

PORTLAND, Ind., May 13.—A courier from Dunkirk announces the failure of the Dunkirk bank, which is owned and controlled by Dwiggins, Starbuck & Co., of Chicago. Attachments were at once filed and a deputy sheriff left immediately to levy on all the available property. The bank has failed for at least \$75,000, and the amount may reach \$100,000. The firm controlling this bank owns a number of others, and these are reported to have gone to the wall. The Geneva bank of their enterprise also has failed.

INDIANAPOLIS, Ind., May 13.—State Auditor Henderson was notified that the Commercial State bank, of Russiaville, could not meet its demands. The Commercial bank is one of about twenty banks in Indiana that are thought to be connected with the Columbia National. Perhaps as many private banks are also related to the Chicago concern to some extent. Reports from other small places in the state show that a panic has seized the smaller banks. The bank at Brookston, White county, suspended yesterday afternoon. No statement of its condition has been made. It was controlled by the Columbia National. The banks of the Columbia National string at Moreystown and Greenwood are said to have also failed, the latter with liabilities amounting to \$60,000. The Moreystown bank is of considerable importance, having a capital of \$75,000.

In addition to the above the following suspensions are reported: Citizens' bank, Hebron, Ind.; Bank of Spiceland, Spiceland, Ind.; Monroeville bank, Monroeville. Ind.; Commercial bank, Norristown, Ind., and Citizens' bank, Knox, Ind. All these were branches of the Columbia National of

CINCINNATI, O., May 13.—The private banking firm of Dwiggins, Starbuck & Ce., at Williamsburgh, O., has failed. The failure is due to the failure of the Columbia bank, of Chicago, of which Mr. Dwiggins was cashier. About \$8,000 is due the Williamsburg bank from the Columbia, all of which, it is thought, will be left. The perturbate at Williams. be lost. How the Effects of Excitement. Overwork and Disease are Counteracted.

Merchant W. F. Johnson, Warner Walradt, and C. L. Seaver's Experiences

This is the time of year when men and women become chilled and weak-ened by the weather and run down generally. Few people understand why this is so. Let us tell you: It is the kidneys, liver and urinary organs that first feel the effect of the weather: when the kidneys are weakened or take cold then look out for a spell of sickness. There is no need, however, of having this spell of sickness if one would take Dr. Kennedy's Favorite Remedy, for it would at once restore these organs to health and strength.

Remedy, for it would at once restore these organs to health and strength.

There has been so much written in the papers of late about Dr. David Kennedy's Favorite Remedy that we determined to get the best information we could as to its merits, and found that we were in almost total ignorance of the good this medicine has been doing in our very midst.

There is no better known man in Warsaw to-day than Mr. C. L. Seaver, who came here from Birmingham, Conn. Mr. Seaver is a great friend of Favorite Remedy, and well he might be, for according to his own statement, it saved his life. "I was confined to my bed for three months with Bright's disease," said Mr. Seaver. "My attending physician told me I could not recover; some friends who had used Dr. Kennedy's Favorite Remedy advised me to use it. My physician was only too glad to have me tryit, although he had not up to that time prescribed it. Just look at me to-day. You need not ask what was the result; the facts were, I mended quickly, and after using but a few bottles, I was about again, strong and well. Some time after that I had an attack of rheumatism near my heart; it threatened serious results, but a bottle or two of Favorite Remedy drove it out of my blood, and I've but a bottle or two of Favorite Remedy drove it out of my blood, and I've not been troubled since. I suppose I've caused over three hundred people to use Dr. Kennedy's Favorite Remedy, and I have yet to find a person it has not helped."

Mr. W. F. Johnson, of Gainsville,

one of the best known merchants in this county, in speaking of Dr. Ken-nedy's Favorite Remedy, said: "It's the best medicine I ever sold, and I have so far sold over fitty dozen. I have guaranteed it to hundreds of peohave guaranteed it to hundreds of people and have never had a bottle returned or a fault found with it. You see, Dr. Kennedy's Favorite Remedy is not a patent medicine, it's the prescription of one of the foremost physicians and surgeons of New York state, who used it in his practice for years before it was given to the public. Why just look at our friend Warner Walradt. He was very sick, all run down; most of us thought he was going to die; one of our physicians attended him but he seemed to make no progress for the better; finally I got him to try Dr. Kennedy's Favorite Remedy and before he had finished the first bottle it had done him more good than the doctors he had paid fifty dollars to. Today he is as well as ever he was, and is never without a bottle of Favorite never without a bottle of Favorite

Remedy in the house."

In speaking to one of our physicians about Dr. Kenned'ys Favorite Remedy he said: "In Favorite Remedy Dr Kennedy has discovered the secret for dissolving the excess of uric acid in the dissolving the excess of uric acid in the blood, which is the cause of rheumatism, dyspepsia, sick headache, kidney and liver complaint, constipation, urinary troubles, and the sicknesses peculiar to women; they all arise from this one cause, and Dr. Kennedy's Favorite Remedy will cure them if taken seconding to directions. For that according to directions. For that tired out feeling one often experien-ces in the spring, I prescribe it in pref-erence to anything else."

To Fight for Virginia's Governorship. RICHMOND, Va., May 13.—The fight over the Democratic nomination for governor of the state has been enlivened by the announcement that Colonel A. S. Buford, of this city, is in the race. Lieutenant Governor J. Hoge Tyler and Congressman O'Ferrall have long been in the field, but the three cornered contest that will be waged from now until the convention meets will rival the Mahone-Daniel fight, in which neither candidate received the nomination.

A Colony of Russian Hebrews Flee From the Flames.

ATLANTIC CITY, N. J., May 13.—The re-cently started forest fires near Mizpah already destroyed several thousand dollars worth of property, and threaten, before they are quelled, to add considerable more property to the list of that gone up in flames. The fire started down near the The fire started down near Seashore railroad, back of what is known as Grassy Pond, and made its way toward May's Landing. A clear jump was made across the river and railroad track back of Estelleville. At one time it was within three-fourths of a mile of May's Landing, and it was only by the vigorous fighting of the men ordered out by Superintendent Blaisdell, of the May's Landing water power mill, and those from the brick works that the fires were suppressed. One of the men, whose name could not be ascertained, while fighting the flames, was singed and burned about the hands and head, though to what extent is not known.

At Mizpah, a colony composed ex-clusively of Russian Jews, the scare was the greatest, and there the people ran into their houses, closing the doors and windows after them, and not having presence of mind to fight the flames. The result was the destruction of a large amount of property, the fire burning nearly up to the doors of the houses before it subsided. About \$3,000 worth of timber was destroyed on the old Walker estate, at present owned by John Walker. George Foster lost 300 cords of cut wood, valued at about \$1,000.

A report is current that a mill property and several houses were destroyed, but a visit to May's Landing failed to confirm

FINANCE AND TRADE

Bank Failures Have Not as Yet Affected Commercial Credits.

NEW YORK, May 13.-R. G. Dun & Co.'s Weekly Review of Trade says: The smash in the industrial stocks a week ago, the failure of some firms and of the National Cordage company, and the largest decline in stocks known in any week since 1873, have been followed by surprisingly little disturbance. Businesf has shown remarkstrain, though disquieting rumors are natural, frequent. Bank failures at Chicago and Indianapolis, and rumors of others reflect large losses through Chicago speculations in real estate and grain, and at Indianapolis through the failure of the Premier Steel company, but commercial credits are not as yet affected. There is more buying of commercial paper than a week ago, and while foreign exchange has risen above the exporting point, no gold is yet ordered for shipment, as banking houses reckon upon larger exports of products before long. Interior money markets are growing ighter and more cautious, but no suc stringency is yet seen as to check general trade, which appears to have somewhat improved with more easonable weather.

The business failures during the last seven days number for the United States 257 and for Canada 23; a total of 280, as compared with 243 last week, 238 the week previous to the last, and 175 for the corresponding week of last year.

His many friends in this city will be pleased to hear of his release, as very few believed Mr. Carlin guilty at the time of his arrest.

Company G. of Danbury, came to this city last night and joined Company D. in a batallion drill. A large number from each company was present, and a fine drill was held, the movements of the members of the companies being excellently performed. A large number of spectators were present and manifested much interest in the drill.
