MAN'S HELPLESSNESS

TRYING TO DO UP THE WASHING.

We are having a rough time out here n Western Texas. Yesterday our washerwoman left us, leaving a large washing in the tubs. He left suddenly and in anger, because the major called him a negro and said he was not a mulatto. Now, although Uncle Dan'l is as black as the proverbial ace of spades, he always maintains that he is a "mulatter." and we, for policy's sake, never contradict him; but yesterday the major in a fit of anger so far forgot himself as to call Uncle Dan'l a negro. This was an unpardonable offense, so we were not surprised when he took his departure, but were puzzled what to do about the washing. Out here it is exceedingly hard to get any one to wash, and we considered ourselves lucky when, some time ago. Uncle Dan'l had consented to do washing for us as a great favor, said favor to be paid at the rate of \$1 to \$1.50 per day; but now his departure left us in a quandary. Said the major: "Call in Jack; may be he knows how to handle a washing; he can do almost everything." So Jack was called and the state of affairs explained to him. with the question, "Can you wash?" "Can I wash? Well, I ain't never tried it, but I kinder calculate I can soon get hold of the business. Get out the way." Jack spat on his hands, picked up the boiler, put it on the stove, filled it with water, then stood in deep thought for about five minutes (while we stood si lently around watching the proceedings, having perfect confidence in Jack's ability to do whatever he undertook, for he is a "Jack of all trades"); then he charged

over to the clothes in the tub and began to rub them on the board with a vim. "Well, Jack," said the major, "you seem to know what to do, so the rest of us will go about work; do you want any of the boys to help you-Ned, Tom or Lewis?"

"I'll take Lowis (nodding at me); he

can help." Then the men went about their ranche work, and left Jack and I alone with our too much for his father. Glancing at washtub. And the silence was unbroken; the only words there was spoken were: "Lewis, do you know how to blue clothes?"

"No." "Well, I'm going to boil mine in bluing water;" and he emptied about a cupful of bluing in the boiler of water.

Then Jack took his clothes out of the "Richard," he said, with a softened boiler and wrung and hung them up to garret of the old house, in the back part voice, "I desire that thee would postpone dry. They were "deeply, darkly, beauof the haymow near the dusty gable leaving us for a few days. Thy mother tifully blue," but Jack said they were

In about two hours they returned and the major went out to bring in our washing. He brought anger, and avoid the committal of rash it in; also a good deal of bad talk. Jack's washing looked like pieces of sky, it was so blue, while mine smelt like a pinery. As washers we were not a success. The major now has that washing soaking in a tub; says he objects to going about looking like skimmed milk

The solution of the conundrum at Tiffany's, supposed to have been effected by the appearance of several items in the The Press, relative to an agricultural store, and later, by the erection of a building 18x42 which was raised last week and is now covered in, brings with it another conundrum in the shape of two tall posts, standing one at each front corner in the frame and reaching far above the ordinary hight. Your correspondent, in talking with him the other day, elicited from him that he hardly knew how he would fix it, but that when he had it figured out to his own satisfaction he would put an ad. into The Press that would explain it all.

The Mission Band gave a concert at the Congregational church in Somersville last Sunday evening, under the direction of Miss Hattie B. Stowe, of this village, president of the band. The exercises opened by singing an appropriate hymn; prayer by Rev. Mr. Ayer. Miss Stowe read an historical account of the missions in India. Songs and recitations by members of the band; music by Miss Nellie Little. The congregation were highly interested, and at the close joined in singing the old missionary hymn, "Ye Christian herelds, go proclaim."

Members of the Advent church, and some others, gave the pastor, Rev. S. P. Howard, a surprise last week Wednesday evening, the occasion being the birthday of Mrs. Howard. Some 35 persons were present and passed a very pleasant evening. The exercises were enlivened by singing, reading selections from scrap books, and occasional skirmishes at sharp (tongue) shooting by the more witty, in which the venerable champion from Scitico found fully a match in one of the guests from Thompsonville. Universal good-feeling seemed to prevail, and, leaving substantial tokens of regard for both the inner and outer man, the party separated in excellent spirits, leaving the host and hostess in a state of rather bewildered thankfulness. READ THE FOLLOWING: To the Editor of the Republican: Dear Sir-With your kind permission we desire to make public mention of the very great service performed for our daughter by Dr. Sweet, of 357 Main street. Ever since our daughter was six years old (being now fifteen) she has been troubled with falling fits of the greatest

ferent physicians of good standing with When we went to Dr. Sweet we had given up all hope of saving our child, as she had several fits each week; we took a six months' course at the Infirmary; during that time she had but one fit, and we believe her to be entirely cured. Any one desiring further particulars can call or address us at 40 Congress street, Springfield. T. H. BYRNES,

MRS. HANNAH BYRNES, 40 Congress street To the Editor of the Republican: For the sake of those who are laying awake nights with the rheumatism I would

like to say a few words. For seven months I have been laid up with the rheumatism in my ankle, and at night it swelled up and pained me so that I could not get a wink of sleep. I called in most of the doctors one after another, from the first to the last. At last, having spent lots of money and

not getting helped, I was recommended by Mrs. Hannah Byrnes, of 40 Congress srreet, to go and see Dr. Sweet, of 357 Main street, who had cured her daughter of falling fits after all the other doctors had given her up. I at last went to see him, and he said he could cure me. Before went under his treatment I could not Effe step without pain, and now, thank God, through the agency of Dr. Sweet, I can do all my work, sleep well nights, and am entirely cured of the infirmity. I would strongly recommend any suffering from disease to go and see bim, when he will tell you the truth. MRS. B. RILEY, 64 Hancock st., City.

Hearing much of the plaints, I was prevailed upon by my wife to call upon him, which I did. He gave my case a thorough examination by his peculiar methods and I was gratified with the hope of recovery which he held out to me. I began his treatment and followed it faithfully for six months with the very best of results. I make this statement for the benefit of humanity, honestly believ ing that in the treatment of Chronic Dis eases, with a liberal allowance of time Dr. Sweet can accomplish the most favor

H. WARNER, M. D. — Dear Sir: Two years ago I had a bad cough, pain in back and side, and was constipated, and was very much emactated. Had been treated by a number of physiciams (so-considered) in this vicinity, all to no purpose. I cailed on you, and you told me just how I was without asking any questions; said that you thought you could cure me in a few days. Put myself under your care and you restored me to rood health again, as you said you could do. When I went to you I weighed 125 pounds; in cight weeks after you treated me I weighed 130 pounds. Have enjoyed good health ever since. Hoping that you may use this for the good of others,

I am, yours respectfully,

278 Main Street, Springfield, Mass.

November 18, 1879.

This is to certify that Dr. Warner has fully restored me to good and sound health in three days, after being afflicted for months with kidney, gravel and liver complaints, and being contined to my bed so that I could not turn over without help, but through him I am a well man again. Would advise any and all afflicted like me to visit him. I will give any one a full account of it at any time by calling on me at 93 High street, Holyoke, Mass.

SOMERS, Cr., April 8, 1881.

I wish to say, for the benefit of suffering humanity, that I have been a sufferer from Bright's Disease and Dyspepsia over two years, and that about two years ago I put myself under Dr. Warner's care, and in six weeks he restored met's good and sound health. I have not had a return of the disease since; therefore I would not vise any one troubled as I was to see Dr. Warner at once.

CHAS. COOLY, SEN.

WEST WOODSTOCK, Cr., Oct. 17. 1879.

DR. WARNER,—Dear Sir: I esteem it a privilene to render my sincere thanks to you for what you have done for my wife. She has suffered for a long time from dyspepsia, constipation, uterine weakness: in a word, she was fast failing in health, and all efforts to avert this decline in health proved a failure. Some time over a year ago we saw your advertisement in the paper, and resolved to give her case into your hands. We did so, and after going through with one course of treatment, she has been well and no return of the disease.

Yours sincerely, REV. P. S. BUTLER.

Stafford, Conn., April 13, 1878.

This is to certify that I have been a long time sick with Dyspesia, Kidney Complaint, and General Debility, which has baffed the skill of some of our most noted physicians, until about three months ago I called on Dr. Warner. He gave me medicine for four days, and has restored me to good and sound health. Would not be put back where I was before I saw Dr. Warner for five hundred dollars. Hoping that if any of my friends are troubled in the same way they will lose no time in seeing him.

Respectfully.

WEST SPRINGFIELD, MASS., July 27.

This is to certify that my little girl has been afficted with a severe Scrofulous affection that baffled all medical treatment, until Dr. Warner took her case in hand. Her face was covered with sores, but under his treatment they began rapidly to disappear, and she is no well as she ever was. And that my wife has been troubled for a long time with Dysepsia and Female Weakness, and other distressing symptoms too numerous to mention, for which I have paid out a great deal of money, all to no purpose, but under Dr. Warner's treatment four days, she began at once to feel like a new person. It is truly wonderful to see the change in so short a time. I also had a bad leg, caused from an injury for tupon the bone, for which I believe that I must have lost my leg had it not been for the skillful treatment of Dr. Warner, which has brought me out all right. I do therefore extrestly recommend any afflicted as I or my family have been, to see him at once; you will seve money and a great deal of smilering, by being cured in a surprising short time. Yours respectfully.

AN UNUSUAL FURORE. Recent Excitement Investigated by the Herald and the Eggults Made Public.

A few weeks ago we copied into our columns from the Rochester, N. Y., Democrat and Chronicle "A Remarkable Statement," made by J. B. Henion, M. D., a gentleman who is well known in this city. In that article Dr. Henion recounted a wenderful experience which pefell him, and a few days thereafter we published from the same puper a second article. (Cleveland, O., Herald.) ished from the same paper a second article, giving an account of the 'Excitement in Rothester,' caused by Dr. Henion's statement. In the first article Dr. Henion stated that for a number of years, up to last June, he had been possibly at Wethersfield, or for repairing and afflicted with what seemed at first a most serious trouble. He felt unaccountably tired at frequent intervals; he had dull and indefinite pains in various parts of his body and head pains in various parts of his body and head, and was very hungry one day and entirely with-out appointe the noxt. However, as a physi-cian, he thought, and so did his fellow physicians, that he was suffering from malaria But yet he grew worse, and was finally obliged to give up a large and lucrative practice. Still he was not conscious of his danger, nor that a monstrous disease was becoming fixed more him.

fixed upon him, although all his organs had be-come gradually weakened. The symptoms above described continued, accompanied by others of an aggravated nature, and he notice a peculiar color and odor about the fluids he was passing; that they were abundant one day and very scanty the next, and were covered with froth, or filled with brick dust sediment. heroic efforts for recovery. He traveled extensively and consulted the best physicians, but they could give him only temporary relief, and that principally in the form of morphine. And so he grew steadily and constantly worse until
his life became a torture. His pulse was uncontrollable. He lived wholly by injections,
and for six days and nights he had the hiccoughs constantly, which are considered the
sure indications of coming death.

When hope and life were nearly exhausted, his pastor, the Rev. Dr. Foote, rector of St. Paul's church, strongly urged him to try a means which the reverend gentleman had seen used with remarkable results. He objected at first, but finally consented, and was conscious of an improved condition the first week. His pains gradually disappeared; his stomach resumed digestion; his heart became regular; his headaches disappeared; he had no more chills and fever, or acidity of the stomach; he gained twenty-six pounds in three months, and is a twenty-six pounds in three months, and is a well man to-day, being entirely cured of a most

pronounced case of Bright's disease. Although conscious of the consequences from is professional brethren, still, as a duty to his fellow men, and according to a vow he made on what he thought was his dying bed, he pub-lished a card detailing his illness and remarkable cure. "Since my recovery," he says, "I have thoroughly re-investigated the subject of kidney difficulties and Bright's disease, and I believe more than one-male the pearths which occur in America are caused by BRIGHT'S DISEASE OF THE KIDNEYS. It has uo distinctive symptoms of its own (in-deed, it often develops without any pain what-ever in the kidneys or their vicinity), but has the symptoms of nearly every other known complaint. Hundreds of people die daily whose burials are authorized by a physician's certificate of "Heart disease," "Apoplexy," "Paralysis," "Spinal complaint," "Rheumatiem" "Rheumati "Pneumonia" and other common complaints, when in reality it was Bright's disease of the kidneys. Few physicians and fewer people realize the extent of this disease or its ogerous and insidious nature. It steals into the system like a thief, manifests its presence by the commonest symptoms, and fastens itself upon the life before the victim is aware. It is nearly as hereditary as consumption, quite as common and fully as fatal. Entire families, inheriting it from their ancestors, have died, and yet none of the number knew or valiged the properties. or realized the mysterious power which was removing them. Instead of common symptoms it often shows none whatever, but brings death suddenly, and as such is usually supposed to be

The second article entitled "Excitement in hester," was made up of interviews with Dr Henion himself, who confirmed all said in his card, and also with Mr. H. H. Warner. The latter gentleman did not regard Dr. Henion's case as particularly exceptional, because he had known of very many such cures by the same means in all parts of the land. Kidney diseases, he said, are carrying off tens of thousands every year, while Bright's disease is in-creasing 250 per cent. a decade, and yet the people do not realize it or seek to check it until oo late. He related how a New Orleans medilecturing on this disease, think-is class what healthy fluids were,

Sirs: Acknowledging your favor duly received, we would say: The best proof we can give you that the statements made by Dr. Henion are entirely true, and would not have been published unless strictly so, is the following testimonial from the best citizens of Rochester, and a card published by Rev. Dr. Foote, which you are at liberty to use if you wish.

Wil you allow the following card, personal o myself, to appear in your widely-circulated There was published in the Rochester Demo or at and Chronice of the 31st of December last a statement made by J. B. Henion, M. D., narrating how he had been cured of Bright's disease of the kidneys, almost in its last stages, by the use of Warner's Safe Kidney and Liver dure. I was referred to in that statement a having recommended and urged Dr. Henion to try the remedy, which he did, and was cured.

try the remedy, which he did, and was cured.

Now the republishing of his statement in many of the leading journals of the day has been the cause of an incessant flow of letters to me making many inquiries, but chiefly whether the statement is true, gr a mere advertising dodge, etc., etc.

I beg, therefore, to anticipate any further inquiries and save time and labor, and some postage, by saying that the statement of Dr. Henion is true, so far as it concerns myself, and I believe it to be true in all other respects. He is a parishioner of mine and I attended him in his sickness. I urged him to take the medicine, and would do the save tended him in his sickness. OLD BOSTON HOUSES. The front room of a dwelling house in Harrison avenue in which Rev. Baron Stow, one of Boston's most noted clergymen, suddenly died, about twenty years ago, is now occupied by two industrious Chinamen. The ancient dweiling house No. 5 Spring lane, in which resided fifty years ago our late respected citizen. John Ashton, is now a cheap eating house. The ancestors of the wealthy Minot family once occupied an adjoining house. The store on Washington street, between Milk street and Spring lane, now occupied by F. M. Keeler and others, was, about fifty years ago, the scene of a sad and romantic tragedy. A young man employed in the store was engaged to a daughter of his employer but the course of true love did not run smooth, and, her parents refusing to recognize him as a suitor, the youthful couple repaired to the store one night. and the next morning both were discovered suspending from a rope connected with the fall, dead.
