A remarkable case of mistaken identity waich at one time threaten d scrious trouble to an innocent man was developed in the Tombs Po ice Court a week ago yesterday On the previous Saturday morning a quietand well dressed min stood on the Roosevelt St. ferry bridge wal ing for a boat. He had on is Sunday clothes, and was evidently going to a wedding or a functal. Presently an ther individual d posited his three cents at the gate, waiked inside, and suntered after the manner of men waiting for a boat. Taen his eye fell on the well-dressed man. He a lyanced a step to ked at him car fully, seemed to recognize, and finally walked up from behind, clapped his hand on the man's shoulder, as though he were an old friend, and said in a voice that aroused, a police of "Smith, old boy, how do you go is?" urn d, surprised. A Pilfering Rat. The Sidney (Australia) Herald is respon sible for the following singular story: The craving for food by the belpies young has in many cases been known to prompt kittens and wheips to take milk from vary different genera of the mammalia; but one of the most extraordinary incidents of this nature is related to have occurred lately at Sidney. The circumstances have no such features as would render publicity of i-c ionable, and the authenticity of the subjoined statement is vouched for by the husband of the woman referred to. Mrs. Byrne is a married wom in, residing in Dev inshire street, Sylney, her husband, a na uve of the colony, being well known in the netropolis. Some months ago she bore twins, one of whom died, and the survivcame alling. This the mother attributed to an insufficiency of milk. For several days she observed peculiar scratches on her bos om, unlike those that would be produced by the child. However, she ascribed them to the efforts of the child when hungry at night to get at the breast, and took the pre caution to pare the child's nails. Still fresh scrutches were noticed. No rats had been seen about the room until the cat started one which had found a hiding-place behind a c.s. Immediately when the rat found itself chased it ran to Mrs. Byrne, as if for shelter. The scratches on her breast were at once identified as toose produced by a rat's haws, and the impression that this creature and robbed her during the night of the milk

Tuesday morning the body, inclosed in an elegant casket was placed in the "Governors' Room" at the City Hall, and the long lines of people which had ben forming since daylight on Broadway and am streets, moved slowly forward to take a last rapid glance at the remains. Four abreast up the front steps, through the portice and lebbies, two abreast up the winding stairs single file and with supid tep past the casket, for fourteen hours the housand of both sexes, of all ages, races and complexions looked for the has time upon the body of their friend. Not one out felt himself entitled there to mourn. At 11 o'clock the proce-sion, which had formed at the City Hall, reached the caurch, and soon while the solemn organ gave voice to Cho-pin's Funeral March.

THE DECORATIONS. Over the front of the pulpit from newel to newel was sprung a massive arch of the rarest of flowers, bearing the words: "I know that my Medcemer aveth," in purple immortelles, on a white relief with varie-gated border, all woven in flowers, and presenting a magnificent appearance. Blood, Liver, Ridneys and Bladder, these Bitters have been most successful. Such Dispases are caused by Vitiated Blood, which is generally produced by derangement of the Dispases.

They are a Genetic Purgative as well as a Tenies, possessing also the peculiar nearlt of acting as a powerful agent in relieving Congestion or Influence and Dispases.

For Skim Diseases, Eruptions, Tetter, Sali-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carhuncles, Ring-worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally due up, and, carried out of the system in a short time by the use of these fitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vittated Blood whenever you find it impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and singgish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Grateful thousands proclaim Visseas Bitters the most wonderful Invigorant that ever sustained the sinking system.

Pin, Tape, and other Worms, larking in the system of so many thousands, are effectually destroyed and removed. Savs a distinguished physiologist: There i searce'y an individual upon the face of the earth whose leady is exempt from the presence of worms. It is not upon the heathy elements of the body that worms exist, but a on the diseased homors and shime deposits that breed these living monsters of disease. No system of Medicins, no vermifuges, no anthelminities, will free the system from worms like these Bitters.
