It is quite evident that the eleven years that have elapsed since the close of the ighting spirit of the members of the army hat opposed each other for four years. The ent that volunteers to fight the Sioux would probably be called upon has produced the greatest excitement not only in the North, but South. The other day an Illinois regiment tendered its services, and now General Shelby, of the late Confederate Army, wants the President to call for 1,000 men from Missouri. "We fought Custer," he writes, " and will now avenge him."

### HAYES LETTER. Gov. Hayes' expected letter of acceptance

of the nomination for Presidency by the Republican Convention was given to the country on Monday last. .It is a document of commendable brevity and pith, and is acceptable to the party, and against which little has been or can be said. We think it completely disproves the assertions that have been made that Mr. Hayes is a man of no force or keenness, for the letter of the kind we ever read. Mr. Hayes while ccepting the nomination of the Republican party, and endorsing its platform, neither commends or condemns the actions of the party upon the principles which are emucited in the platform, and which have been used in previous campaigns and ignored by the administration and the party. He is in

side of the platform to avow his opposition to a second term, he makes a point in his fa-vur, and one which will meet the approba-tion of every citizen of the country, except

and leave matters pertaining to that office within the jurisdiction of justices of the peace; to do away with the election of City Clerk, and make that officer an appointment of the Board of Councilmen; and to require cartmen and truckmen to take out a license, as was intended in the original only difference being that of calling the chief officer a Mayor instead of a Warden, and the legislative body Board of Councilmen instead of Court of Burgesses.

These are important changes and we trust our citizens will consider them carefully. Through inadvertance sections 5, 19, 14, 15. 27, 41, and 49, repealed in 1871, are again repealed in this act, which, of course, affects nothing.

## A DAILY PAPER.

Many prominent citizens have signified to us a desire that we should publish a daily paper in this city, and we have, after deliberation and a look over the field,decided that we will comply with this request provided sufficient encouragement is given.

The publication of a daily paper is attended with a largely increased expense over a

weekly paper—not only in the additional issues, but in the expense of each issue, for while a country weekly will flourish best by giving its whole attention and energies to the chronicling of local events and discus-sion of local questions, a daily must glean from a broader field and furnish a record of events of the day throughout the world, To do this the telegraphic news is a necessity, and to get this it necessitates a heavy

GENTLEMEN: In reply to your official communication of July 17, by which I am informed of my nomination for the office of President of the United States, by the Republican National Convention at Cincinnati. I accept the nomination with gratitude, hoping that under Providence I shall be able, if elected, to execute the duties of the high office as a trust for the benefit of all the

amendment.

The resolution of the Convention on the subject of the permanent pacification of the country, and the complete protection of all its citizens in the free enjoyment of all their constitutional rights, is timely, and of great importance. The condition of the Southern States attracts the attention and commands the sympathy of the people of the whole Union. In their progressive recovery from the effects of the war, their first necessity is an intelligent and honest administration of

the effects of the war, their first necessity is an intelligent and honest administration of government which will protect all classes of citizens in their political and private rights. What the South most needs is "peace;" and peace depends upon the supremacy of the law. There can be no enduring peace if the constitutional rights of any portion of the people are habitually disregarded. A division of political parties resting merely upon sectional lines is always unfortunate, and may be disastrous. The welfare of the upon sectional lines is always unfortunate, and may be disastrous. The welfare of the South, alike with that of every other part of this country, depends upon the attractions it can offer to labor, and immigration, and capital. But laborers will not go and capital will not be ventured where the constitution and the laws are set at defiance, and distraction, apprehension, and alarm take the place of prace-loving and law-abiding social life. All parts of the constitution are sacred, and must be sacredly observed—the parts that are new no less than the parts that are old.

The fifth resolution adopted by the Convention is of paramount interest. More than forty years upo asystem of making appointments to office grew up, based upon the maxim, "To the victors belong the spoils." LIVER COMPLAINT. By R. V. Pierce, M. D., of the World' Dispensary, Buffalo, N. Y., Author of "The People's Common Sense Medical Adviser,"

People's Common Sense Medical Adviser,"
etc., etc.

The Liver is the great depurating (purifying) organ of the system, and has very appropriately been termed the "housekeeper" of our health. I observed in the dissecting-room, and also in making post-mortem examinations of the bodies of those who have died of different diseases, that in a large proportion of cases, the liver has given evicence of having at some time been diseased. Liver affections are equally prevalent in beasts. Every butcher knows that the livers of cattle, sheep, and swine, are ten times as frequently diseased as any other organ. A healthy liver each day secretes about two and a half pounds of bile. When it becomes torpid, congested, or if, from any cause, it be disabled in the performance of its duties, it is evident that the elements of the bile must remain in the blood, thus irritating, poisoning, and perverting, every vital process, Nature attempts to rid the system of these noxious materials by means of other organs, as the kidneys, lungs, ak in, etc., which become overtaxed in performing their additional labor, and are unable to withstand the pressure.

The brain, which is the great electrical center of all vitality, becomes overstimulated with unhealthly blood, and fails to normally perform its functions. Hence there is dullness, headache, impairment of the mem-

The Congregational Societies of Norwalk and South Norwalk propose to have a grand excursion to Savin Rock on Wednesday August 16th on the steamer Laura, Further articulars next week. Mr. James Hart, who was burned by the

premature discharge of the cannon on the ith, is so as to be upon the streets. But he s in a bad condition yet. He was burned much worse than we supposed, and must have been a great sufferer. George Scribner, a resident of Cannon's

Station, Wilton, was found dead last week, Saturday, in a field where he had been at work. From appearance he had gone to a larly known as the captain of the steam

A special excursion will be given to Savin Rock, near New Haven, next Tuesday, 18th inst., over the Daubary & Norwalk railroad and boat from Norwalk. The excursion is a very pleasant one, and Savin Rock a nice place to spend the day. The fare will be only \$1 50 for the round trip.—News.

South Norwalk is beginning to prove itself worthy of its live newpsaper. Last week's Sentinel contained accounts of a fire, robbery, a stabbing affray, a horse thief, been waiting a long time to be put into and numerous other items of local impor-tance. And the Sentinel man goes about and gathers them in with a gleefulness born of cheerful and well-requited labor.-Danbury News.

Com. White by the aid of a mud digger has deepened the channel to the duck so steamer Arrowsmith makes her landing easily at all tides. This was a much needed work, and the enterprise of Mr. White to provide for the accou convenience of the patrons of his popular steamboat line is commendable. The travel by the boat increases as the weather becomes hot and it is no uncommon thing for the Arrowsmith to land four or five hundred assengers in this city.

The New York Commercial Advertiser, with the issue of Monday last, presented each subscriber and purchaser with a fac simile of the first issue of that paper as pub-lished October 2, 1797. It is a decided curiosity, and we'll worth preserving not only as a matter of record, but for comparison with the present times. The paper at its Steamboat dock, to start about seven o'clock start was an unusual one, and as it bescontin. Everybody is invited to take part, there will uedto the present—newsy and sprightly. The Advertiser, we think is the best evening paper in New York, not only for its news but for the ability displayed in its editorial department.

An adjourned meeting of the board of councilmen was held on Monday evening. All the members present. Councilman Sel-

eck chairman pro tem.

The new board were promptly on hand at the appointed time, not having acquired the habit of former boards of getting together half an hour late, but in the absence of the clerk could not proceed to business as some of the members had not taken the oath About 8 o'clock policemen and others were sent out to scour the city, and as one after another returned without any tidings of the missing clerk, some anger was manifested, but just as the chairman was about to put the question the clerk rushed in and busines commenced.

Councilmen Fitch, Cunningham and Charles W. Smith were sworn in, then the minutes of the meetings held June 26th and July 4th were read and approved. The next thing in order was the election of members to seniority. This occupied all the time to about half past ten o'clock. Col. P. L. Cunningham was elected first-councilman on the fifth ballot, and it took twentyseven ballots to elect the second, the last of which resulted in the choice of H. R. Fitch.

There was also quite a contest for third councilmen, which finally fell upon Edwin Adams. The seniority is as follo 1—Peter L. Cunnigham. 2-Henry R. Fitch. 3-Eiwin Adams. 4-William T. Craw.

5-Thomas I. Raymond. 6-Charles W. Smith. 7-John H. Ferris. 8—James L. Russell. 9-George W. Smith.

10-John P. Zeluff. 11-William S. Bouton. 12-David R. Selleck. The meeting than adjourned to day evening at 73 o'clock.

The Weather.

The weather for the past three weeks h een the warmest continous season for years, which together with the drought has well nigh made it unbearable. The showers of Tuesday last during the time which they continued cooled the atmosphere a little, but on Wednesday the thermoneter ranged about as on previous days, and the atmosphere was more sultry. The contin-ance of a temperature of from 900 to 102? for so long a period has nearly exhausted all who have been obliged to perform labor of any kind, and we hear of two cases of partial sunstroke. On Monday Mr. Oliver Ayres, was prostrated. He had been at work in the harbor during the day, until about 4 o'clock when he about 4 o'clock when he was overcom with the heat. He was taken to his home road crossing became dizy and had to give

up his duties. While these are the only marked cases w ave heard of we might chronicle hun of cases of those whose systems have be come weakened by the opportunive heat.

The Thunder Storm.

A terrific thunder and wind storm broke upon this place Tuesday afternoon, and for ome time the wind blew a gale, raising clouds of dust and breaking off bran from heavy-foliaged trees, and cooling the atmosphere to a comfort able degree. In the evening another shower, with less wind, but more thunder and lightening came from out the Northwest and did some damage. out the Northwest and did some damage. The lightning played incossently from all points, and the thunder followed in continuous crashes and rumblings. During the storm a discharge of electricity descended into Mr. Gould Seymour's field adjoining the Methodist Church, which was accommanied with a terrific determine stration electricity descended. panied with a terrific detonation, startling three assembled in the church with its aw ful crash. Another discharge struck the flag staff on Tavern Island and tore it into splinters, and stunning one of the lady occupants of the house. The flag staff on the Pavillion at Gregory's Point was also struck and destroyed. This is all the damage we have heard of in this vicinity. At Redding the barn of Mr. Jacob Lockwood, under ker, was struck by lightening and destroy nols, &c. A barn was also struck at Gross River, and totally destroyed, together with about twenty tons of hey. The rain was much needed in this vicinity. The gardens were suffering, and it is doubful if they wil even now be saved.

Firemane Parade. At the request of many citizens who desired to see our fire department in their best trim, the force turned out for parade on Tuceday evening. The arrangements first made were for Monday evening, but in order to secure the co-operation of the city board the demonstration was deferred partition.

der to secure the co-operation of the city board the demonstration was deferred until Tuesday evening. The procession formed on Railroad place a few minutes before 8 o'clock, with Old Well Hook & Ladder to the frunt, and most of the streets were gone over, before the rain came on. On the line of march the Mayor, Councilmen and others were cheered lustily, and the hops them-solves were greated at almost every point with the liveliest demonstrations of regard.
