Public School Exhibition.

Wednesday afternoon last the primary

rrades of the Franklin street school gave an exhibition in the assembly room. The visiors crowded all the space not occupied by he children. The exercises, which were prepared under the direction of Mrs. Camp of the primary room, were conducted by the principal, Mr. Dutton, and were of a decidedly superior character, andshowed not only ability and appreciation on the part of the scholars, but much careful training. To particularize would not only be invidious but to a considerable extent unjust, for the selections were of as various a character as those who participated n them. In elocutionary qualities there was a marked excellence, and in gesture a grace and appropriateness in great contrast to the good old times "when we were boys," and when lung power carried off the prize. Following is the programme: Chorus. Away to School, Declamation. Master Jesse Ferri Recitation.

Hattie Millard Declamation, "The biggest Piece of Pie," Leo David Dialogue, "Consider the Lillies." Class 9 little girls Recitation, "Two Sides of a Sentiment," May Good-Semi Chorus, "Roll your Hands," Class of Little Ones.

Recitation, "I'm only Seven,"

Dialogue, "The Menagerie," Ella Wright and Emms Semi Chorus, "The Wolf at the Door." Class of Girls. Declamation, "I Remember." Recitation, "My Three Little Texts," Jessie Heesher Declamamtion, "I'll be a Man," Frankie Blake

Recitation, "Passing Away," Winnie Nash Concert Recitation, "The Inquiry," Class of Little borus, 'Dare to be a Daniel.'

At the close of the programme Principal Dutton stated that they were pleased that so many were present, and he hoped that they might be enough interested in the school to attend during the examinations, which would begin in about a month, when they would see that they did something cise in the school besides provide for the entertain ments. He said that the entire programme had been prepared outside of school hours, either in the morning before school, or after se't of was dismissed. He also meet these present to visit the school and hear the reci tations at any time, as they would be found of an interesting character. Reckless Competition.

A couple of stationers living opposite to each other in a well-known sea side resort on the south coast of England, recently got at loggerheads. One of them, in order to draw his neighbor's customers, piled his window with shilling packets of note pap ? marked at eleven pence. People stared, walked in and purchased. The next morning, when the other man's shutters were taken down, the window was filled with shilling packets of a note paper marked 81. Day by day this little game went on, one underselling the other until prices gradually ropped to 61., 51, 41., 31., and 21.

By this time the town saw and enj yel the joke; and, notwithst inding the efforts made to keep the sales down, by taking at least ten minut s to seal or tie up every purchase, the two stationers were heavy sufferers, and every man, woman and child in the last them hall a life-time, However, the he had stuck to his legitimate tr de, and had not tried to undersell his neighbor. ROMAINE GOLD, so extensively worn in Paris, was first discovered in 1870, by the celebrated French chemis), Mons. D. BeLainge, who manufactured it into jewelry, and for five years sold it to the leading jewelers of Paris for SOLID GOLD. In 1873, when his secret became known, ten of the manufacturing jewelers established a stock company with a capital of \$10,000 for the purpose of manufacturing Romaine Gold Jewelry and Watches. With this immense capital, and the aid of improved machinery they are enabled to produce all the letest patterns of jewelry at less one-tenth the cost of Solid Gold, and of a quality and color which makes it impossible even for experts to detect it from the genuine.
