> A Few Words About Dr. David Kennedy.

> Taken from the Rondout S Y Daily Freeman "While Dr. Kennedy has proved himself an excellent physician, and discovered the most valuable medicine ever offered to an afflicted public, it must not be forgotten that he deservedly stands second to none in

this country as a surgeon." For instance, we would cite the case of Mr. Abram Elsworth, of Port Ewen, Uster 'o., N. Y., who had suffered for more than TWENTY years from the pain incident to a disease involving the greater portion of the high thigh bone, and during all this time he had been kept in blissful ignorance by the development! In California they make many dectors who had treated him of the real cause of suffering. He often expressed to the author of this article, that he had not experienced, the pleasure of one whole night's sleep in twenty years. Although a cripple, and suffering pain and the inconvenience of carying an almost useless limb, he has acquired a competency far beyond what most of men would have done under similar circumstances. Mr. Elsworth was induced to consult Dr. Kennedy who at once rea told the sufferer that the disease had so far advanced toward the body that nothing was left for him to do but submit to ampuration of the leg. Consequently on the 15th of May, 1871, in the presence of, and by the essistance of several medical gentlemen, Dr. Kennedy amputated the leg, about three inches below the hip joint. The bone was nches below the hip joint. found to be perfectly rotten from one end to the other, and thus proved the correctness of Dr. Kennedy's diagnosis. Mr. Elsworth made a rapid recovery, and remains o this day the perfect picture of health. Dr. Kennedy does not hesitate to say that the happy result of this and other cases of a similar character was due to the use of the Favorite Remedy It was this medicine that purified the Blood.
