NINETEEN THIRTY-FOUR

EDITED BY THE JUNIOR CLASS OF THE CONNECTICUT STATE COLLEGE STORRS, CONN.
THOUGH this book be modern in dress, behind and beneath its outer garments the old traditions lie. Men of Connecticut, hold fast to what has been her spirit from the start. Hold fast to the old, but blend it with the new. Thus do we move forward! In such a spirit is the 1934 "Nutmeg" compiled. 3 2 7 5 /
To SUMNER A. DOLE, Dean of Men, and Coach of Varsity football and baseball, the Junior Class dedicates this Nutmeg. May this be our tribute to a man whose cordial friendship and timely advice are invaluable to those who know him.
DUCK POND
BEACH HALL ENTRANCE
CHURCH STEEPLE
IN MEMORIAM

ANTHONY G. DE ROSA

We knew Tony first as a freshman basketball player, then as a student in mathematics, as the quarterback on the football team, as a freshman proctor, and finally as manager of the 1933 football squad.

Through all of these experiences we have seen the superficial give way to the genuine, we have seen immaturity give way to maturity, we have seen uncertainty give way to strength, and we have seen courage overcome the uncertainties of life.

Though our hearts may ache and though it may be difficult for us to understand the will of the Creator, we now say “thank you” for the opportunity of having known Tony.

SUMNER A. DOLE.

THE NINETEEN
THIRTY-FOUR
N U T M E G
CLASSES
HISTORY OF THE CLASS OF 1935

After a particularly thorough-going initiation into College life, as freshmen, our class lost the Rope Pull, and then got down to a session of real work which culminated in a good scholastic rating of the class as a whole at the end of our first semester. Early in December of 1931, we took time out to win the pig-roast quite decisively. In our sophomore year the order of these victories was reversed.

It was as sophomores that we made the greatest contribution that we have yet made to the college. It was our class that instituted the student loan fund which is supported by the proceeds from the sale of freshman caps and bibles.

Our junior year has found our roster diminished in numbers, but this very fact has helped to build up a close friendship within our class which is one of the most valuable things in our college experience. We sincerely hope that this will continue to grow during the rest of our days at Connecticut State and that when we are graduated we will feel that it was here on this campus that we made our best friends, spent our happiest hours, and, above all, rounded out a satisfactory cultural and intellectual background for the years to come.

RUSSELL D. BROOKS.
MERRILL W. ABBEY, AΓΠ

"Abby"

Kent

Animal Husbandry

Cross Country (1); Track (1); College 4-H Club (1, 2, 3); President of 4-H Club (3); Debating Club (1); Block and Bridle Club (1, 2, 3); Secretary and Treasurer of Block and Bridle (3); Lambda Gamma Delta (3); Animal Husbandry Judging Team (3); Honor Roll (1); Junior Prom Committee.

As you can see, Merrill is a busy man but he can always find time for something else. He is a willing worker and consequently has been chosen for many committees. When a thing has to be done Merrill "guesses" he can do it and does it. With such a faculty for getting things done Merrill should go far in any line of work he chooses.

JOHN N. ABBOTT, ΦΜΔ

"Slim"

East Hartford

Zoology

Basketball (1); Track (1, 2, 3); Newman Club; Science Club; Blue and White Club (2, 3); Junior Class Treasurer; Campus Board (1, 2, 3); Chairman Junior Prom Decoration Committee.

"Slim" is one of those quiet fellows who never says much but is always doing big things. His many and varied activities on the hill have made him a very busy personality but he has always found time to make friends and to keep them. "Slim" has gained a reputation of never having let a friend down—a man with such a character is sure to succeed.

CARL E. ANDERSON, AΦ

"Carl"

South Manchester

Chemistry

Stage Manager, Connecticut Players; Symphony Orchestra; Science Club; Rifle Team; Theta Alpha Phi; Officers’ Club; Junior Decoration Committee.

Carl is another of our popular students. Quiet and unassuming he makes his way successfully about the campus. Among other activities he finds time to lend his cheery self to the service at the "Bees and Amber."

Carl is also very conscientious in his work, and you just can’t keep a man with this sterling quality down.
THEODORE ASTRELLA, H A S
"Ted"
New Haven Mechanical Engineering Engineering Club; Officers' Club.
"Ted" is one of the few persons who dares to brook the ravings of the "Mad Russian" on his favorite subject. The two can often be heard denouncing each other across the campus, forgetting every one else as they give the other their dirtiest digs.
A diligent student, his prowess as an engineer is well-known and he frequently acts as a tutor for his classmates.

ELMER MILTON BACON, Θ Σ X
"Bake"
East Haven Forestry Swimming Team (2, 3); Science Club (2); Hockey (1); Officers' Club; Forestry Club (1, 2, 3); Junior Tree Committee.
"Bake" is a good example of what college does for one. He came to us, young and immatured; he will leave us, a man. "Bake" is quiet and unassuming, but even that didn't keep him out of the eternal triangle.
"Bake" goes in for indoor sports. His achievements in swimming need hardly be emphasized; we all know his ability.

MABEL U. BARNES, Δ X Ω
Bristol Home Economics Hockey (1, 2, 3); Monteith Arts (2, 3); Vice-President (3); Home Economics Club (1, 2, 3); Home Economics Scholarship Fund Committee.
Oh, those dimples! One glance and you can tell that Mabel is "in" on some mischief in the dorm. She'd be broken-hearted if there wasn't a dance every Saturday night. A member of the "Holy Four" she can always be depended upon to be ready and helpful in any emergency. Who's responsible for the D.S.C.?
HANS O. BENSCH

South Manchester Economics

Living off the hill, Bensche has not had the opportunity to engage in many of the campus activities. Although somewhat reticent, Hans has gathered a group of friends in addition to the ever-present "Ed" Moran. He manages to keep his marks at a high level.

MELVIN T. BISHOP, AΓΠ

"Mel"

New Haven Mathematics

Math Club (3); Glee Club (3); Cross-Country (1, 3); Track (2); Blue and White Club (2, 3); Junior Prom Committee.

If New Haven has more fellows like "Mel" we'll certainly be glad to see them up here. "Mel" is careful and exact, as befits a mathematician, but when the time comes for fun and the lighter side of life he is right there with the goods. Perhaps that together with his good humor and cheery smiles is why we all like him.

AMEDEO BONDI, JR., AΦ

"Mede"

Clinton Bacteriology

Baseball (1, 2, 3); Business Manager, Nutmeg; Blue and White Club; Science Club; Class President (2); Officers' Club; Honor Student (1); Varsity Club.

"Mede" needs no introduction. And if we were to make a list of those students who are popular we know one co-ed who would put down "Mede's" name without fail.

However this popularity and his other activities do not keep him from his purpose in coming to school. "Mede" has made honors here and he will do the same in the future.
ABE GALE BORDEN

“Gale”

Hartford  Bacteriology and Chemistry
Cross-Country (1, 2, 3); Track (1, 2, 3); Glee Club
(1, 2, 3); Debating (1, 2, 3); Campus Board (3).

A rugged individualist, “Gale” moves strongly
toward the high goals he has set for himself. To
better achieve his scholastic aim and prepare for his
track feats, he lives out in the woods in a cabin all year
round with his dog as a companion, reading, hiking,
shooting, and cooking.

One of the fastest men to ever run for Conn. State,
Borden has done much to raise Cross-Country and
Track to leading sports here. His love of solitude
has not prevented him from making many friends.

RICHARD AUSTIN BOTSFORD

“Dick”

New Haven  Chemistry

“He” is one of our quiet and unobtrusive chaps.
He spends most of his time in the library or in his
room studying. However, when there is an athletic
contest going on, you will be sure to find him there
cheering as loudly as the rest.

SOLLIE BRETTSCHNEIDER

“Sol”

Willimantic  History

“Sol” is one of the most wanted men on the campus
when week-ends come along and folks are looking
for a ride to “Willi.” You see, “Sol” commutes. And
say, we’ve never know him to refuse a person yet, if
he had room.
RUSSELL D. BROOKS, ΦΚΔ

"Russ"
New Haven Economics
Debating Society (1, 2, 3); Manager (3); Radio Players (1, 2, 3); Chairman (3); Class Historian.
"Russ" is perhaps heard oftener than he is seen, through his work as announcer at the local broadcasting station and with the Radio Players. He can always be relied upon to furnish entertainment at any activity with his sparkling wit and original stunts.
"Brooksie" is in his element when one mentions debating. His ability in debating has been recognized by a membership in the Honorary Forensic Fraternity, Pi Kappa Delta.
"Russ" gives promise of a brilliant future.

MELVIN CAMPBELL, ΗΑΣ

"Mel"
New London Economics
Baseball (1, 2, 3); Co-Captain Frosh; Varsity Club; Fraternity Basketball; Senior Frolic, 1933.
"Mel" is one of the best-natured chaps on the campus, seen everywhere and always smiling. As a Sophomore he made the baseball team and proved to be one of the veterans of the squad.

WILLIAM EINAR CARLSON, ΘΣΧ

"Swede"
East Haven Mechanical Engineering
Officers' Club; Mechanical Engineering Club; Mediator, Blue and White Club (2, 3); Hockey (1, 2, 3).
"Swede" finds more time to do things than any other man on the hill. He is up in his studies, went in for sports, is a good club and fraternity man, and even finds time now and then for a date at the "Castle."
Among the many activities in which "Swede" took part, his work on the delegation to New England Colleges from the Mediator deserves commendation.
LOUISE CARPENTER, '32

"Cornie"

East Haddam
Chemistry

Hockey (1, 2, 3); Basektball (1, 2, 3); Conn. Players (1, 2, 3); Secretary, W.S.G.A. (2); Student Council, Secretary; Inter-Sorority and Club Council (3).

Louise, quiet and dependable is a very efficient co-ed. Corn fritters, southern style, are "Cornie's" favorite delicacy. Her opportune suggestions have been valuable in many difficult situations. A star on the "Basketball Court," she is also a conscientious member of the Varsity Hockey Squad.

LESLIE F. COATES

"Les"

Newington
English

Freshman Track; WCAC Players; Pencraft; Officers' Club (3).

"Les" is a rather faithful Holcomb Hallite, and more than once George Adams has done him justice. He's a quiet, but very likeable fellow. "Les's" hobby is the study of Indian life and he is very clever at leather and bead work. We are sure that whatever "Les" decides to do, he will make a success of it.

ANN K. COHEN, '31

New Haven
History-Sociology

Dramatics (1); Campus Board; Inter-Sorority Council (3); Honor Roll.

A fine student Ann has become known for her poised and refined character. Well-read and cultured she commands the respect of us all. We understand she is to continue her work in graduate school and are assured that her ability there will win her the esteem she earned at Conn. State.
LOUIS J. COLONESE, ΦΜΔ

Bridgeport Economics
Circulation Manager, Campus (3); Science Club (1, 2, 3); Campus Staff (1, 2, 3) Business Manager; Mediator (3); Newman Club (1, 2, 3).

"Lou," like many another good hill-man, became dazzled by the dim lights of our adjacent metropolis early in his college career. In spite of this defect, he manages to take care of his studies and boost any good time that is possible on the hill. In addition he has the reputation of never letting a friend down, and this with his individual personality, has made him an asset to the class of 1935.

MARION E. COOK, ΣΤΝ

West Hartford English
Choir (1); Glee Club (1, 2, 3); Hockey (1, 2, 3); Basketball (1, 2, 3); Student Senate (3); Treasurer; Women's Executive Council (3); Student Relations Committee (3); English Club (3); Junior Program Committee.

We don't hear from "Cookie" very often, but when we do, it's sure to be some witty or intelligent remark well worth listening to. She is a well deserved representative in the athletic, scholastic and executive fields. "Cookie" is always ready to listen and give us understanding sympathy and intelligent advice.

VIRGINIA CURTISS, ΓΣ

Southington Botany
Hockey (2, 3); Baseball (1); Second Honors (1, 2); Class Secretary (2); Sophomore Initiation Committee; Junior Prom Decoration Committee.

Talented, distinctive, "Gigi" is one of the youngest members of the class. She is no mean musician rendering classical and jazz selections with equal dexterity. Her original compositions are valuable. Good-natured and full of pep she has many friends. "Gigi" has a way of getting honors without much apparent effort. Varsity Hockey and Baseball constitute her athletic interests.
HAROLD R. FRECKLETON, AΓP

“Scoop,” “Freck”
Glastonbury
Economics
Campus Board (1, 2, 3); Editor-in-chief (3); Officers’ Club (3); Soccer (1); Chairman, Executive Committee of Junior Week.
“Scoop” can be seen almost any time striding around the campus collecting news and telling the world, through the press, what goes on at Connecticut State. Although news writing is “Freck’s” chief interest he does his part socially and scholastically and doesn’t miss anything that happens.

EDWARD E. GILMAN, ΘΣΧ

“Barrel”
Windsor
Forestry
Swimming (1, 2, 3); Forestry Club; Assistant Football Manager (3); Junior Tree Committee, Chairman.
“Barrel” has been one of the chief standbys of the swimming team. He made a statement to the effect that he regrets that he has but one life to give for the swimming team.
“Barrel,” sometimes called “The Water Buffalo” with his rosy cheeks and short-cut hair may be seen in his Ford frequently on his way to see his friend in Wethersfield.

JOSEPH H. GOLD

“Joe”
New Haven
History
Football (1, 2, 3); Basketball (1, 2, 3); Baseball (1).
Football and basketball with a little studying thrown in for good measure, that’s “Joe.” Reaching for passes, getting down under punts, blocking, and tackling keep “Joe” busy in the fall. In the winter its basketball and in the spring—well in the spring a young man’s fancy—.
YOSAEF GORDON  
Norwich  
Economics  
Debating Club (2); College Band (2, 3).  
Gordon spends most of his time travelling between Norwich and Storrs. Nevertheless, he is a serious and conscientious student, and we expect much from him.

C. RICHARD GREEN, ΣΦΓ  
“Dick”  
Amherst, Mass.  
Economics  
Soccer (1, 2, 3); Tennis (1); Blue and White Club (2, 3); Vigilance Committee; Glee Club (2); Officers’ Club (3); Connecticut Players (2, 3); Mediator, Secretary (3); Central Treasurer (3); Junior Prom Committee.  
“Dick” is one of the popular men about the campus. The handsome “bus-boy” get-up seems to be irresistible to the co-ed faction. All Hall Dorm gathers when “Dick” puts on a show and stands on his head for the boys. Despite his social activities, he makes honors and swings a mean kick at the soccer ball.

HERBERT A. GREENBACKER, ΑΓΠ  
“Herb”  
Meriden  
Dairy  
Honor Roll (2, 3).  
“Herb” is a quiet fellow and you have to know him to appreciate him, but when you do know him you discover that dependability, cooperation, good humor, and scholarship are some of his many virtues. Co-eds don’t interest “Herb” much so you usually find him with his pals, Helmbolt and Niederweifer.
FRANCIS C. GREENBERG  
“Fran”  
New Britain  
Economics  
Soccer (1, 2, 3); Non-frat. Basketball; Jewish Club.  
“Fran” manages to keep himself well-known to the freshmen, for he is always ready to give advice to the younger class on anything that may distress them. But this is not all, for he is a soccer player of some ability and a student as well.

THOMAS W. GRIFFIN  
“Tom”  
Simsbury  
Mechanical Engineering  
Engineers’ Club; Mathematics Club; Science Club.  
We believe “Tom” adheres to the old adage, “The unknown are better than the ill-known,” for he keeps pretty much to himself. “Tom” will succeed in life, so long as success is based on ambition and sincerity.

DOROTHY L. GRISWOLD, ΓΣ  
“Dotie”  
New Haven  
History  
Glee Club (1); Conn. Players (1, 2, 3); WCAC Players (1, 2); Secretary of Class (1); Swimming (1, 2); Second Honors (1, 2); Theta Alpha Phi (2, 3); Assistant Basketball Manager (2, 3); President, Theta Alpha Phi (3); Co-Ed Editor, NUTMEG, 1934; Manager Girls’ Basketball (3); Junior Prom Committee.  
“Dot” is known to everyone on the hill for her delightfully charming and attractive personality. Her fine performance in “Bill of Divorcement” won much praise. Efficient and capable she has gained a place of prominence in the field of dramatics. “Dot” has been active in many extra-curricular activities but this has not prevented her from winning honors. In the Campus Beauty Contest she polled the most votes.

47
ESTHER HAYES, ΣΤΝ
East Hartland Home Economics
Choir (1); Honors (1); Glee Club (1, 2, 3); Home Economics Club (3); Monteith Arts (2, 3); 4-H Club (1).

"Peanut" as her name implies is a very small person—but oh, my! She's always happy, cheerful and gay. She never fails to flash a bright smile and her happy disposition instills joy into many hearts. Conscientious, also, we always find "Peanut" ready to do her share.

HARRIET A. HEALEY, ΔΧΩ

"Hatch"
Seymour Home Economics
Hockey (1, 2); Junior Varsity Basketball (1); Social Committee (2); Vice-President W.S.G.A. (3); Executive Council; Sophomore Athletic Association (2); Junior Executive Committee.

"Hatch" is well known among the students for her cheery disposition. Her good humor and love of fun have displayed her as one of the merriest co-eds. Always at hand to help, and a good sport, she has become popular and conspicuous about the campus. A good hockey player, "Hatch" has also shown fleetness of foot on the track.

CHARLES F. HELMBOLDT, ΔΓΡ

"Charlie"
Norwich Animal Husbandry
Block and Bridle Club (2, 3); College 4-H Club (2, 3); Cross Country (3).

"Charlie" isn't much of a man for co-eds but when it comes to intra-mural sports and activities with the fellows, "Charlie" is never lacking. He is distinctly a man's man and we like him for it.
FAITH HOLMES
Mansfield Depot Nutrition
Faith transferred to Connecticut State from Connecticut College in New London. In her quiet way she has made a good college record and many friends. You wouldn’t think so to look at her, but she’s loads of fun. She seems to like Connecticut State so we hope she’ll stay.

RAYMOND A. HORN, ΗΑΣ
“Bootsie”
Hartford Chemistry
Officers’ Club; Football (1, 2, 3); Track (1, 2); Hockey (1, 2, 3); Varsity Club; Science Club.
Through three years of labor, has “Ray’s” beaming face adorned the athletic field. He can usually be located struggling with a football in the fall or the weights in the spring.
He combines sports with a minimum amount of study and leaves the rest of his time to social activities.

HARRY B. HUBBARD, ΑΓΠ
“Harry”
Waterbury Forestry
Football (1); Engineers’ Club (1); Forestry Club (3); Officers’ Club; Chairman, Junior Costume Committee.
Not only does Harry look good in field-boots and riding pants, but he knows his trees and swings a mean axe so he ought to make good in his chosen field. Although Forestry is Harry’s major interest he finds time to attend most of the dances and seldom misses a stag gathering.
BARBARA F. ISHAM, ΣΤΝ

“Bob”
Woodbury Home Economics
Hockey (1); Glee Club (1, 2, 3); Choir (2); Wel-Kum Club (2, 3); Vigilance Committee (2); Home Economics Club (1, 2, 3); Co-ed Class President (3).
“Bob” is one of those girls with plenty of pep, ability and efficiency as her list of activities testifies. Quiet as a freshman, her influence has increased each year, and at all times her warm hospitality is extended to everyone.

GUSTAVE JANSEN

“Gus”
Mansfield Center Mechanical Engineering
Engineers’ Club (1, 2, 3).
“Gus” is one man among us who has avoided the rush for collegiate honors and has taken college with a grain of salt. His genial manner and straightforward opinions have gained him respect and friends at Connecticut State, and will be decided assets to him after graduation.

RENE KAUFMAN, ΘΨ

New Haven French
Dramatics (1).
Quiet, composed, Rene is popular for her congenial manner towards all. She has made a host of friends and although her manner is reserved and dignified yet we know that “still waters run deep.” A willing worker, her assistance in campus affairs has proved invaluable. A clever and level-headed “Rene” is a boon companion to all her friends.
MARGARET E. KENNEDY

"Fleetfoot"

Oxford

Basketball (1, 2, 3); Glee Club (1, 2, 3); Hockey (3); Choir (1, 2, 3); Monteith Arts (2, 3).

"Fleetfoot" possesses one of the strongest characters to be found among any of the co-eds. Trustworthy and reliable she has made herself dear to her friends. Her athletic activities include basketball and hockey. She's as swift a player as her nickname indicates. More than one tense moment has been lessened through one of her skillful passes on the basketball court. Her quiet manner tends to secrete her real abilities, but those that know her claim her capital as a pal and friend.

RICHARD P. KRAFT

"Dick"

New Haven

Engineers' Club.

"Dick" spends most of his time working with radios, and any bright day we may see him walking off into the woods to enjoy the quiet offered by the shady nooks and the music emanating from his treasure box—a portable radio. This may prove helpful to "Dick" in the future.

AMELIA E. KULIKOWSKI, ∆ΧΩ

"Angie"

Ansonia

Home Economics

Co-Chairman of Wel-Kum Club (3); Home Economics Club (1, 2, 3); Secretary (3); Glee Club.

Quiet, unassuming, "Angie" is a dear friend to her colleagues. She and her pal Mabel have been inseparable since their freshman year. Remember the Hallowe'en party and "Goldie" and "Dusty?"
ELIZABETH J. KULSCAR, ΦΔ

"Betty"

Psychology

“Betty” transferred this year from Bridgeport Junior College and although she has been here only a short time her popularity has constantly grown. We know her as an intelligent individual and a wonderful sport. With such an attractive beginning, we look forward to hearing more from her in the near future.

IVAR J. LARSEN, AFFP

"Weasel," "Lars"

Bacteriology

Nutmeg Editor (3); Student Senate (2, 3); Swimming (3); Glee Club (1, 2, 3); Tennis (1, 2); Science Club (2); Treasurer (3); Class Treasurer (1); Delegate to New England College Conference at New Hampshire University (1933); General Chairman (1934).

That cute little blond fellow? Yeah, that’s Ivar. You remember him, he played with the scullions in the annual Beanery Basketball game. Maybe you didn’t recognize him though. He does lots of other things too, as can be seen from the list of activities.

NATHAN LIPMAN

"Nate"

Football (1); Basketball (1, 2, 3); Baseball (1, 2); Vice-President Junior Class; Nutmeg Board; Campus Board; Junior Week Executive Committee.

“Nate” is a good athlete and a good fellow all around. It has been rumored that he is All-American material but with his characteristic modesty he denies all such reports. Nevertheless, it is the general belief that when he comes out to bat in the business world he will hit as surely as he does on the diamond at C.S.C.
GORDON SCOTT LITTLE
“Scotty”
Waterbury Forestry
Swimming (1, 2, 3); Coach (3); Vice-President Freshman Class; President, Junior Class; Vigilance Committee (2).
“Scotty” has centered his two main interests in swimming and “playing house” with the co-eds. When he isn’t acting as host at the Comm. House he is over in the pool. “Scotty” surely is some “water-baby”; he spends his summers as a life-guard, and his winters in the tank. Incidentally, he has ably succeeded Carl Wissinger as coach this season.

RAYMOND IRVING LONGLEY, JR., ΘΣΧ
“Ray”
Storrs Chemistry
Swimming Team (2, 3).
“Ray” is a quiet person and is not seen much about the campus. He takes his work seriously and spends his spare time swimming and playing chess.

ALOYSIUS J. MARTINI, ΣΦΓ
“Al”
Willimantic Mechanical Engineering
Tennis (1, 2); Officers’ Club (3); Engineers’ Club (2, 3).
“Al” is a Tennis fiend, of the best kind. The Tennis Team would be without one of its mainstays if he were not slamming over those “aces.” In off season, “Al” is assuring himself of a place on the honor roll. He is also an up and coming soldier.
PHILIP H. MARVIN, A Γ Ρ

"Phil"

Bridgeport
Football (3).

"Phil" is a quiet hard-working chap who devotes most of his time to studies and work. However, he manages to find time for athletics and enough social life to keep him from going stale.

JANET M. McCracken, Γ Σ

Storrs
Psychology
Hockey (1); W.S.G.A. (1); Choir (1, 2); Glee Club (2); Orchestra (1, 3); Assistant Manager, Hockey (3); Honors (1, 2); Junior Costume Committee.

Janet, quiet but efficient, is one whom we can always depend upon for assistance and advice. Her music ability has been proven by several semesters participation in the orchestra. Hockey, too, has claimed much of her interest. Janet went to Rollins for a semester but seemed glad to get back to C.S.C. and we were glad to have her here again.

B. Vincent McKelvey, Σ Φ Γ

"Mac"

Bridgeport
Football (1); Track (1); Cheerleader (2, 3); Forestry (2, 3).

With his cheerful smile and warm, friendly nature, "Mac" is well-liked by all of his associates. The study of Forestry combines very well with his enjoyment of hiking, camping, and swimming. He is a veteran cheerleader and puts plenty of pep into the crowd.

The fact that he disguises as a bronzed life-guard during the summer months is carefully guarded from the co-eds.
MELVIN O. MILLER
"Mickie"
Norwich Zoology
Connecticut Players; WCAC Players; Glee Club; Campus Board; Science Club.
That chap whom we see around the library—that studious-looking fellow—that’s “Mickie” Miller. Melvin has quite a list of activities to his credit. He is very much interested in Zoology and German. Whenever we see him he seems to be deeply engrossed in a Zoology something or other. More power, “Mickie!”

WILLIAM MINOR, II A II
"Bill"
Hamden Economics
Assistant Track Manager (2); Track Manager (3); Math. Club (2, 3); Rifle Team (1); Cross Country (1); Dramatics; Varsity Club.
“Bill” is a quiet lad but those who know him well know that he has an unfailing sense of humor and a willingness to pitch in and help out in whatever task is underway which has won him many friends. He may be seen almost any day during the spring towing a roller around the track with his Ford or transporting the track team to and from the games.

ARTHUR HOLROYD MOORE, JR.
"Lawrence Tibbett"
Bridgeport History
Freshman Track; Glee Club (1, 2, 3); Swimming (2, 3).
What’s that loud bellowing we hear coming from Koon’s Hall? Why that’s Art Moore (otherwise known as Lawrence Tibbett) exercising his vocal cords. “Art” surely can sing—or shall we say hellow? Anyway he makes a lot of noise and is quite an asset to the Glee Club.
GERALD R. MOORE, ΔΦ

“Jerry”

Campus Board.

Although this is “Jerry’s” first year with us, having come from Penn. State, it didn’t take him long to become acquainted. He is a tennis player of no mean ability, and he will surely prove an asset to the tennis team.

“Jerry” also goes in for those finer things in life, namely, “Glen,” and she’s not a co-ed either.

HENRY C. MORIARTY, Φ M Δ

“Moe”

Hartford

Zoology

Football (1); Newman Club (1, 2, 3); Campus Staff, Business Board (1, 2, 3); Circulation Manager, 1934 NUTMEG; Science Club (1, 2, 3); Cross Country (3); WCAC Players (2).

Henry, as nonchalant a young man as there is upon the campus, has been one of our long-distance runners on this year’s cross-country team. Not only has his interest been upon running, but he has extended himself into many other activities and there are many that claim “Moe” as a good fellow and a true friend.

JEAN H. MORRISON, Δ X Ω

Hartford

English

Monteith Arts (2, 3); Secretary (2); Home Economics Club (2, 3); Inter-Sorority and Club Council (3); English Club (3).

Congenial, sympathetic—no wonder Jean has a host of friends. Serious and conscientious she stands high scholastically. Her interest in others has been proven in her interest to help her pals out of trouble. One has a true friend in Jean.
MAYER R. MOSESSON, T.E.F

"Moe"

Hartford Chemistry
Rifle Team (1, 2); Connecticut Players (1, 2, 3); Science Club (1, 2, 3); Glee Club (1, 2, 3); Jewish Club (3).
The varied activities in which "Moe" has participated indicate his versatility. Aside from schoolwork, he spends his time collecting stamps and coins and experimenting with radios.
"Moe" is a crack shot on the Rifle Team.

HARRIET MUELLER

Chemistry
Co-Ed Class President (1); Monteith Arts (2, 3); Wel-Kum Club (2, 3); 4-H Club (1).
An excellent student, Harriet's name is always seen on the honor list. Outside of her love for her work, Harriet possesses a kind, sympathetic disposition. Decidedly reserved her attitude is one of gentility towards all. Ambitious and energetic her ability has gained her a distinctive place in our class.

FRANCIS T. MURPHY

"Murph"

New Haven Engineering
WCAC Players; Engineers' Club; Math. Club; Officers' Club; Newman Club; Campus Board (2, 3).
"Murph" is the boy who knows all the news that's fit to print before it's fit to be printed. It is also reported that he is something of a humorist. His hobby is arriving at Math. Classes late but that's only his revenge. His winning personality has won him a host of friends and should continue to.

57
FRANK NEIDERWERFER, ΑΓΡ

“Frankie” Poultry Husbandry
South Windsor Cross Country (1, 2, 3); Block and Bridle Club (2, 3); College 4-H Club (1, 2, 3).
“Frankie” is small in size but so was Napoleon and look what he did. Frank is one of our well-known “Hill and Dale’s” and a good man in intra-mural sports.

RALPH F. NESTICO, ΦΜΑ

“Nesty” French
Bristol Soccer (1); Debating Club (1, 2, 3); Glee Club (1, 2, 3); Newman Club (1, 2, 3); Science Club (1, 2, 3); Campus Staff; Business Board (1, 2, 3); Rope Pull Committee (2).
“Nesty” is by no means a stranger to the students of C. S. C. for he is a familiar figure at the dining hall and at the Saturday-night dances. Humor has always been a standby with “Nesty,” and his big smile with it is a common occurrence on the campus. Ralph is a good mixer and is conscientious in his work. With these qualities you can expect a man to make a name for himself.

JAYNE S. NEVIUS, ΦΔ

New Haven Psychology
Freshman Hockey; Conn. Players (2, 3); Radio Players (1, 2, 3); Swimming Team (2, 3); Glee Club (1); Nutmeg Board; Class President (2); Executive Council (2); Rifle Team (3); Debating Club (3); Pencraft (3); P. L. and R. Club (3); Theta Alpha Phi (3); Co-Ed Editor (3); Junior Costume Committee.
A talented co-ed, Jayne has exercised her ability in many fields. In addition to her athletic and social activities she also finds time for sketching, her favorite pastime. Her posters, too, have won her considerable praise. Over the air and on the stage her dramatic achievements have brought her fame. With so many extra-curricular interests it is difficult for us to comprehend how Jayne is also able to be a conscientious, brilliant student.

58
BENJAMIN NISON

"Ben"

Hartford
Poultry Husbandry
R. O. T. C. Band (1, 2, 3); Dance Orchestra (2, 3); Bankiva Club (1, 2, 3); Lambda Gamma Delta; Frosh Track; Frosh Cross Country; Varsity Track (2).

"Ben" has proved himself to be of a cheerful temperament and to be always willing to work. There are many on the hill who are eager to see him continue to make an enviable record for himself in whatever he undertakes in the future.

SYLVIA C. NORTHROP, ΔΧΩ

"Syl"

Bridgewater
English
Hockey (1); Secretary-Treasurer English Club (3); Conn. Players (3); Secretary, 4-H Club; Theta Alpha Phi (3); Decoration Committee, Junior Prom.

Dignified and serious though she appears, yet Sylvia has a mischievous nature at heart. Dependable and energetic she can be relied upon to fulfill well any of her many duties. She has also achieved much acclaim in dramatics. Well do we remember Widow Cagle and her corn-cob pipe.

MYRTLE PALMER.

Storrs
History

We usually think of Myrtle as being very quiet, but underneath there is a sincerity which is deep. She doesn't say much but we have reason to believe she does a great deal of thinking. Her agreeable nature and good sportsmanship have been proved by her faithfulness to her classmates and friends.
NORMAN G. PAULHUS

“Norm” Poultry Husbandry

Willimantic Bankiva Club.

“Norm” is a day student from “Willi” and takes little part in the campus life. He is a quiet, steady student and hits the high marks better than many of those who live on the hill. His interest in poultry has led him to seek further knowledge at this institution.

JULES PINSKY, Φ E Η

“Husky” Hartford Physics

Football (1, 2, 3); Basketball (1); Debating Club; Pencraft Cub; Assistant Editor of Pencraft Journal; Varsity Club; Blue and White Club; Mediator; Campus Board; Junior Program Committee.

A glance at this record will tell you that “Pinsky” has compiled a record that is to be greatly admired. Few men have the ability to excel in sports and at the same time to maintain a place on the honor roll and participate in all of the most important campus activities.

Despite his many endeavors, “Husky” has found time to cultivate a large circle of friends.

STANLEY J. POCHODOWICZ, Π A Σ

“Pokie” New Haven Mechanical Engineering

Officers’ Club; Engineering Club; Blue and White Club (2, 3); Baseball (1).

No one can truthfully say that “Pokie” has ever wasted a moment of his time. Perhaps it is because he is an engineer that he studies so much in behind closed doors but more likely he is reading the latest letter from the girl back home. Now and then he takes Saturday night off to visit the dance and fool with the co-eds, but it is only in fun for he also believes that the home products are the thing.
GEORGE A. POORE  
“Georgie”  
West Newbury, Mass.  
Dairy Industry  
Football (1, 2, 3).  
George is a quiet industrious youth, liked by all who know him. His wit, hearty laugh, and broad sense of humor have won him a high place among his friends. Those who know the ambitious nature of George are sure that he will have only the best of success in future years.

GEORGE POTTERTON, H A S  
“Pott”  
Manchester  
Biology  
Football (1, 2, 3); Associate Editor, Nutmeg; Vigilance Committee (2, 3); Mediator (3); Student Senate (3); Athletic Council (3); Varsity Club; Junior Executive Committee.  
A leader in sports, studies and activities is the career that “Pott” has mapped out for himself for his college life, and so far has been very successful in his undertaking. On the football field his brawn has blocked many plays from going beyond the line. Hard work keeps his marks in the upper part of his class, and after classes are over he is always hurrying to keep an appointment to some function of the campus activities.

WALTER REESE  
“Walt”  
Eastford  
Engineering  
Engineers’ Club; Math. Club; Officers’ Club; Rifle Team (1).  
“Walt” is a quiet boy if you don’t know him well but among his friends he unveils a wit which bows to none. As far as the courses are concerned he is something of a money player as he hits all his major courses for the proverbial loop. He doesn’t look bad in that uniform, either.
PAUL H. RIEZEL, JR.

"Reet"

Pawcatuck History
Band (1, 2, 3); College Orchestra (1); Dramatics (1).

Paul and his Sax are everywhere and always welcome. He does not seem to be serious with any particular co-ed but thrills them all with his magnetic presence. Oh, no!

"Reet" manages to keep up in classes and yet get the most out of campus life. He is a regular attendant at the Comm. House and the library yet not for study, for he knows how to get full enjoyment out of life.

MICHAEL M. ROTHBERG

"Mac"

New Haven Psychology
President, Jewish Club; College Orchestra; Dance Band; Frosh Swimming.

"Mac" is a transfer from N. Y. U. and his friends haven't yet decided whether his roommate "Quinn" is having a depraving or an elevating influence upon him. Let it suffice that, wherever he is, something is bound to happen. He has two hobbies, musical instruments and psychology, with which to try his roommates’ patience and from which, of course, he takes time out for studies.

MAURICE SAGER

"Mash"

New Haven German
Football (1, 2, 3); Frosh Track; Basketball (2); Baseball (1); German Club.

Hillhouse sent us "Mash" with his ready smile and easy laugh. Even though somewhat inexperienced as a center on the football team, yet his willingness to try saved us from a tight spot when everyone else was flat on their back from injuries. Although much of his time is spent on the athletic field, yet he can always find time to visit the library for a social hour.
FRANK SCHMIDT
West Willington
Bacteriology
Officers' Club.

If you expect to know everyone on the campus by just noticing those who air their lungs frequently, you will never find the best. There are many who never speak a word yet they are just as worthwhile as the others. Frank is one of these. He may not partake of many activities or speak up above the crowd, but you have to visit him in his room some night to really know him.

CHARLES SHERMAN
"Charlie"
Hartford
Economics
Campus (1, 2, 3); Managing Editor (2); Associate Editor (3).

"Charlie" is one of the little-known behind-the-scene leaders on the hill. He has helped the campus through three years of its history and will probably continue to do so until graduation. His interest in newspaper work has led him to neglect other activities on our campus. Quiet and steady as he is, there probably is some newspaper ready to claim his services as soon as commencement is over.

MURIEL C. SHEW, ΦΔ
"Boots"
Hartford
Nutrition
Radio Players (1, 2); Pencraft (3); Glee Club (1).

A better friend is hard to find. "Boots’" ability to write was realized when after the formation of the Pencraft Club, her contributions were highly desirable for such ability is not easily found. She has also supplemented this literary work by writing for the college paper. Possessing an amiable disposition and always good natured "Boots" can be counted in on the fun during any good time.
JAMES S. SICKLICK, ΤΕΦ

“Jim”
New Britain Dairy Manufacture
Football (1, 2); Basketball (1); Track (1); Blue and White Club (2).
Big “Jim” is genial and a popular man among the fellows—the co-eds too, to judge from a Saturday night jig. He is one of the first string linemen of the football team and saw plenty of action during the past season.

GEORGE DANIEL SMITH, ΘΣΧ
New Haven Mechanical Engineering
Track (1, 2, 3).
George has had a checkered career as far back as we can trace him. He drove a taxi before coming to college, but he still seems to be afraid of outboard motor boats. At the Shakes house, he may be heard above the noise trying to get in a word edgewise, “Let me have audience for a word or two.”

WILLIAM SMITH, ΗΛΙΗ
“Smitty”
Newington Engineering
Soccer (1, 2, 3); Vice-President, Sophomore Class; Mediator Member; Engineers’ Club (2, 3); Junior Executive Committee.
“Smitty” is the boy that causes many heart-palpitations down in Holcomb as well as on the soccer field. His motto is “Kick while the shins are sore but make them sore by kicking.” Here’s hoping he makes the goal of success as surely as he kicks the goals for C. S. C.
MARK M. SOLOMKIN, T E Ψ

"Mac"

Hartford Chemistry and Economics
Track (1); Soccer (1); Debating Society (1, 2, 3); Secretary (2); Science Club (1, 2, 3); Vice-President (3); Mediator (3).

With his impartial and level-headed point of view, "Mac" has won many firm friends. His ability to voice these opinions in a convincing manner accounts for his place on the Debating team for three years.

CAROLINE E. SPERRY

"Carol"

Seymour Home Economics
Social Committee (1); Hockey (1); 4-H Club; Monteith Arts (1, 2, 3); Home Economics Club (1, 2, 3).

Her well-known smile, her ready willingness to help others and her friendly disposition easily characterize "Carol." She's always in on the fun, and faithfully does her part when called upon. By the way, "does anybody want a ride?"

RONALD BURDELL STEVENS

"Ronnie"

Middletown Economics
Cross Country (1); Rifle Team (1, 2, 3); Track (1); Officers’ Club; Stamp Club.

"Ronnie" takes school seriously and seems to have great things in store for him. He promises to be one of the leading men in the R. O. T. C.

"Ronnie" may be seen strolling about or seated in the Castle with one of the co-eds at any time after class and before nine-thirty. He appears to be serious about Jayne even to the extent of spending most of his summer vacation in and about Milford.
JACQUELINE D. SYKES

"Jack"

Mansfield Center French
Honors (1, 2) ; French Dramatics; Pencraft Club (3).
"Jack" is one of the most ambitious persons on the campus. Not only has she shown ability in French and French plays, but she also makes the honor roll. One can always count on her attendance at all the school athletic games. All in all she's an all-around student.

IVAN WEINBERG TAMSKY

"Tam"

Woodmont History
Soccer (1, 2, 3); Basketball (1); Officers' Club.
"Tam" is a brilliant student who spends most of his time with the books. He is quiet and serious minded. Tam has great things in store for him in the field of history and German literature. Perhaps his greatest accomplishment at college has been his utter disregard for the co-eds.

NICHOLAS TARASKY, Η Λ Σ

"Nick"

New Haven Mechanical Engineering
Science Club; Engineering Club; Math. Club;
Officers' Club; Assistant Manager, Basketball (3).
We found out who the "Czar" was when the "Mad Russian" dropped in our midst from a place called New Haven. Most of his time has been spent in the A. A. Department but, now and then, he finds time to deliver to all who desire to hear, an oration on the advantages of living in Russia in the days of old.
LEWELLYN TURNER, ΗΛΣ

"Lew"

Paterson, N. J. Teacher Training
Soccer (1, 2, 3); Track (1); Bankiva Club; Grange; Lambda Gamma Delta.

Since the first day of his freshman year, "Lew" has been one of Miss Carr's regular helpers. For three years he has played basketball for the scullions.

The co-eds have never known "Lew" and never will, for he has left the future in the hands of the best in "Willi" or anywhere else. How he manages to spend so much of his time off campus and yet rate in the upper quarter in his studies, is a mystery no one has ever explained.

WILLIAM M. TYNAN, ΑΦ

"Bil," "Ding"

Middletown Chemistry and Zoology
Connecticut Collegians; College Band; Symphony Orchestra; Mediator; Science Club; Frosh Track.

As you can see "Bill" is quite active in the music circle on the campus. The fact that he has been a member of every band and orchestra on the hill accounts for this.

But music does not occupy all of "Ding's" time, for he is also preparing himself in his work in the field of medicine. He has our best wishes.

EDWARD LEWIS UHL, JR., ΠΑΠ

"Uhly"

Woodbridge Engineering
Frosh Soccer; Frosh Track; Engineers' Club; Campus (1, 2, 3); Conn. Players (2, 3); Nutmeg Board; Track Manager, 1934.

"Uhly" is a good-natured fellow with a mind that is able to encompass a variety of interests as is evidenced by his extensive participation in extra-curricular activities. Wherever he is there's bound to be some fun but, nevertheless, he has his serious side and does whatever task he is engaged in well. His hobby is keeping himself out of the clutches of the co-eds.
MILDRED I. VALCOURT

"Frenchie"

Hartford  French
French Dramatics; Honors (2).
"Frenchie" as her nickname suggests is one of our eminent French students. We are grateful to New Britain Teachers' College for sending her to us. Her readiness to help is appreciated by her classmates. Everything "Frenchie" undertakes is accomplished with a bang. Didn't she "hit" the honor roll.

JOHN VITALE

"Johnny"

New Britain  English
Freshman Baseball; Baseball (2, 3).
"Johnny" is one of the more modest athletes of the school—and an athlete he is, too. Not satisfied with playing during the school season, he goes around the State in the summer playing semi-pro baseball. We never see "Johnny" without his smile and dry humor. "Johnny" is a hard working student as well as a very congenial fellow.

D. ELIZABETH WALLACE, ΥΣ

"Lib"

Southington  Home Economics
Glee Club (2); Swimming Team (2); Secretary, Class (3); Social Committee (3).
"Lib" came to us from Mt. Ida Junior College and immediately became known for her sunny disposition and winning personality. "Lib" is one of the most sought after co-eds for she has helped to brighten many a dull moment and lighten a heavy heart. Does she like fun! Can she play "Chloe!"
CHARLES WARREN, ΑΓΡ

"Charlie"

Stratford  Mathematics
Math. Club (2, 3).

"Charlie's" chief interest is math., with basketball and pool running close second. He's not much of a hand with women but he can hold his own with a bunch of fellows in a bull-session or a ball game. "Charlie" never worries much and is always ready for a little fun.

CHARLOTTE A. WEAVER, ΓΣ

"Lottie"

Torrington  Zoology
Freshman Hockey Capt.; Hockey (1, 2, 3); Basketball (1); Archery (1); Campus Board (2, 3); Co-Ed Editor (3).

A smile from "Lottie" assures one that she is up to something. Although dignified and well-poised, she can also be the fun maker in any crowd. Athletically, she is ambitious. She is one of the mainstays of the hockey team, being a capable and dependable player. On the Campus board she is an efficient and steady worker. "Lottie's" social position is also well established. Her friends find her a loyal companion.

GEORGE WOODROW WEIGOLD, ΘΣΧ

"Wiggy"

Torrington  Dairy Manufacturing
Swimming (1, 2, 3); Connecticut Players (1, 2, 3); Theta Alpha Phi (3); Campus Board (3); Chairman, Junior Prom Committee.

"Wiggy" is one of the high-brows of the campus. He is active in all kinds of activities and may often be seen at Holcomb Hall. George has been active on the Campus writing articles on his last summer's travels abroad.
KATHERINE WEILAND, ΔΧΩ

“Kay” Home Economics

Old Lyme
Hockey (1); Basketball (1).

A conscientious student, “Kay” does not confine herself wholly to her studies. Her friendship guarantees loyalty to her associates. Amiable and courteous to all. “Kay” has developed a lovely personality, thinking much and saying little. Her thoughts are her secrets and only a few have had the privilege of becoming her intimate companions. She takes her duties seriously, carrying them out successfully. A wealth of character lies behind her quiet poise.

WALLACE WOLLOCK, ΠΑΠ

“Wally” Forestry

Deep River
Rifle Team (1, 2); Freshman Baseball; Forestry Club; Officers’ Club (3).

“Wally” is a quiet man except when he is with his pals. He is a hard worker, but he has been seen wasting his time on pool in the fraternity rooms and down in “Willi” with Chauncey, his better half.

BARBARA F. WOODFORD, ΓΣ

“Bobbie” Mathematics

Avon
Hockey (1, 2, 3); Baseball (1); Swimming (1, 2, 3); Basketball (1, 2, 3); Second Honors (2); Sophomore Initiation Committee; Victory Dance Committee; Mathematics Club (2, 3); Secretary (3); Athletic Council (3).

“Bobbie”—the swift hockey player, diver, baseball and basketball flash. “Bobbie” possesses a quick mind adding scholastic laurels to her athletic dexterity. She is one of our foremost Math. students. “Bobbie” and her sidekick “Gigi” may always be depended upon to enliven one’s spirits.
ANATOLE ZACKO, ΦΜΔ

"Tola"

New Britain.

Football (1, 2, 3); Baseball (1); Track (1, 2); Basketball (1); Campus Staff (1, 2, 3).

Rumor has it that "Tola" has been very successful with the women in New Britain and with certain normal school girls. As yet, however, he has not captured the heart of any C.S.C. co-ed. What seems to be the trouble, Anatole? Aside from being a great man with the women, he has created many friends of his own sex while on the hill.
HISTORY OF THE CLASS OF 1934

We came in search of knowledge. We stayed to get not only that knowledge but also invaluable training in extra curricular fields and a host of precious memories of happy times and friendships made. There is not one of us who has not gained something not only from our stay here as students, going to classes and securing learning from our instructors, but also as people experiencing the tranquil beauty of the Spring-clad hills, and the turbulent snowiness of a Storrs winter.

We shall always remember our freshman bewilderment, our brave battle against great odds in the Rope Pull, and our fighting comeback in the Pig Roast. Sophomore year brought with it the ease of familiarity, joy in beating the Frosh at Mirror Lake, and disgust with ourselves at letting them walk away with the Porcine Contest. Junior year came along, and we settled down with a new seriousness to our work, beginning to realize that our undergraduate days were drawing to a close. We joined in the general jubilance when we were finally recognized as “State,” garnering no little satisfaction at our part in the victory. We watched the lower classes enjoying the same traditions that we had experienced, and saw new ones being established. We grumbled a little, but were proud of the increased scholastic requirements. We ended the year in a blaze of glory with a grand “Junior Week.”

Now we are seniors. We can hardly realize that this is our last year. We have seen a new marking system come in, and recognition of the institution by other schools. We have seen the school and grounds gradually improving in appearance, we have taken part in the many arguments and troubles of the student body, and now we are about to end our undergraduate careers. What the future holds no one knows. A world under economic stress and social changes faces us; may the training we have received here serve us well.

HISTORY OF THE CLASS OF 1936

We arrived on the "hill" in the autumn of '32, one of the largest Freshman classes ever to enroll in this college. The majority of us plainly displayed our lack of seasoning and were on the receiving end of many humiliating jokes, which the Sophomores played. Our attempt at winning the Rope Pull was in vain. We lost to an experienced class who proved to be superior in many ways. We retaliated in the very near future by sadly defeating the over-confident class of '35 in the traditional Pig Roast. The days passed quickly and the closing year found our quantity changed to quality.

Those of us who returned in the fall of '33, were wise and experienced. We returned with the discarded tradition of Freshman hats. We set out on a program of leniency toward the Freshman but concluded with one of continuous hazing. The class of '37 roasted their pig with dire threats in mind and unfortunately they won.

It was about this time that we settled down to concentrated study and although many of us did not make first honors many of us reached second honors. The present writing finds the class of '36 striving toward that goal that all students soon hope to attain—Graduation.

Freshman Class Officers

JOHNSON, President
MORIARITY, Treasurer

STEINMAN, Vice-President
HOGAN, Secretary

HISTORY OF THE CLASS OF 1937

On September 16, 1933, Connecticut State College opened its doors to a new group of freshmen—276 of them. They were not unlike other freshmen, but they displayed an unusual amount of fight and loyalty.

On Dad's Day, after an exciting football game with Trinity, a crowd gathered around Mirror Lake to witness the annual sophomore-freshman Rope Pull. In keeping with tradition, the sophomores won and although the day was bitterly cold, the freshmen waded gallantly through the icy waters.

However, the frosh did not lose the next struggle against the sophomores. At the Pig Roast they had the mighty sophs completely baffled. The frosh came through victoriously and announced the name of their class president, the names of the vice-president, secretary, and treasurer having been announced previously.

With these trials safely passed, the freshmen made prominent places for themselves in the fields of athletics, debating, and dramatics. Some even won outstanding ranks in scholarship.

Then came the upsetting crises of mid-year examinations which eliminated a few of the classmates. The majority that remained straightened their shoulders and looked forward to a happy and profitable spring.

ACTIVITIES
In the early fall of 1911, a small group of students of the Connecticut State College banded together for the purpose of establishing a club whose main objective was to promote social contact and to encourage a greater love for the Arts.

With this purpose in mind the “Athenian Club” was formed with Herbert Steete as president, John Pease, vice-president and Harold Brundage, secretary. The “Athenian Club” met weekly in the Zoology lab. in historic old Main. It was not long, however, before it was found necessary to find another headquarters due to the growth of the club. In 1912, the “Athenian Club” was granted permission to rent a basement room located in the Southeast section of Koons Hall. It was also during 1912 that the club became a Greek letter fraternity and the name Alpha Phi fraternity adopted.

As the years passed the membership of Alpha Phi grew to such an extent that it became imperative that a new location be found to accommodate the group.

In 1929, Alpha Phi took the greatest progressive step in its history. It obtained the beautiful Seckerson house located on Faculty Row. The venture was indeed a success but due to the large increase in membership it became necessary to make a change.

In September, 1931, Alpha Phi obtained the roomy and homelike Wheeler residence, its present house, which made the ideal location for Alpha Phi.

In the year 1910, eleven students with the encouragement and aid of Professor Henry R. Monteith organized a fraternal society dedicated to the improvement of the members in matters of a political and literary nature. This organization was called the Scroll and Pen.

In 1912, the society was reorganized and became a Greek letter fraternity known as Sigma Alpha Pi. The fraternity carried on under this banner for ten years but in the early twenties the problem of whether or not to go national was brought up. It was finally decided that the fraternity should go national. A petition was submitted to the national fraternity Alpha Gamma Rho. The petition was granted on April 27, 1922, and on May 13, 1922, the installation was held and Sigma Alpha Pi became Upsilon Chapter of Alpha Gamma Rho.

Alpha Gamma Rho was founded at Ohio State University in 1904 and in 1908 it united with Delta Rho Sigma of the University of Illinois. The two fraternities drew up a constitution and organized the national fraternity of Alpha Gamma Rho. Since then the fraternity has grown steadily and now has thirty-two chapters and about five thousand members.

Upsilon, the local chapter of Phi Epsilon Pi fraternity, was initiated into the national body in the spring of 1916. Starting with only a few members Phi-Ep has chosen to remain exclusive, and its ranks have never totalled more than fifteen members. The strong point of the fraternity has been its scholarship record, and it has held the Governor Trumbull scholarship cup a number of times. In addition to making its mark in the scholastic world, Phi-Ep has sent men into every field of activity at Connecticut State.

That Phi Epsilon Pi fulfills its job as a fraternity is shown by the multitude of alumni who attend every event on the fraternity's calendar. It is not unusual at a Phi-Ep function to find that the enthusiastic alumni outnumber the active men. Supporting the chapter in every possible manner it may well be said that the alumni are the backbone of the local group.

Nationally, Phi Epsilon Pi stands out as one of the leading social fraternities in the country. At the present time, it maintains strong chapters in 32 of the leading colleges and universities, and numbers among its graduates many men of national prominence.

In the fall of 1892, a society known as the S. A. C. Club was organized at the Storrs Agricultural College, as the school was called then. This society was really the outgrowth of a previous club which had not been entirely successful. The following spring the name was changed to the “College Shakespearean Club” and from that point on the “Shakes” flourished. When the World War came along, fifty members of the “Shakespearean Club” offered their services to the country and went into the war. Two of the members were killed. In the early part of 1921, the “Shakes” bought the land on which the house now stands, and later in the same year the house was erected. It was the first one to be owned by a fraternity. The Greek name, Theta Sigma Chi, was adopted in 1923. In 1931, the fraternity lost one of its faculty members, Professor George H. Lamson. He had done a great deal for the fraternity and was one of the most liked professors on the hill. In his honor the fraternity had a large portrait made of him, which now hangs in the living room of the house. In athletics “Shakes” has always been one of the leaders and hopes to continue in the footsteps of its former brothers in leading the way in its activities.

101
On May twenty-fifth, nineteen hundred and twenty-five, another fraternity was recognized by the authorities and added to the list of seven fraternities already in existence on "The Hill." This small group of ten men became known as Pi Alpha Pi and had as fraternity rooms the basement room in the south wing of Storrs Hall. The following year the fraternity moved to the north wing of Koons Hall where it remained until February, nineteen hundred and thirty-four, when it again changed location, moving to the east end of Hall Dormitory.

In the nine years of existence on the hill the fraternity has contributed several honor students, class officers, Student Senate members, two Central Treasurers, letter men, one major sports captain and well known students in many other extra curricular activities to the cause of the college field.

On October 26, 1893, in their first formal meeting, ten young men met in the Main Building of the Storrs Agricultural College, as our college was then known. They were, to use their own words, “simply a gathering of a few fellows interested in forming a literary society.” They called themselves the Eclectic Literary Society, or more commonly “the X.”

Close associations of its members resulted in the “X” spirit, that became a guide throughout all phases of their college lives. The gradual development into a fraternity was culminated in September 1911, when the name was changed to Eta Lambda Sigma fraternity.

Until 1906, meetings were held in various rooms and halls on the Campus. At that time, a room was secured in Storrs Hall, which housed the fraternity until 1923. From then, until January 1931, “X” occupied a house owned by the college, and located on Black Birch Lane. In that year they took the next progressive step, and purchased a house of their own, which they now occupy.

At the outbreak of the World War in 1914, a club was formed at Connecticut Agricultural College that was called the Cosmopolitan Club. As the years progressed, the membership of the club grew but the spirit born with the original members waned and the need of a change was apparent.

Accordingly, on December 12, 1922, a group of young men who still retained the enthusiasm of the club founders, met and drew up a constitution that was to be the basis upon which has been built the high ideals and straightforward purpose of the Sigma Phi Gamma fraternity. True brotherhood was the cornerstone flanked by friendliness and sincerity. Upon the shoulders of the eighteen charter members rested the responsibility of helping to shape the lives of many men.

Today, nearly twice the original number of men are carrying on the cause for which the group was organized. It is their desire to leave this campus knowing that the Connecticut State College has benefitted by the character developed through associations formed in this fraternity. It has been our privilege to have had the Inter-Fraternity Scholastic Cup four out of the eight times that it has been awarded, and the fraternity has been represented in most of the other activities on the hill.

The fraternity of Phi Mu Delta was founded in March 1918, growing out of the National Organizations of the Commons Clubs, which was founded at Wesleyan University in Middletown, Connecticut, in 1899. The chapters at Connecticut, New Hampshire, and Vermont were the mother chapters of the present fraternity. For this reason our campus is held dear in the hearts of every chapter and member of this national fraternal organization. These very grounds were the first upon which the ideals of this fraternity were first implanted, and, as is fitting of a mother chapter, have been honorably upheld ever since the day of their original expression.

From a small interstate union of three New England colleges, and a total membership of three hundred and three, Phi Mu Delta has developed in twenty-six years into a national organization extending from the state of Maine to the state of Oregon, and its membership roll now stands at over 2000.

A national convention is held every year during the latter part of December. Each chapter sends two undergraduate delegates and one alumni delegate. The purpose of this convention is to elect national officers, to report the business of the national fraternity, and to discuss the various problems of fraternity life.

Tau Epsilon Phi, a national Jewish fraternity, was founded at Columbia University on October 19, 1910. The fraternity became national three years later, with the founding of Beta Chapter at New York University on January 13, 1913. Five years later the organization was admitted to full membership in the interfraternity conference.

Tau Mu, the baby chapter of the fraternity, was installed at Connecticut on May 21, 1932. Its first location was in one room at the south end of Koons Hall, where it remained for only one year, when it moved to two rooms in the north end of Koons Hall. The membership has increased rapidly so that at present it is the largest national fraternity on the hill. The national organization is the second largest of its type in the country.

The fraternity has two publications, “The Plume,” the official exoteric publication, and “The Bulletin,” the esoteric publication.

THE MEDIATOR
THE INTER-FRATERNITY COUNCIL

Immediately after the World War an organization was founded at Connecticut Agricultural College to promote the interests of the college and to settle all disputes that concerned the student body, with relation to the fraternities. The power of the group was very limited, however, since the Board of Trustees dictated the governing rules to the Mediator, whose function it was to carry them out.

In 1922, the powers of the Mediator were limited to the fraternal affairs. From that time on rushing rules and other necessary regulations were drawn up to govern inter-fraternity activities by the organization but the group was yet to be unrecognized by the administration for a number of years.

In the spring of 1932, a movement was started to secure the recognition and backing of the administration. After much work on the part of several of the members the long sought for goal was attained, and the Mediator was transformed from a weak and unrecognized organization to a strong independent governing body for the Fraternities.

The Mediator consists of a Senior and a Junior representative from each fraternity. It promotes good feeling between fraternities, makes arrangements for inter-fraternity activities, makes rushing rules, and acts on all matters that are of inter-fraternal nature. It performs a necessary function for the successful maintenance of our fraternities at Connecticut.

THE NINETEEN
THIRTY-FOUR
NUTMEG
SORORITIES
The Delta Chi Omega sorority began as a secret organization about ten years ago. At that time the group consisted of six girls who were known as "The Glow Worms." The membership increased as the years passed, and the organization adopted the name "Delphian Club." On January fourteenth, nineteen hundred and thirty-two, the group was recognized as being definitely organized and was known as a Greek letter club under the name of "Delta Chi Omega." The members at this time petitioned the faculty for recognition as a sorority. This petition was granted at the beginning of the present school year, and the group has since been known as "Delta Chi Omega Sorority."

The membership has grown from the small number of six until at present it consists of about sixty-five including alumnae. The active members now number twenty-six.

Miss Marjorie Warren Smith, college registrar, is the faculty advisor of the sorority. Its patronesses are: Mrs. Preston R. Bailey, Mrs. L. W. Gellermann, Mrs. E. L. Jungherr, Mrs. R. I. Longley, Mrs. E. A. Moore, Mrs. W. L. Ritter, and Mrs. W. Stemmons.

Gamma Sigma sorority found its start in the dim dark ages of 1921, when a group of girls got together and decided to form a secret organization. In those days, the administration frowned on anything even remotely resembling a secret society, so this club was very much “on the quiet.” The group named itself “Ground Hogs” and chose four new members yearly during the second moonlight dance at the Co-Ed Formal, and indicated its choices by an orange bow on the left shoulder. The “Ground Hogs” continued somewhat in this manner until 1930, when, knowing that the sentiment of the administration had changed, they petitioned for formal recognition as a sorority, and permission to live in a Campus House. Both these petitions were granted in the spring of 1931, the group secured the former Seekerson House on Faculty Row, and adopted the name “Gamma Sigma,” the first sorority on the Campus.

Founded with the avowed purpose of promoting good fellowship among its members, stimulating scholastic interest, and working for the general welfare of the institution, Gamma Sigma has done its utmost to carry out these ideals. In the fall of 1933, Gamma Sigma purchased a silver loving cup to be known as the “Women’s Scholastic Cup” and to be presented yearly to the women’s group having the highest scholarship for the preceding year.

The three years since Gamma Sigma was recognized have seen many changes on the campus. We have aided in the formation of new sororities and in the founding of a Pan-Hellenic Council. We have seen the school gradually going through a meta-morphus and emerging as a State College. We hope that in the future the sororities on the Campus may continue to prove a potent force for good.

Patronesses of the organization include Mrs. R. E. Dodge, Mrs. H. A. Seekerson, Mrs. G. H. Lamson, Mrs. W. L. Kulp, Mrs. R. L. Gilman, Mrs. A. G. Skinner, Mrs. H. D. Newton, Mrs. G. H. Waggoner.

The Phi Delta sorority was originally a club founded on September 28, 1932, and was recognized by the faculty in November of the same year. A year later the club was recognized by the Committee on Student Relations as a sorority. Miss Esther Dodge has acted as advisor to the group since its organization. Dr. and Mrs. Kessel and Dr. and Mrs. Saul are patrons of the sorority. The charter members are: Genevieve Riley, Mary Alice Barnum, Barbara Hobron, Elsie Cleveland, Carol Prete, Jayne Nevius, Eleanor Rossberg, and Muriel Shew.

Phi Delta pledged for the first time in February 1933. The sorority did not choose to pledge during the 1934 rushing season.

Early in November 1932, a group of twelve girls, who for about a year had comprised a secret organization known as the Cosmic Club, became known as Sigma Upsilon Nu. By the end of November of the same year we were recognized by the Faculty as Sigma Upsilon Nu Club. On February 16, 1933, we pledged our first group of freshmen girls to membership, at the end of the first co-ed rushing season in the history of the college. This year was a transition period for this newly organized group, brightened by picnics, parties at our headquarters at Four Corners, and other social activities. Dr. E. Charlotte Rogers accepted an invitation to be our advisor; and eight other women prominent in campus affairs became our patronesses: the Mesdames, Brown, Cheney, Crandall, David, Schenker, Davis and Washburn, and Miss Whitney.

Our policy of promoting learning and culture was in part carried out by speakers giving talks on topics of general interest after some of the regular meetings. We also took advantage of the opportunities offered at the Music House for listening to classical music. We strive for higher scholastic standing. Contact was kept among the members of the sorority by having a summer reunion dance. The formal and informal parties held throughout the year kept bright our spirit of fellowship and friendship which we desire always to cultivate.

The Theta Psi sorority originated as a secret organization known as the Pleiades. This club started in 1931 with five charter members. Its name came from the ancient Greek myth concerning the seven sister stars. Each sister star represented an aspiration with scholarship as one of the outstanding goals to be achieved.

On October 8, 1932, the Pleiades were recognized by the faculty as a Greek letter club, and changed its name to Theta Psi. It had the distinction of being the third Greek letter organization to be officially recognized by Connecticut State College.

After a year as a Greek letter club, Theta Psi became recognized, in December 1933, as a sorority. It now has eleven members.

Miss Pearl Lasker is faculty advisor for the group. The patronesses are Mrs. Arsene Croteau, Mrs. H. Carter, and Mrs. Sumner A. Dole.

The officers are as follows: President, Vivian Cohen, '34; Vice-President and Treasurer, Rene Kaufman, '35; Secretary, Anne Cohen, '35.

The Theta Psi sorority is active socially, having had many successful formal and informal functions. It has also upheld one of the traditions upon which it was founded—scholarship.

NUTMEG
HONORARY FRATERNITIES
The Druids is a secret senior fraternity composed of those men in the senior class who have taken a leading part in student affairs and whose activities have tended to promote the welfare of the college. The members of the organization are tapped in their Junior year by the then Senior members of the Druids. The object of this secret fraternity is to promote activity and maintain and raise the standards of the institution.

Originally founded in 1921, the original Druid organization has existed until the present, and as an organization has been active in promoting student activities, tempering student opinion, and otherwise influencing student and college policy.
Gamma Chi Epsilon was founded in 1917, with a membership of five students and four faculty advisors. The object of this honorary fraternity is to promote scholastic standing, participation in college activities, and moral character.

Membership in Gamma Chi Epsilon is limited to those members of the Junior and Senior classes who have completed five semesters of study at Connecticut State College and who have, in the estimation of the present active members of the fraternity, qualified as to the principles for which the fraternity stands.
Alpha Tau Phi, Honorary Engineering Fraternity at Connecticut State College, was organized in the fall of 1921. The constitution was adopted and the fraternity officially recognized by the college authorities on January 17, 1922.

The fraternity was organized for the purpose of furthering engineering interests and promoting scholarship. The organization consists of Active, Associate and Honorary members. Active members are chosen from those students in engineering at Connecticut State College who have earned the highest scholastic ranking during their first five semesters at this college. Sophomores, who at the end of their second year, have a grade of ninety per cent are automatically elected to Alpha Tau Phi. Upon graduation all active members become associate members. Honorary membership is conferred upon those of the Faculty in Engineering who receive the unanimous vote of the active members.
The local debating club is organized as the Connecticut Alpha chapter of Pi Kappa Delta, a national honorary forensic fraternity in 1923. Practice debates are conducted at the regular meetings. Debates with several colleges are held annually and it is by participation in one or more of these debates that students become members. Harry Becker, '34, was elected president during the past year and has since then increased the scope of the club’s activities until it is now a power to be reckoned with among the colleges on the eastern seaboard. Other members are Russell Brooks, Howard Martin and Patrick Fontaine.

Lambda Gamma Delta is a national, honorary, judging fraternity. Active membership is limited to those who have represented their college on any one of the following judging teams in a contest; Dairy Production, Dairy Products, Animal Husbandry, Poultry, and Fruit Judging.

In addition to inter-collegiate judging the local chapter sponsors annually, a high school judging contest which is open to any high school in Connecticut having a vocational agricultural department.

The national president of this fraternity is Mr. Harry L. Garrigus of our own college staff.

VARSITY BASKETBALL

The varsity girls completed a successful season, winning five out of nine games. The number of recruits this year was large and three good freshman players played varsity all season.

Captain Raley, a stalwart veteran player, and a new freshman flash Hogan, displayed an amount of skill and dexterity long absent from our court. Kozeski, a star frosh guard, played an excellent game, the other wing of the position being shared by Woodford and Cook who played equally well. At center, Hageman and Warner, another frosh find, exhibited some nice rapid passing. Carpenter and Hageman substituted at the forward positions and played exceptionally well together.

The girls downed Rhode Island in both of their games with the rival sextet and were also victorious in both meets with Upsala. Successful against the Alumni also, the girls lost two games to N.Y.U. but with close scores.

Their successes this year equalled those made by the hockey squad a fact for which the girls are justified in feeling proud.

Prospects for next year are running high for with the addition of more freshmen to the already efficient squad we anticipate fine results.
Winning three and tying one of its six games, the varsity squad ended its season with a successful record. The girls lost to Beaver, but were victorious in one of their two meets with both N. Y. U. and Rhode Island. Playing Posse-Nissen the girls beat them three to one. Two of the cleanest shots made within the last two years were made during this game by Captain Hurlbut a swift wing and Woodford at right inner.

The steadiest, most outstanding playing of the season was done by E. Kennedy and Terrace at fullback positions. Brooks, a freshman, did nice work as goalie. Curtiss, a new man on the team, played well at left wing. Longley played a steady game at center halfback supported by Heilman at right half and Seekerson a new recruit at left half. Cook also played a good game at inner and center forward positions. Hagman and M. Kennedy showed promise of becoming regulars on next year’s squad.
FRESHMAN HOCKEY

The freshman hockey girls gave evidence of a successful year for the squad next year. The new members many of them having their first experience with a hockey stick worked up to an efficient group. Hogan, Northrup, and Griswold are expected to be used on the regular squad.

The Student Senate is the legislative body of the Student Government at Connecticut State College. From a meager beginning in 1915 this body has developed into a strong system of centralized government.

The original object in forming a student governing body was to overcome the breach existing between faculty and students. The result was the expression of student sentiment. Gradually the student mass meetings became ineffective and unwieldy. From this large group evolved an executive committee having no definite powers other than that of recommendation to the student body. In 1921, the Student Executive Committee suggested a permanent organization of a Student Senate consisting of members from the various upper classes. The object of such a group was to be the development of a cooperative feeling between students and faculty. Not until 1928 were any specific powers granted to the Senate. At this date the right to assume responsibility as to Fraternity rushing rules was established.

In 1929, the question of financing the various clubs and publications was brought before the Senate. After considerable consideration had been given to all possibilities of financing such organizations it was regularly voted to have an Activity Fee assessed each student and fund resulting to be allotted to the various organizations by the Student Senate.

In the same year an executive committee was chosen from the Senate to handle all disciplinary cases and to make recommendations to the President as to handling these cases.

The dual system of student organization with unspecified powers and a Senate with limited powers existed until 1933. The conflicting work of such groups ceased with a thorough reorganization. An Associated Student Body was recognized consisting of all members of the Student Body. The actual governing body was designated as the Student Senate. The reorganization has made all organizations subject to the Student Senate thus bringing about a strong centralized student government.
Connecticut Players
Dorothy Griswold, President

The work in dramatics is carried on by the Connecticut Players under the supervision of Professor H. A. Seckerson. Not only does this organization produce several plays on the hill each year, but it also carries its productions to all parts of the State. Membership in the Connecticut Players is limited to thirty-five students, chosen from those who show interest in dramatics and ability in some of the various branches of dramatic art. Membership in the Connecticut Players is a step towards membership in Theta Alphi Phi.

Coss, Captain
Dole, Coach
In the opening encounter of the season, Connecticut easily defeated Cooper Union at Storrs by a score of 19-6. The success of winning the first start in two years was marred only by the injury which "Joe" McCormick sustained, putting him out for the rest of the season. The visitors were hardly a match for our eleven and after the first half, when a comfortable lead had been established, Coach Dole sent his reserves in. They, in turn, played the visitors to a standstill. "Jack" Kelley, shifty quarterback, ran up thirteen of the points by his shifty end runs, while Cronin featured with his line bucking and "Vitty" Grimala with his punting.

Having started the season off right, the Nutmeggers were taken down a notch by a strong Vermont team, 36-6. Although the score would indicate poor play on Connecticut's part such was not the case. In the first half the Vermonters scored five touchdowns, running through a fighting State machine almost at will. The second half of the encounter, however, showed a marked reversal of form, with Connecticut holding the Vermont eleven to only one score while Cronin bucked the line to give State its only touchdown and outplay the Vermonters in the second half.

Hopes of a successful season started to dwindle when Connecticut again went to defeat at the hands of Wesleyan by a 19-0 score.

Early in the first period of the game, Burton, star for the Cardinals, recovered a Connecticut fumble which was pushed over for a touchdown. In the second quarter, the Conn. line was ripped open by the Wesleyan linemen, allowing Burton to go through for another score. Following this the Dolemen made their first real threat with Kelley and Cronin leading the attack. The ball was carried 70 yards to the Wesleyan 14-yard line but the attack bogged down when Conn. just barely missed making a first down. The third and last touchdown of the game was scored early in the second half when Burton intercepted a forward pass. It was again carried to the three-yard line and on the next play was pushed
over. Pinsky, Rufleth, and Chubbuck played well on the defense for State.

Again hard luck followed hard on Connecticut’s heels when the Nutmeggers suffered a disastrous defeat by Mass. State through the medium of a strong aerial attack which accounted for five of Baystater’s touchdowns.

Early in the game the Baystaters took possession of the ball on Conn.’s 36-yard line due to a bad kick and pulled a reverse play for the first touchdown. They then completed a veritable barrage of forward passes after a fruitless Conn. march of 80 yards and brought the score to 27-0 as the half ended. In the second half Connecticut came back fighting. Skowronski and Groher carried the ball to their opponents’ 1-yard line; from here Cronin scored it. Again forward passes netted two more touchdowns for Mass. State to bring the final score to 40-7. Although the score shows a bad defeat Connecticut made more first downs than the Baystaters. Skowronski, Groher, and Pinsky, did yeoman work for Connecticut in this losing battle.

Connecticut was overthrown on the following Saturday at Medford by Tufts who administered a 42-0 defeat. The Jumbos raised havoc with our eleven, scrappy as it was. Tufts made four touchdowns in the first thirteen minutes of play and the first quarter ended with a 26-0 score. The second quarter was much more evenly matched, Tufts tallying only once.

In the second half, the Nutmeggers made their only scoring threat. Five bucks and passes brought the ball to the Jumbos’ 20-yard line, where penalties ruined Connecticut’s only hopes of scoring.

Despite the score, however, the outstanding features of the game were the wonderful defense play by “Nate” Alterman, who made most of the Connecticut tackles, and “Mike” Cronin, who was later chosen fullback on Tufts’ All-opponent Team.

Connecticut’s losing streak was destined to remain unbroken as Trinity took the honors, 13-0, before a large crowd of Dad’s Day visitors. The Nutmeggers made one bid for a touchdown, that being in the final period when the ball was on the Blue and Gold 15-yard
line. A 5-yard penalty for overtime in the huddle, killed this opportunity, however. Trinity scored late in the second quarter due to a grounded pass which was allowed because of interference. Kellam, big Trinity tackle, finally scored on a reverse play around Connecticut's left end after line bucks and end runs had taken the ball deep into State's territory. The second score came in the closing minutes of the game as the Blue and Gold men swept through our disheartened line. Poland's kicking featured for Connecticut.

Despite a string of defeats behind them large enough to discourage any team, Connecticut played Coast Guard to a 0-0 tie before a large crowd of Dad's Day visitors, keeping its six-year record of never having been scored on by Coast Guard unsoiled.

Penalties in the first and fourth periods put an end to Coast Cadet threats, while Nutmeg advances were stopped by the New London boys, one on an intercepted pass and another on a recovered State fumble.

This game showed the good merit of the team and indicated that with a few breaks the Dolemen could well hold their own against any team. The entire squad deserves commendation.

To close the season officially, Connecticut met Rhode Island in the annual traditional battle and emerged the loser 20-7 in numbers only, having out-played a stronger Rhode Island team throughout the game. The deciding break came in the last part of the second quarter to give Rhody their first score. The Rams bucked the line three times and were thrown back in no uncertain manner after each attempt. On the last down, "Bud" Fisher washed our line for a supposed touchdown, which as a matter of fact, hardly looked like one.

In the second half of the game, the Staters came back with a vengeance and through a series of runs and powers Kelley finally went over for our only score. The Rams retaliated with two more touchdowns to bring the final score to 20-7. Although Connecticut often threatened there was no further scoring. Our men gave everything they had in a battle from start to finish and every player deserves favorable mention.

Donahue, Captain
Heldman, Coach
Winning five out of the fifteen scheduled games on the formidable 1933-34 schedule is the record of the Connecticut State basketball team.

The season was opened in impressive fashion with a 40-30 win over the Alumni. The varsity hoopsters led, 13-5, at the quarter time, 22-10, at the half, rolled up an impregnable 30-17 lead at the three-quarter mark, and finished up ahead 40-30 with the second-string team playing. It was an excellent start for a tough schedule.

Following the Alumni tilt, however, came a defeat at the hands of Wesleyan, 28-21. The playing shown by the team was a great disappointment to those who had witnessed the opening game. Wesleyan took the lead from the start and were never headed during the remainder of the game. Connecticut threatened toward the close of the second half when Grimala, Donohue, and Shages sank baskets to make the score 24-20, but Wesleyan made two baskets to put the game safely away.

Again Connecticut was defeated when the Engineers of Worcester Tech. doled out a 41-35 defeat in an overtime game. At the half, Worcester was leading, 22-13, but in the second half Connecticut came back in fine fashion to tie the score, 35-35, as the regulation time ended. In the overtime period the Engineers sank three hoops bringing the final count to 41-35.

Following the W. P. I. loss, Mass. State put an end to hopes for a victorious season as they handed Connecticut the small end of a 37-31 score. The first half of the game was a walkaway for Mass. State, as they led, 25-9. The second half, however, was a hard fought battle. In the closing minutes “Jake” Lewis popped three baskets in a row to put Connecticut but six points behind but the gun ended the game. “Lou” Bush of Mass. State, lived up to his reputation and put on a flashy exhibition. Captain Donohue of Connecticut led the scoring for State with 9 points.

The Connecticut quintet looked much better as they defeated Clark U., 42-28. Using a new style of play, the State five found little opposition from Clark and were leading 22-9 at the half. Coach Heldman made frequent substitutions rather than run up the score and the second half was played on even terms. “Charlie” Brown, in his first game as regular center, led the team to victory, scoring 10 points.

Playing Brown at Providence found the Connecticut quintet pitted against a team just a shade too fast for them. The game was fast and close throughout, with
Brown leading at the half time, 19-13, but Connecticut came back with a rush and were within three points of the Bears after a minute of play in the second half. Brown held this margin until the last three minutes when they bombarded the basket successfully to win 40-31. Capt. Donohue starred for Connecticut.

Next came the Coast Guard game, a contest which received wide publicity, due to the barring of "Honey" Fitch, Connecticut State athlete. Because of the argument the game didn't start until 11 o'clock, and was rough and full of fouls. Coast Guard led 17-15 at the end of the first half. In the second half Gold scored eight of the 10 points to make his total for the evening 14 points and to bring the score to 25-19 in favor of Connecticut. In the closing minutes Lewis popped a long one to make it 31-27. The Cadets made a basket in the closing second as the game ended with a 31-29 win for Connecticut.

Feeling pepped up after their win from Coast Guard, Connecticut went to Boston only to be beaten in a close game, 37-33. The Nutmeggers outscored their rivals in the first half, 17-15, but lost out in the second half. Boston U., fresh from victories over Harvard and New Hampshire, had a hard fight to win. Gold scored four consecutive goals in the second half to tie the score, 29-29, with four minutes to play but Captain Garabedian of the Terriers then sank two shots to assure the outcome of the game for Boston.

In the closest game of any played so far, Connecticut took the honors from New Hampshire, 21-20, as Lipman sank a sensational shot in the closing minute of play. The first half was quiet with little scoring, ending with Connecticut ahead, 9-6. New Hampshire started the second period off with a bang as they scored three baskets. However, baskets by Gold, Shages and Donohue put Connecticut a point behind. The Wildcats spurted ahead again by 5 points, but Connecticut followed with two baskets and Lipman then tossed in the winning basket with thirty seconds to go.

The sensational win over New Hampshire was followed by a drubbing at the hands of a smooth Trinity quintet. Trinity led 17-10 at the half but had had hard work breaking through Connecticut's zone defense. The second half saw State offense go to pieces. The visitors took advantage of this and scored 14 points in quick succession to win, 31-15. Mortens and Daut starred for Trinity while Shages, a sophomore, was outstanding for Connecticut.
Having been defeated by a lesser rival, Trinity, Connecticut went to Kingston a bit disheartened to meet Rhode Island, their traditional rival and were swamped, 50-26. The first half was the exciting period as Connecticut put up stiff opposition and threatened in the closing minutes by bringing the score to 12-11. The second half was a runaway for Rhody. Harry Fitch and "Phil" Greasly, both second year men, starred for Connecticut.

Due to a blizzard a scheduled game with Trinity was postponed and Norwich University came next on the list. They were taken by the Nutmeggers, 32-27. It was a close game, the lead alternating. The first half ended 14-12 in favor of Connecticut. The second half found the teams battling away until Connecticut pulled away to a commanding lead in the last few minutes. Shages, Fitch and Greasley were outstanding for Connecticut. Leddy, Norwich Center, scored 18 of his team's 27 points.

In another close game, Springfield College took the long end of a 46-40 score to win. The crowd was kept on edge all evening by a real game. The score was tied five times, while the lead changed hands seven times. The half ended 17-15 in favor of Connecticut. After seven minutes of play in the second half the score stood, 29-26, for Gymnasts and kept climbing higher, but Springfield maintained its lead to leave the court victorious. Fitch, Shages, and Greasy again stood out for Connecticut.

In the return game, a confident Rhode Island quintet came to Storrs, received a jolting surprise from the newly found prowess of the Connecticut State five, but finally emerged victorious, 44-38. Connecticut went into an early lead on Harry Fitch's double decker but the Rams led by S. Martin and Aplin went ahead to bring the score at the half 18-17 in favor of Connecticut. The Rams came out into the second half with plenty of fire, sinking four baskets in first two minutes of play and finally emerged victorious, 44-38.

A powerful Trinity team burst Connecticut State's hopes of ending the season with a win by defeating them, 28-21. The first half was close and hard fought and found Trinity ahead 13-12 when it ended. The victors, however, jumped into a seven-point lead shortly after the second half started on baskets by Martens, Kelly and Kearns and then played Connecticut on even terms for the rest of the game. Shages was Connecticut's only man who had any success on the offense, registering 14 points.

Dole, Coach

184
BASEBALL SEASON

Connecticut got off to a bad start when Lowell Textile upset them, 9-6. Connecticut, playing loose ball, threatened only once with a late rally in the seventh. For a while it looked as though victory was close at hand, but the rally died as quickly as it had begun. "Nate" Lipman, catching his first varsity game, handled Calamari's offerings nicely.

On the following Saturday, Connecticut State lost its second game of the season, being edged out by Maine, 2-0. It was a close game from the first to the last inning as the score shows with Connecticut lacking the batting punch when opportunity presented itself. Fields pitched very well in his debut as a varsity hurler, but Romansky of Maine, displayed mid-season form to blank the Nutmeggers.

Then with two defeats chalked up, Connecticut went on a run-making rampage to completely rout a highly touted Clark team, 19-4, for its initial win. For a short while it seemed as though revenge wasn't made for Connecticut State, when a shower held up the game for thirty minutes but fortunately the game was continued with Connecticut making an inevitable deluge of runs. Captain Calamari pitched a very effective game and after State had a 10-run lead, coasted on to an easy win. Campbell, Weiner, Lipman, and Calamari were the big guns for Connecticut.

Seeking more victories, Connecticut was turned back by a strong Mass. State team led by Louis Bush in a tight 5-3 game. Bush, the visitors' threat, scored three runs and played excellent ball in the field. Connecticut made a bid for victory in the eighth when they scored
three runs, but the Mass. State nine tightened up and Connecticut scored no more. Erratic fielding offset the steady twirling of "Ray" Fields.

The next game was a victory for Connecticut, who routed Trinity, 12-4, before a large crowd in the feature of the Junior Week Festivities. Weiner, Connecticut outfielder, started the scoring with a home run after Trinity had scored three runs in the first. The Blue and Gold lead was overcome by State in the fifth when Campbell hit a circuit clout with the bases loaded to climax an eight-run rally. The rest of the game was a walkaway with Connecticut tallying three more runs.

Connecticut seemed to be playing in an alternate streak as New Hampshire took the honors, 6-2. Although Connecticut outhit the visitors five errors led to their downfall. White, twirling for New Hampshire, proved invincible in the pinches. He kept the home team scoreless after the fourth inning, beside leading the Wild Cat batters with a home run and a triple.

To make up for the defeat at the hands of New Hampshire, Connecticut State took an easy victory from St. Stephen by a score of 9-0. "Ray" Field held the visitors scoreless and at no time was he in danger. The whole team had a field day at bat with "Fred" Fagan hitting the only home run of the day.

With "Bill" Flynn on the mound in his first start of the year, Connecticut early trounced the visitors from Arnold, 7-3. Hard hitting and heads-up baseball, as well as good pitching made this an easy victory. Connecticut scored four times in the fifth to put the game on the ice. "Nate" Lipman contributed a home run in the seventh with two men on to end the scoring for the day. Sloppy fielding by the State team led to Arnold's scoring three runs late in the game.

With two successive victories tucked away, Connecticut met Rhode Island only to go down to defeat by a 12-8 score. Connecticut hammered Martynick hard for five innings to gain an early lead of 7-2. In the fifth
“Joe” Weiner doubled to score three runs, but Rhody came back in the last three innings to win. In the eighth, Aplin of Rhode Island hit a home run with the bases full to bring Rhode Island’s score to 12 and to end the scoring for the game.

Having lost to Rhode Island, Connecticut hoped for another win over its secondary rival, Trinity, but the Blue and Gold men tallied eight runs to State’s six. It was a close game, with the score see-sawing until Campbell of Connecticut, hit a triple to knock in two runs and give Connecticut a temporary lead. Trinity, however, came back in the ninth and scored two runs to win.

Still smarting from their first defeat at the hands of Rhode Island, Connecticut went into the game to even up the score. It turned out to be one of the closest and most exciting games of the season with Connecticut coming out at the small end of a 5-4 score. Martynick however, who pitched for the visitors was in rare form and pitched a marvelous game. Connecticut was lucky to get the four runs that it did get.

The Rhody defeat was followed by another when Connecticut lost a slugfest to Springfield College, 11-8. The Staters jumped into a four-run lead in the first, which was quickly overcome when Springfield scored 5 runs in the third. Again State forged ahead when Donohue singled to score two runs, but the Musclenien rallied to take a final lead which they held. Three pitchers were used by Connecticut in a vain attempt to stop the Springfield hitters.

Showing a decided letdown in the last game of the season, Connecticut met a 7-0 defeat at the hands of the Alumni. “Bey” Wilson, twirling for the Grads, held the State team to two hits. “Billy” Schofield and “Midge” Dorrow, shortstop and third baseman respectively, played sensational fielding games, besides contributing some timely singles to help roll up the score for the Alumni.
Hubbard, Captain

Anderson, Coach
THE NINETEEN THIRTY-FOUR NUTMEG
The 1933 track team had the honor of two record-breaking performances during the season. Milton Arnold, '33, set a new record in the javelin-throw with a heave of 176 ft. 8 in. in the inter-collegiate meet at Worcester, and “Dick” Fenton, '33, raised the high jump record to 5 ft. 9 in., bettering the old record by two inches. The outstanding men during the season were Arnold, Wissinger, Borden, Cronin, McCormick, and Captain “Len” Hubbard. All these men participated in two or more events winning one and placing high the others. Arnold and Borden carried off the individual honors in the Eastern Inter-Collegiate meet in Worcester, Mass., Arnold placing second in the javelin throw and Borden placing second in the mile run, being bested by the only man to defeat him in the mile during his varsity track career.

The team owes much to Knute Andersson who helped mould many fine performers and contributed much time toward the success of the team while a graduate student at the Connecticut State College.

Connecticut, 39½
Connecticut, 64   Mass. State, 71
Connecticut, 80½  Norwich, 50½
Connecticut, 40   Trinity, 86

Rhode Island, 95½
MINOR SPORTS
The 1933 cross-country team was the finest in the history. An exceptionally well-balanced team, they won all but the Rhode Island meet with perfect scores tying four or five men abreast. At the New England Championship Cross-Country Run in Boston, Connecticut placed fifth, Borden and Linley starring by placing 6th and 8th respectively. Later Linley surpassed the rest of his teammates by winning the Connecticut 5-mile Championship at Manchester on Thanksgiving Day. George Blank placed 2d and Abe Borden, 3d. Three times the team came within a few seconds of breaking records. At St. Stephen's, they came within 12 seconds of the 5-mile record tying five men abreast. On Connecticut 4½-mile course, they came within 14 seconds of the record set by Len Hubbard in 1932. At Rhode Island, Borden and Linley pushed Cotter, one of the best runners in New England, to a new record and equaled the old record themselves. The outstanding men during the season were Borden, Linley, Blank, and Sutliffe who invariably tied for first place. Due to a leg injury, John Giberman was replaced in the captaincy by George Blank, '33, who proved an able and inspiring leader.

Knute Andersson has the honor of putting out the finest cross-country in the history of the school and the team has shown by results its appreciation of his fine coaching.
The 1933 soccer team left in its wake a very poor showing, winning only one out of the seven scheduled games. Coach Dennerly's outfit, however, was beset by bad breaks all season.

The opening game with Williams at Williamstown was a 0-0 tie at the end of the first half, but in the third quarter Curry of Williams put in the only score.

Again at Middletown, Wesleyan defeated Connecticut, 2-1. Read scored for Connecticut.

This was followed by a decided win for Connecticut over Clark, 5-2. Tamsky was high scorer with two goals.

Playing in the rain and mud, Trinity overcame Connecticut by a 2-0 score. Again the Connecticut jinx followed the soccer team refusing to grant a score.

The Engineers from Worcester Tech. came to Storrs and left Connecticut on the short end of a 1-0 score. Matts, outside left for Worcester, scored the only goal.

On the following Saturday, Mass. State came to Storrs to emerge victorious, 2-0.

In the final game of the season the Staters journeyed to Annandale only to be beaten 3-2 by St. Stephen's to bring a disastrous season to a close.
The 1933-1934 swimming season was the most successful since the inauguration of the sport five years ago. Their record of six wins and three defeats in intercollegiate competition is particularly notable since the team was coached by a student, “Scotty” Little, who succeeded Carl Wissinger.

The season opened with Connecticut losing a heart-breaker to Worcester Tech, the meet being decided by the relay. The 43-34 defeat was directly attributed to the lack of reserve material inasmuch as Connecticut won five of the nine first places. Following this loss, Connecticut hit their stride and romped over Boston University and Union College of Schenectady. In the B.U. meet which Connecticut won 61-16, Standish, dependable distance man, succeeded in overcoming stiff competition by Steele and won the 220-yard free style to establish a new pool record of 2:26.6. Connecticut won the Union meet by a score of 50-27.

The meets with Amherst and Wesleyan, both held away from home, were lost by wide margins, the former winning 55-22 and the latter 60-17. Kelley of Amherst won the 100-yard dash in :56 to set a pool record. The Wesleyan team swept to victory with first in every event except the 440, and chalked up two New England Intercollegiate records and two new Wesleyan records en route.
Connecticut won the four remaining meets against Coast Guard, Trinity, Mass. State, and Rider College of Trenton, New Jersey. Four pool records fell in the 50-27 victory over Coast Guard. Standish set two, swimming the 220 in 2:28.8 and the 440 in 5:27.2, Prins of Coast Guard lowered the 40-yard dash record to 19.6, and the Connecticut relay team consisting of Longley, Lalley, Standish, and Weigold won that event in 3:59.4. Connecticut decisively won over the Trinity natators by a score of 50-27. Swimming against a team that had been beaten previously only by Amherst, the Staters captured eight firsts out of the nine events, and in so doing established four new pool records one being a new Connecticut State College record. Against Mass. State, Connecticut again won eight out of nine first places, winning the meet handily by a score of 49-28. The best race of the meet was between Weigold and Tirrell, the former winning by the narrowest of margins in 58.8. Connecticut's 400-yard relay team was outstanding, being clocked in 3:57.3 to set a new pool and college record for that event. To successfully close the season, the Connecticut team trounced Rider to the tune of 48-29. Featuring the meet was the battle between Bacon of Connecticut and Dipple of Rider, former middle Atlantic champion, in the 200-yard breaststroke. It was a close battle in which Bacon won by a body length in 2:48.9, breaking the old college record which he made against Trinity. Standish, swimming his last meet in his college career, set a new pool record in the 440-yard free style. Standish swam the distance in 5:38.2. The medley team also closed the season successfully lowering the mark to 3:22.2.

CHARLES L. BEACH
With the passing of President Emeritus Charles Lewis Beach on September 15, 1933, Connecticut State College lost a man who devoted his life to developing and strengthening the college at Storrs. During the twenty years of Dr. Beach's administration the enrollment of the college increased from less than two hundred to the maximum number allowed by legislative enactment. Insufficient wooden structures were replaced by The Mechanic Arts building, Hawley
Armory, the Poultry building, College Infirmary, the Dining Hall, Machinery building, four dormitories, and innumerable smaller structures. The establishment of the radio station, WCAC, was one of the many innovations of Dr. Beach's administration. When the Connecticut Federation of Churches proposed to erect a new church and community house at Storrs as a means of providing fuller religious and social facilities for the students at the college, Dr. Beach was one of the first contributors to the campaign fund and he was always one of the strongest supporters of the movement.

Dr. Beach, the son of Charles R. and Mary Jeannette Beach, was a native of Whitewater, Wisconsin, where he was born and reared in a choice country home. He attended the University of Wisconsin where he received B.A. and B.S. degrees, specializing in dairy husbandry. For ten years after his graduation in 1886 he was engaged in the milling business in his native state. In the same year that he began his work as an instructor at the then Storrs Agricultural College, he married Miss Louise C. Crombie in Milwaukee.

In 1896, when Dr. Beach came to Storrs, the dairy interests of the state were becoming increasingly important. During his ten-year stay at the college, valuable experiments were carried out in feeding and other phases of dairy husbandry, so that Dr. Beach gained the confidence and support of dairymen throughout Connecticut. His work at Connecticut was interrupted for two years while he was at the University of Vermont as an instructor of dairy husbandry. However, in 1908, he was called by a unanimous vote to the Presidency of the college which he served for twenty years as active President and for five more as President Emeritus. The remarkable development of Connecticut Agricultural College to the present Connecticut State College dates from his inauguration on September 15, 1908, to his death on September 15, 1933, twenty-five years later to the day.
At the time of his retirement from active duty an article was printed in the Connecticut Agricultural College Review which portrays his devotion to the college.

"The retirement of President Beach followed a severe illness of several months, part of which time he was at the Hartford Hospital under close observation of his physicians. Although now slowly recuperating, it has been known for some time that he considers his retirement to be advisable and friends of President Beach and the institution have felt that his recovery might be hastened by being relieved of active responsibilities.

"The growth of the Connecticut Agricultural College from a small farm school of low standards to its present status is largely a story of the genius, the foresight, and the unremitting labor of one man—President Beach. To the welfare of the college he has devoted a large part of his life. The years of constant devotion to the task of building the college, without adequate vacations or rest, have taken their toll of vitality. Naturally of a vigorous constitution, the President has driven himself relentlessly, without precaution for his own physical welfare. Still a comparatively young man about 62, his friends feel that he has years of usefulness before him but that a long rest, free from responsibilities, is imperative at this time."

Wesleyan University, at its ninety-fifth commencement held at Middletown, June 20, 1927, conferred upon Dr. Beach the degree of Doctor of Science. In presenting this honor, President McConaughy of Wesleyan paid high tribute to the contribution Dr. Beach has made to the cause of education and progress in Connecticut.

Dear to the hearts of the students and others connected with the Connecticut State College is the gift given to the school by Dr. Beach in the form of the Louise Crombie Beach Memorial Collection of oil paintings. The President was convinced that the students of the college needed more artistic background.
After long thought as to what gift he could best make in memory of his wife he came to the conclusion that a collection of oil paintings would be most valuable. He knew that it would be hard, impossible to persuade the General Assembly that it should make appropriations for canvases, as well as for the imperative needs of the college, so he went about buying a collection with his own funds. Dr. Beach, in donating the collection said, “My thought was that art is a character builder and that young people are greatly influenced by it. I realized how rare was their opportunity to enjoy it in pictures and I felt they needed it even more than students at city colleges who can go to museums. I arranged to have most of the paintings hung in the living room of the girls' dormitory because where the girls are, there the boys are sure to follow.” The collection was endowed by its founder and as time goes on it will continue to grow and to serve increasingly as a nucleus for the aesthetic life of the institution.

In closing, let us turn to the words of those who knew Dr. Beach best, who knew the value of his life at the college, as well as the man himself. The following quotation was drawn up by the faculty at the time of his death.
RESOLUTIONS ON THE PASSING OF PRESIDENT BEACH

"From 1896 to 1906, Charles Lewis Beach served with distinction as a teacher in the Connecticut Agricultural College and as an investigator on the staff of the Storrs Agricultural Experimental Station. From September 15, 1908 to July, 1928, he was President of the College, and President Emeritus from the latter date until his death, which occurred September 15, 1933—twenty-five years to a day from his assumption of his duties as President.

"It is futile to attempt an adequate evaluation of Mr. Beach's services to the college. He accepted the presidency of a small and little known institution of frame buildings, few students, and limited curriculum. He retired with the college housed in a modern plant, its student body grown to its legal and physical limitations and its educational standards fully accepted as of valid college rank.

"Patience, courage, and vision were needed in abundance in the twenty years from 1908 to 1928. Not until the closing years of his administration did the people of the state, generally, come to accept the views of the institution that President Beach had held from the beginning. That his success found him broken in health did not mar his later satisfaction in the increasing prestige of the college to which he had practically devoted his life. It was in keeping with his philosophy that the institution counted for more than the individual.

"To the large circle of devoted friends who had known him in his private relations as well as in his public career the passing of Mr. Beach brought a keen sense of personal loss; and many will cherish the memory of the man even more than they will that of the educator and the college president. His strong and rich humanity revealed itself in many ways—in his unfailing kindliness and courtesy; and in the sincerity and depth of his sympathies; in the spirit of helpfulness that he manifested toward all who came within the range of his influence; in his generous and unaltering support of every worthy cause; in his deep and genuine appreciation of all that was fine and beautiful in nature, in art, in literature, and in his fellow men. These are some of the qualities that won for him the love and admiration of the many who found their contact with him both a privilege and an inspiration.

"It is insufficient to speak of Charles Lewis Beach as a great educator, a great administrator, a great humanitarian; he was more than these—he was a great man."

ACKNOWLEDGMENTS

In these last few pages, permit the editor and manager to take this oppor-
tunity to mention those who have aided us in publishing the 1934 Nutmeg, and who have been interested with us in the effort to create a worthy publication.

Mr. Russell Knight, of the Howard-Wesson Company, whose untiring efforts and invaluable suggestions have done the most to create this book.

Mr. Thomas A. Tully, of The Tuttle, Morehouse & Taylor Company, whose willingness to please has been a decided asset to the editor and manager.

Mr. Joseph Rution, our photographer, who has always responded immediately to the ever-arising demands of the staff.

Mr. Walter Stemmons, our advisor, whose suggestions have helped prevent mistakes an inexperienced editor would undoubtedly have made.

Mr. Richard Fenton, Howard Merrill and Mr. Jerauld Manter, who have submitted many of the pictures buried within these pages.

To the members of the Nutmeg Board, without whose cooperation it would have been impossible to publish this year book.

FIRST FLOOR
CHARLES LEWIS BEACH BUILDING

OPEN THOUGHOUT THE YEAR
Nat.: “Did Dan tell you how much he loved you last night?”
Else: “No, but he went through all the motions.”

Prof.: “What is your worst sin?”
Muddy: “Vanity—I stand in front of my mirror for hours admiring my beauty.”
Prof.: “That’s not vanity, that’s imagination.”

And we’d like to place a small bet that the most cordially hated man at the castle, is the man who invented mirrors.

Prof. C. H. W. S.: “Now, Miss Woodford, if I lay three eggs here and five eggs here, how many eggs will I have?”
Bobby (with a questioning glance): “I don’t believe you can do it, sir.”

Advice to Freshmen: “Send your clothes to the Maverick, and get to know the names of the fellows in your class.”

Co-ed: “But Kay aren’t you getting Stan and Jim confused?”
Ditto: “Sure, I get Stan confused one night and Jim the next.”

Cronin: “I’m outa school again.”
She: “Again! What have you done now?”
Cronin: “I’ve graduated.”

Gellerman: “Miss Rossberg, why is your paper covered with quotation marks?”
Miss Rossberg: “Isn’t there a rule against plagiarism?”

Creevy: “My fortune is made.”
Couture: “How so?”
Creevy: “I’ve succeeded in crossing a homing pigeon with a collar button.”

LaPointe: “What’s the noise?”
Mansoff: “Ernie the barber is shaving himself.”
LaPointe: “What’s the conversation?”
Mansoff: “He’s trying to persuade himself to have a shampoo.”

W. P. Smith: “Do you neck?”
(We’ll let you guess who): “That’s my business.”
William Pervus: “Ah, a professional.”

The average co-ed’s idea of intelligent driving is to stick a hand out each side of the car, so she can turn either way she wants to.

---

**SEAL-KAPS**

There are two kinds of contamination: accidental—by dust, dirt, contact with unclean objects; and intentional—by unscrupulous people.

Accidental contamination is by all odds the most common and affects by far the greatest number of people.

SEAL-KAPS were developed to benefit the greatest number of people.

SEAL-KAPS greatly reduce accidental contamination, because they are sanitary—they protect the pouring lip—they reseal tightly when they are replaced.

SEAL-KAPS protect milk in the home until the last drop is poured.

It seems that one day last summer, Luchtenberg was severely reprimanded for the state of shininess of his shoes. Greatly incensed at this undeserved admonition, he went to the nearest shoe shining parlor and asked for a shine. The attendant waiting upon him took one look at his feet, turned around and after calling the entire force of the shop around him said: "Let's get to work boys. Here's another one of these big army contracts."

We happened to be riding behind one of our fair co-eds in a trolley car a while ago, and noticed that she was very much annoyed by the expectorations of an uncouth individual sitting across from her. When the conductor came along, she stopped him and asked: "Conductor, have you no rule against spitting in this car?" The genial token-snatcher smiled upon her and replied, "No, miss; you can spit anywhere you like."

"Willi," says Niki, "is the place where they burn the scandal at both ends."

Poland: "I hear you failed in Professor Milton’s course because of too many absences."
Marie: "Yes, I was absent three times from the places I’d promised to meet him."

And here is one our roving reporter tells us:
It seems that during one of our football games, the situation was serious. There was one minute to play, and we had the ball on their twenty-yard line with one more down to go. Coach Heldman seemed badly worried, but finally he went down the bench to George Poor and asked him: “George, what would you do in this situation?” Quick as a flash the answer came back, “Move down the bench so we can all see better.”

After watching a frosh co-ed give away her milk time and again in the beanery, we dropped by one day and asked the innocent young damsel the reason for her strange trait. From the heights of her sophistication came the answer: “You can’t fool me,” she said, “milk is only chewed grass.”

This also reminds us of the many enjoyable meals we have spent, eating the ice cream of young Clarkson of Comm. House fame. The procedure was very simple; at the right time we would have the charming Elsa K— walk in and eat with someone else. Sometimes love and jealousy make strange roommates.

And when we hear some of our beloved profs lecturing on the uselessness of profanity, we wonder if they have ever hit their thumbs with a hammer.

Good Farmers NEED Good Fertilizers!
High fertility of your soil is easily maintained with Liberty Fertilizer.
The essential plant foods, together with others less common, are combined in a way that protects your crops from starvation at critical periods and reduces crop costs.

Each bag of Liberty Fertilizer carries an additional guarantee of quality extending beyond the analysis—the guarantee that the sources of the plant food have been selected with exacting care to maintain soil fertility.

ODE TO LOVE

By a freshman
(With apologies to F. P. A.)
Joe's kisses left me freezing,
    Eddie's made me long to die,
Jimmie's made me laugh aloud,
    But Georgie's made me cry.

Joe sees me every night,
    Eddie sees me every day,
Jimmie sees me all the time,
    But Georgie stays away.

TO A CO-ED
(With apologies to F. P. A.)
Many a fairer face than yours,
    Many a keener mind.
Many a girl with added lure
    Isn't hard to find.
Yours no face to launch a ship,
    Yours no lovely tress.
Downy cheek or carmine lip
    You do not possess.
Yours is not the charm of youth,
    Yours nor grace nor wit.
And I—since you want the truth—
    Don't care for you a hit.

Seckerson: "Correct this sentence: 'It was me that spilt the ink.'"
Cronin: "It wasn't me that spilt the ink."

Around the Hill it is a current rumor that "Dick" Brockett got married a while back so that he could enjoy his golden wedding while it would do him some good.

Belden: “My next lecture may prove embarrassing to you young men and women. Any who wish to may stay away.
L. J. M.: “May I bring some friends?”

The famous Ellisian Band had just finished playing “Carry Me Back To Old Virginia.” One man in the audience was noticed to be weeping.
“Are you a Virginian?” he was asked.
“No,” he replied sadly, “I’m a musician.”

Agguye: “Do you like the Four Mills Brothers?”
Arlene: “Oh, I love them. Especially the red-headed one who plays the harp.”

Night Watchman (to inebriate trying to fit key into lamp post): “I don’t think there’s anyone home there, to-night.”
Geo. Smith: “Mush be. Ther’sh a light upstairsh.”

And we hear that Lib Wilkinson flunked out because it seemed she objected to doing outside reading because it was so cold out on the porch.

And then there was George. He was a good guy alright. He had to have a lot of sleep because he slept slow.
